

Magna District ERC NET Preamble

Good evening and welcome to the Magna district ERC Net. Your net control operator this evening is <<your name>>, <<your callsign>>, using the club call sign **K2LDS**. The Net is being called from <<Your City>> This net meets weekly at 9:00 PM local time on the 145.45 repeater which has a negative offset and 100 Hz Tone.

Emergency traffic may break in at anytime during this net.

(Unkey; Pause only momentarily)

This is a directed net for all Amateur Radio Operators in the Magna District. The purpose of this net is to allow members to test their equipment, check propagation, and to share information. All stations are asked to stay on frequency until the net is over. If you need to check out early, please advise net control.

(Unkey; Pause only momentarily)

At this time, are there any stations with emergency traffic for the net?

(Unkey; Pause only momentarily)

This is **K2LDS** Net Control. Roll call will proceed as follows. I will call for check in's by stake. When checking-in, please give your name and callsign, also indicate if you have traffic for the net. (Pause but don't unkey.)

--Go Through Roster--

Call those who indicated they have traffic.

- Calendar
- Announcements
- Training

This is **K2LDS**, Net Control Station. Now calling for any late or missed operators who would like to check-in, please come now with your callsign and stake

(Unkey; Welcome anyone; see if visitors will participate)

This concludes this session of the Magna District ERC NET. Remember this net meets each Tuesday evening at 9:00 PM. on 145.45 repeater which has a negative offset and 100 Hz Tone.

Remember when an emergency occurs check on your family and grab your go kit for that is not the time to learn, rather it is the time to put into use that which has been learned, practiced, and polished.

This is **K2LDS** Net Control returning this frequency to regular amateur radio use.
