REWARDS SCHEDULE OF FATE: WEEK 2 (Thursdays)

The 0-13 week release rate rises at **1.028274%**

Week 14 is a “placeholder” - and will require DAO Vote to Determine the amount - we will propose an INCREASE to offset locked rewards release. Every FATE needs to be used wisely.

(SEE NEXT PAGE)

WE NEED TO HANDLE A LOT MORE TVL:

THIS IS A HYPOTHETICAL (DAO DECIDES)

- It could go up - it could go down.

(WE WOULD LOCK REWARDS AGAIN IF / DURING / AFTER UPGRADES?)

--- point is you're incentivized to compound.
