

Rectangular Cat Scratchers

Materials Needed:

Cardboard boxes, (empty girl scout cookie boxes work great)

Cardboard

Glue

Box cutter

Ruler

Instructions:

1. Disassemble the boxes so that you have flat pieces of cardboard.
2. Lay the cardboard flat on a surface. Measure 2 inch strips, make a mark, and continue this down the top of the box.
3. Once your lines are plotted, use your ruler and scissors to cut out the cardboard strips.
4. Apply glue to each strip, and lay them down together one by one. You want to stack them on top of each other.
5. Let the glue dry. You can set something heavy, like books, on top to hold it into position.
