

Priority Area: Effective Teaching and Learning

SMART Goal #1 The proficiency level of staff implementing Data Based Decision Making (DBDM) will increase by 20% each year as measured by the Self-Assessment Practice Profile (SAPP) and Collaborative Work Implementation Survey (CWIS) by 2025.

Rationale: The district leadership team identified DBDM as a priority area of our District Continuous Improvement (DCI). Benefits of DBDM include- Emphasizes using data to improve instruction for all students, not only those who are struggling. Promotes commitment to deep reflection, process, and follow-through. Relies on evidence of learning (data) to guide collaboration. [DB2](#), [DB4](#)

Baseline Data: 9% of teachers surveyed on Spring 2022 DBDM SAPP responded as proficient.

Priority Area: Leadership

SMART Goal #3 Effective district leadership communication will increase by 5% by June 2025, as measured by an annual staff survey.

Rationale: The district believes in leading by example, and that all students and staff can be leaders and learners in the school community. As such, district leadership has identified increased communication as a priority goal. [L3,L8](#)

Baseline: Staff survey conducted Fall 2022. 87% responded as agree/strongly agree with the statement that leadership communicates effectively.
