

Because of a wonderful grant from the Beverley Taylor Sorenson Program, Ms. Brown has been able to integrate visual art with the teachers at Wilson Elementary. It has been a fantastic two weeks!

So far we have illustrated the parts of plants in kindergarten, made Egyptian cartouches in 1st grade, sketchbooks and artist cards about Pandora's Box in 2nd grade, Native American pinch pots with clay and Illuminated Letters in 4th grade, Sugar Skull drawings with oil pastels in 5th grade, and much, much more!

Ms. Brown will be at Wilson for another month doing lots more arts integration with our amazing teachers, so be sure to say "hello"!
