

WELCOME TO THE TABLE

A New Kind of Senior Housing — Built for Family, Not Isolation

Most senior housing separates families, disconnects generations, and leaves elders alone in buildings that fail the climate test.

The Table is different.

We're building Canada's first **climate-secure, inter-generational senior community**, where care happens around the family table, not behind institutional doors.

At The Table:

- Families visit, stay, and eat together
- Every home is safe during heat waves, blackouts, and storms
- Healthcare is integrated, not outsourced
- Elders are centered, not sidelined

This isn't just housing. It's protection. It's legacy. It's how we care for each other when it matters most.

The first Table is coming to Saskatchewan.

Built to survive the future. Designed for families. Open to all.

The Table — Senior Housing, Reinvented

Presale Unit Selection is open now.
