

Student: How to Search, Favorite and Apply for Scholarships

Log into your SchoolLinks account through Clever.

1. Accessing Scholarship Matching

From the dashboard, click the **Finances icon** on the left hand navigation bar and select **Scholarship Matching** from the side menu.

2. Creating a Scholarship Match Profile

Creating a Scholarship Match Profile allows SchoolLinks to match or recommend scholarships that match your eligibility and/or interests.

There are three segments to complete your scholarship match profile on SchoolLinks. Complete as much of these sections as you can to help increase your matching accuracy:

1. **Eligibility:** your demographic data such as location, GPA, and gender
2. **Interests:** your interests and pursuits
3. **Colleges:** your college interests and goals to help align with college-specific scholarships

Once you've completed each section (or as much as you want to complete), click on **View Matches**.

Description: We're offering a \$5,000 scholarship to one medical student in the United States. The best video response to one of the topics below wins it all. Topics: What is your top motivator for practicing medicine and why? How do you find a balance between your academic and extracurricular activities?

4. Favoriting and Applying for Scholarships

Click the scholarship you want to apply for to expand the scholarship card. You can **Favorite** the scholarship so that it shows on your favorites list so that you can sort to show just favorites in the top right.

You can apply by clicking **Apply** which will take you to the scholarship application (outside of SchoolLinks). If you did apply for a scholarship, use the **Mark as Applied** button to indicate that you applied for the scholarship. This will help you later in the [College Cost Comparison](#) section as you tabulate your scholarship earnings.
