This catalog is a guide based on information as it is known at the time of publication. Occasionally, changes occur due to action by the Texas Legislature, the Texas Education Agency, and/or the Texas State Board of Education. In addition, there could be changes that affect course offerings, grade point distribution, graduation requirements and students' class schedules after this catalog is printed. Courses listed in this catalog may not be available because of limited enrollment.

It is the policy of the Belton Independent School District not to discriminate on the basis of race, color, national origin, religion, sex or handicap in its programs, services, or activities as required by Title VI of the Civil Rights act of 1964, as amended; Title IX of Education Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended.

Belton ISD will take steps to assure that lack of English language skills will not be a barrier to admission and participation in all educational and vocational programs.

For information about your rights or grievance procedures, contact the Title IX Coordinator or the Section 504 Coordinator at 400 North Wall, Belton, Texas 76513 at 254-215-2000

How to Use the Course Planning Guide

Planning Your Course of Study

Planning a course of study during high school is an important step in planning for the future. The decisions made, along with the course of study pursued, will affect the plans for the future, including college and career readiness. Career goals may be reconsidered several times. The decisions made now, regarding both the course selections and the participation in activities, will impact options beyond high school. It is best to pursue a broad, well-rounded program of study that will provide preparation for a variety of opportunities, and Belton ISD offers students a variety of options. Students are encouraged to pursue a rigorous, challenging selection of courses best suited to each student's needs.

This guide provides a listing of courses, a guide for career planning, and general information about graduation plans and school policies.

Please use this guide throughout the year as a reference as plans for coursework and the future are being made. Counselors are available to answer any questions or concerns regarding the course planning process.

High School Students and Parents Steps to Prepare for Registration:

- ✓ Review graduation requirements in section "Graduation Requirements/Student Classification".
- ✓ Think about plans and career goals after high school. Decide which college and/or articulated credit opportunities to pursue in high school, see section "Ways to Earn College Credit in High School".
- ✓ Take advantage of ways to earn high school credits outside the normal school day, see section, "Alternate Ways to Earn High School Credit".
- ✓ Review the course offerings.
- ✓ Update your 4-year plan as needed.
- ✓ Choose courses for next year's schedule that support a 4-year plan and career goals. Be sure prerequisite requirements are completed for selected courses.
- ✓ Complete the course selection process that was explained by the campus counselor and submit it by the required deadline.

Graduation Requirements / Student Classification

Graduation Requirements

- A student must earn passing scores on five (5) STAAR End-of-Course (EOC) exams, in addition to earning all required course credits for the graduation plans to earn a diploma.
- Requirements of the Foundation High School Program (FHSP) can be found in section "Foundation High School Program (FHSP) + Endorsements"

English Language Arts	Math	Science	Social Studies	
English I English II	Algebra I	Biology	US History	

Student Classification

The Foundation High School Program (FHSP) requires 22 credits and is the basis for our grade level classifications below. The FHSP + Endorsement requires a total of 26 credits and is the plan recommended for all students. Students may not be approved for a FHSP (22 credits) until after the sophomore year and approved by an administrator.

Students are classified based on the number of academic credits earned at the beginning of the school year. All students who have completed 8th grade enter high school as a freshman regardless of the number of high school credits they may have already earned through middle school, summer school, credit by exam and/or online learning.

	Grade	Classification	Credits	Additional Requirement
	9th	Freshman	0 - 5.5	
Grade Level 10th	Sophomore	6 - 11.5		
	11th	Junior	12 - 17.5	enrolled in English 3
12th		Senior	18+	enrolled in 4th English credit

December Graduation

December graduation applications may be obtained through the counselor's office and must be completed and returned by the first Friday in May. Early graduates may participate in the graduation ceremony at the end of the school year but will not be eligible for valedictorian or salutatorian honors. Early graduates' GPAs and class ranks will be determined in the same manner as other graduating seniors.

The Foundation High School Program (FHSP) + Endorsement / Recognitions

Found	Foundation High School Program (FHSP) The 22-credit FHSP is required for all endorsements.								
English (4)	Mathematics (3)	Science (3)	Social Studies (3)	Languages other than English (2)	Fine Arts (1)	Physical Education (1)	Electives (5)		
Must consist of English I, II, III (ESOL I & ESOL II may be substituted for English I & II for students with limited English proficiency), and an additional English course	Algebra I, Geometry, and an additional/advanc	from IPC, Chemistry, or Physics, and one additional/advanced, lab-based science	Geography or World History, US History, ½ credit	levels in the same language. Note: PLTW AP Computer Science Principles & AP	Orchestra, Dance, Art, Theater Arts, AP Music Theory or Floral Design	semesters of Marching	Any courses not being counted in one of the seven preceding categories

State Assessment Performance

from the 5 endorsement

categories

course

In addition to the credit requirements as listed, students must meet passing standards on the following End-of-Course Exams: English I, English II, Algebra I, Biology & United States History

Endorsements

STEM Multidisciplinary Studies Arts & Humanities **Business & Industry Public Service** Science, including Allows a student to complete Art; Dance; Music; Agriculture, Food & Natural Resources; Education & computer science: Theatre; Social Architecture & Construction; Arts, A/V Training; Health prescribed courses from each of the Science; Law; Public Technology; four foundation subject areas, AP Studies; Languages Technology & Communications; Business, Engineering & courses from foundation subject other than English Management & Administration; Finance; Safety; Corrections Mathematics areas or advanced courses within Hospitality & Tourism (Culinary Arts); & Security; Human Information Technology; Manufacturing; Services; JROTC (Algebra II, one endorsement area or among Chemistry & Marketing Sales & Service: Transportation endorsement areas not in a & Logistics (Auto Technology): Advanced Physics are coherent sequence Broadcast Journalism, Newspaper or required for the **STEM** Public Speaking endorsement)

Recognitions

Distinguished Level of Achievement

A student may earn a distinguished level of achievement by successfully completing all curriculum requirements for the Foundation High School Program, plus each of the following:

- ☐ A fourth credit in mathematics, which must include Algebra II
- A fourth credit in science

math credit dependent on

endorsement

The requirements of at least one endorsement

A student must graduate with a Distinguished Level of Achievement to be considered for the Top 10% and eligible for automatic admission to a Texas public college or university.

Performance Acknowledgements

(26 Credits)

A student may earn a performance acknowledgement in one or more of the following categories:

- AP test score of 3 or above
- Outstanding performance on the PSAT, SAT or ACT
- Completion of at least 12 hours' college coursework with final grades of A or B
- Bilingualism & biliteracy
- Earning a nationally or internationally recognized business or industry certification or license

Additional Graduation Requirements:

In addition to meeting graduation requirements, students must also satisfy the following requirements to receive a high school diploma:

Speech - Chapter 74.11 of Texas Education Code requires students to demonstrate proficiency in communication skills needed for professional and social success. This state requirement will be met through the completion of English I, II, III, and/or IV or approved substitutions.

CPR - Cardiopulmonary Resuscitation - Chapter 74.38 of Texas Education Code requires students to receive instruction in CPR at least once in grade 7-12 before graduation through the utilization of the American Heart Association or the American Red Cross.

Peace Officer - Chapter 74.29 of Texas Education Code requires students to receive instruction in proper interaction with police officers during traffic stops and other in-person interactions.

FAFSA - Financial Aid Application Requirements: beginning in the 2021-2022 school year, all 12th grade students must do one of the following:

Complete and submit a Free Application for Federal Student Aid (FAFSA) Complete and submit a Texas Application for State Financial Aid (TASFA) Submit a signed Opt-Out form

Required Notification Regarding Algebra II

The 86th Texas Legislature, Regular Session, 2019, passed SB 232 requiring school districts, not later than September 1 of each school year, to notify by regular mail or email the parents or guardians of each student enrolled in grade nine or above that state graduation requirements do not require a student to complete an Algebra II course to graduate under the Foundation High School Program. The notification must explain that if a student does not complete an Algebra II course, a student will not be eligible for—

- automatic college admission or
- certain financial aid including:
 - o the TEXAS grant program under Subchapter M, Chapter 56; and
 - o the Texas Educational Opportunity Grant Program under Subchapter P, Chapter 56.

This notification requirement applies beginning with the 2019-2020 school year.

Science Course Sequence

One credit must consist of:

Biology

or

Pre-AP® Biology

At least one credit must be selectron from the following laboratory courses:

Integrated Physics & Chemistry (IPC)

Chemistry

Advanced Chemistry

Physics

AP® Physics 1

Students in grades 10 & 11 may concurrently enroll in Additional Science Courses while enrolled in Chemistry or Physics. Additional Science Courses are subject to prerequisite requirements.

Additional credit may be selected from the following laboratory-based courses:

Environmental Systems

AP[®] Biology

AP[®] Chemistry

AP® Environmental Science

AP® Physics 1

AP® Physics 2

AP[®] Physics C: Mechanics

AP[®] Physics C: Electricity & Magnetism

CTE Courses the Meet Science Graduation Requirements:

Advanced Animal Science
Advanced Plant & Soil Science
Anatomy & Physiology
Biotechnology I
Engineering Science
Food Science
Forensic Science
Medical Microbiology
Pathophysiology
Scientific Research & Design

Additional AP Courses

AP Capstone

AP Seminar	Students learn to investigate a problem or issue, analyze arguments, compare different perspectives, synthesize information from multiple sources, and work alone and in a group to communicate their ideas.
AP Research	Allows students to deeply implore an academic topic, problem, issue, or idea of individual interest. Students design, plan, and implement a yearlong investigation to address a research question. Students reflect on their skill development, document their processes, and curate the artifacts of their scholarly work through a process and reflection portfolio. The course culminates in an academic research paper of 4000-5000 words (accompanied by a performance, exhibit, or product where applicable) and a presentation with an oral defense.

AP Capstone™ is a diploma program based on two year long AP courses: AP Seminar and AP Research. These courses are designed to complement other AP courses that the AP Capstone student may take. Instead of teaching specific subject knowledge, AP Seminar and AP Research use an interdisciplinary approach to develop the critical thinking, research, collaboration, time management, and presentation skills students need for college-level work. The College Board developed the AP Capstone Diploma program at the request of higher education professionals, who saw a need for a systematic way for high school students to begin mastering these skills before college.

Program Details

Students typically take AP Seminar in grade 10 or 11, followed by AP Research. Each course is yearlong, and AP Seminar is a prerequisite for AP Research. In both courses, students investigate a variety of topics in multiple disciplines. Students may choose to explore topics related to other AP courses they're taking. Both courses guide students through completing a research project, writing an academic paper, and making a presentation on their project.

Over the course of the two-year program, students are required to:

- Analyze topics through multiple lenses to construct meaning or gain understanding.
- Plan and conduct a study or investigation.
- Propose solutions to real-world problems.
- Plan and produce communication in various forms.
- Collaborate to solve a problem.
- Integrate, synthesize, and make cross-curricular connections.

Assessment: AP scores for both courses are based on teacher assessment of student presentation components and College Board scoring of student-written components plus an end-of-course exam (for AP Seminar only).

Awards: Students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams of their choosing receive the AP Capstone Diploma[™]. Students who earn scores of 3 or higher in AP Seminar and AP Research but not on four additional AP Exams receive the AP Seminar and Research Certificate[™].

Endorsements

The next several pages will provide students and parents information about the various endorsements and options under each endorsement.

Multidisciplinary Course Sequences

ADVANCED ACADEMIC SEQUENCE

Four credits in advanced placement, or dual credit from ELAR, mathematics, science, social studies, LOTE, or fine arts.

All students entering 9th grade will begin on the multidisciplinary endorsement.

4x4 SEQUENCE

Four credits in each of the four foundation subject areas to include English IV and chemistry and/or physics.

Students will learn and apply basic knowledge of what is expected in the workplace.

High School Physical Education Courses

One credit of physical education is required for graduation. Belton ISD has developed a policy to allow students to participate in an off campus commercially - sponsored activity. Parents must apply to the district for approval. Also, students may be allowed to substitute one of the following physical activities for the required credits: marching band or color guard during the fall semester, Magic Belles/Silver Spurs, dance, cheerleading, athletics, or JROTC. (See Alternate Ways to Earn Credit.)

Course Name	Course Number / # of Semesters / Credit	Grade Level	Notes
Lifetime Recreation and Outdoor Pursuits PES00053	25921 / 2 semesters / 1 credit	9, 10, 11, 12	The Lifetime Recreation and Outdoor Pursuits course provides opportunities for students to develop competency in five or more lifelong recreational and outdoor pursuits for enjoyment and challenge. Students in Lifetime Recreation and Outdoor Pursuits participate in activities that promote physical literacy, respect for and connection to nature and the environment, and opportunities for enjoyment for a lifetime. Students will experience opportunities that enhance self-worth and support community engagement.
Skill-Based Lifetime Activities PES00056	25922 / 2 semesters / 1 credit	9,10,11,12	The Skill-Based Lifetime Activities course offers students the opportunity to demonstrate mastery in basic sport skills, basic sport knowledge, and health and fitness principles. Students experience opportunities that promote physical literacy and lifetime wellness. Students in Skill-Based Lifetime Activities participate in a minimum of one lifelong activity from each of the following five categories during the course.
Partner Lifetime Recreation and Outdoor Pursuits PES00053	25995 / 2 semesters / 1 credit	9, 10, 11, 12	ARD Committee Approval
Partner Skill-Based Lifetime Activities PES00056 (first partner course)	25996 / 2 semesters / 1 credit	9, 10, 11, 12	

High School Athletics

(Athletics can be used to satisfy the physical education requirement for graduation.)

- Students enrolling on a UIL Athletic Team are expected to enroll for one year unless they are a senior who will not participate in the 2nd semester.
- □ UIL rules prohibit students from being enrolled in more than 1 period of athletics.
- Note: Varsity and Sub Varsity designate the class period that you are in and not necessarily the team that you will be assigned to for practice and competition.

Course Designations / Course Load / Extracurricular Activities

Course Designations

Courses are divided into the following designations:

- □ **Skills-Based**-Skills-based courses provide students with the opportunity to take subjects designed for specific learning needs.
- Regular—Academic courses provide students with the opportunity to take subjects that will advance learning in basic subject areas. These courses provide on-grade level instruction in all Texas Essential Knowledge & Skills as outlined in the state board approved well-balanced curriculum.
- □ **Pre-AP/Advanced** Courses designed to offer students the opportunity to build skills for success in AP, college, and beyond.
- □ **Dual Credit**—Dual credit courses provide students the opportunity to earn college credit through concurrent enrollment at a local college or university. Dual credit options include Temple College (including Texas Bioscience Institute), UMHB, and UT-Permian Basin.
- □ OnRamps Dual enrollment courses provide students the opportunity to earn college credit and high school credit at the same time. Students have the opportunity to accept the college credit or waive based on the grade earned. These courses are offered through UT. Prerequisites must be met in order to be enrolled.
- □ Advanced Placement—AP courses allow students the opportunity to pursue college-level studies while still in high school. AP courses prepare students for College Board Advanced Placement Tests. See additional information on the Advanced Placement Program.
- □ Local Credit—This is a course in which a student participates but may not receive state credit towards graduation (P.E. after 4.0 credits, Athletics after 4.0 credits, all Aide classes)

Gifted & Talented Program

Gifted and Talented students can progress beyond the regular school curriculum. Students at the high school level are provided services through designated advanced placement courses. Courses are offered in five academic areas: math, science, social studies, language arts, foreign language, and two elective areas in art and music.

Students may be nominated for the gifted and talented program at any time by teachers, counselors, parents or other interested persons. Criteria to identify gifted and talented students shall be established in the board-approved program for the gifted and talented. Written parental consent shall be obtained before any special testing or individual assessment is conducted as part of the screening and identification process. A selection committee shall evaluate each nominated student according to the established criteria and shall select those students for whom gifted program placement is the more appropriate educational setting.

Assessment tools may include, but are not limited to, the following: achievement and ability tests, behavioral checklist completed by teachers and parents, teacher nominations based on classroom observations, student/parent conferences, student work products (if available) and an interview.

Parents and students shall be notified in writing upon selection of the student for the gifted and talented program. Participation in the program or services provided for gifted students is voluntary. The district shall obtain written permission of the student and parent before a student is placed in the gifted program.

Course Load

- 9th, 10th, & 11th grade students are required to take 7 credit courses each semester.
- 12th grade must be enrolled in a minimum of 6 courses each semester and can have no more than one off period. Exceptions to this need campus administrator approval.
- Students with "off campus" period designations are required to be off campus during those periods and must have administrator approval. There is an application process that must be completed prior to this being scheduled.
- Students who wish to gain a position or try out for membership in any extracurricular activity must be currently enrolled in Belton ISD.

Extracurricular Activities

Participation in extracurricular activities is a privilege, and strict academic standards for participation exist across the state; Belton ISD, in compliance with state law and the UIL, reinforces this with the "**No Pass-No Play**" rule. In order to be eligible to participate in extracurricular activities following the initial six-week period of the school year, a student must not have a recorded grade average lower than a 70.

Waiver of Suspension

However, this suspension may be waived by a principal if the class failed is identified as an advanced placement, advanced, or college dual credit class.

Traditional Ways to Earn High School Credit

General Information about Credits

Awarding of Credit

High school graduation course credit may be earned only if the student receives a grade equivalent of or higher than 70 on a 100-point scale, based on the Texas Essential Knowledge and Skills of each course. A student who successfully completes only one semester of a two-semester course is awarded partial credit. However, for full year courses required for graduation, students must earn the remaining credit either through a credit recovery method or enrollment in the course.

Denial of Credit

Students must be in attendance at least 90% of the time a class is in session to receive credit per Texas Education Code 25.092. When attendance falls below 90% of the days the class is offered, after consideration of absences labeled as extenuating circumstances, the student and parent(s) shall be notified in writing. The principal and/or campus Attendance Review Committee shall hear all cases where a student's attendance has fallen below 90% and an appeal has been filed in writing. To receive credit, the principal and/or Attendance Review Committee may assign one or more alternative learning activities to make up for work missed or credit lost.

Local Credit

Local credit courses DO NOT count towards required state graduation credits.

Original Credit / Recovery Credit

Original credit is earned when a student takes a course for the first time and successfully meets the course requirements to earn a passing semester or year average. Recovery credit is earned when a student retakes a course for which credit was not awarded the first time because of a failing semester/year average. The recovery may occur by retaking the entire course in its standard format or by retaking it in an alternate format.

<u>High School Credit Courses in Middle School</u> (Original Credit)

The HS shown alongside course descriptions in the middle school course catalog denotes high school credit courses available to middle school students.

Students can select courses that yield high school credit during middle school. High school credit courses taken in middle school will become a permanent part of the student's high school transcript for credit purposes but will NOT be calculated in the student's high school Grade Point Average.

Fall and Spring Semesters. Grades 9-12

(Original Credit and Credit Recovery)

Students can earn all 26 required graduation credits for the Foundation High School Plan + Endorsement by successfully completing required courses during the normal school day.

Summer Programs

Campuses may offer both recovery and accelerated summer school for those students who qualify. Dates will be announced near the end of the school year. All class offerings are dependent upon final student counts and pre-registration. Tuition will be charged for accelerated summer school classes.

The **recovery summer school** program is for students who have unsuccessfully attempted a subject during the regular school year. Students cannot receive credit for recovery summer school unless they have previously attempted the class. Students may complete one semester or two semesters of the entire year of a course, which they did not successfully complete during a preceding school year.

Accelerated summer school is for students who wish to take selected classes during the summer term to provide more opportunities in their schedules during the regular school year. Course listings of the course offerings will be available through the Counseling Center near the end of the school year. Students will be asked to pay tuition and registration fees and any applicable lab and/or supply fees.

Alternate Ways to Earn High School Credit

Correspondence Courses

Correspondence courses offer an alternate way of earning high school credit. These courses are offered through the University of Texas or Texas Tech University. The course must include the state required essential knowledge and skills, and the correspondence grade must be received by December prior to June graduation if that course is to count toward high school graduation. Course grades for courses that are part of a sequence must be received by the first Monday in August to ensure the next course in the sequence can be taken in the fall. However, grades earned in correspondence courses are not used in computing grade point average or class rank. Students are responsible for all registration fees and materials.

Website for Texas Tech: www.depts.ttu.edu/ttuisd/high_school.php Website for UT Austin:https://extendedcampus.utexas.edu/

Credit by Acceleration

Credit by Acceleration (CBA) allows students to accelerate and earn credit for a particular course without formal instruction. The district will offer CBA for all academic courses. The exams will be offered at least three days during each of these four testing windows: January 1 to March 31, April 1 to June 30. July 1 to September 30, and October 1 to December 31. Students who score 80% mastery (or greater) on each examination will be given credit for the course tested. Grades earned through credit by acceleration are not used when computing a student's Grade Point Average or class rank.

Credit by Articulation

Students planning to attend a **community college or technical college** can obtain college credit by taking certain high school courses. Credit by Articulation allows students to earn college credit for courses that cover the same material learned in high school. Career and technical courses may count toward a certificate or an Associate Degree. Some courses may earn students articulated credit statewide. In order to receive college credit through articulation, a student must:

- complete a planned series of high school courses at the required grade level and receive the minimum high school grade each college requires (Some colleges require a high school grade of 80 or 85.),
- □ successfully complete one semester of coursework at the college (grade of C or above),
- meet other requirements as specified by the college, such as passing a college test in that subject, and
- present a high school transcript to the college and fill out a Credit by Articulation form at the college.

Once the previously mentioned criteria are met, credit received for high school course(s) will appear on the college transcript.

Credit by Exam

Students may register for Credit by Exam (CBE) or Credit by Acceleration (CBA) through the University of Texas (https://highschool.utexas.edu) or Texas Tech University (www.depts.ttu.edu/ttuisd/supplemental.php). Scores on CBE and CBA exams may NOT be used to gain eligibility for extracurricular activities, in computing grade point average, or class rank. A student may attempt Credit by Exam who has had sufficient prior formal instruction as determined by the school on the basis of a review of the student's educational records.

Students enrolled in BISD must:

- have an average grade of 50 in each subject area in which CBE is being attempted,
- pass the state approved exam as defined in BISD policy with a grade of 80 to earn course credit, and
- not request re-examination on the denied course in the same school-year cycle in which the credit was denied.

Students in a non-public school education setting must:

- submit the course curriculum for which prior seat time is being claimed. A curriculum review committee will review the submitted materials to determine if they match the course curriculum as aligned with TEKS and EOC.
- □ take the state-approved exam for the course(s) for which credit is sought and pass with a grade of 80. If this grade is not attained, credit for the course is denied. The student may not request re-examination on the denied course in the same school-year cycle in which the credit was denied.

Pending the state-certified exam results, the campus administrator will decide probationary placement.

Alternate Ways to Earn High School Credit (cont'd)

Off-Campus Physical Education Classes

Physical Education is designed to promote self-confidence, social skills and safety awareness in students by developing knowledge of lifetime fitness through various activities and skills. The purpose of the OCPF Program is to accommodate students who are making a serious effort to develop higher-level skills in a specific activity that exceeds what the school district can offer through the general physical education program. THE OCPE Program allows students to earn credits that meet the district and state physical education requirements. Only agencies who have been approved by TEA can provide OCPE credit.

Local Policy: The district has developed the following policy allowing students to participate in an off-campus commercially sponsored activity instead of the campus physical education class. This policy reflects Texas Administrative Code 74.11 Subchapter (D) for receiving physical education credit through off-campus commercial programs. The parent must apply to the district for approval, and such approval may be granted under the following conditions:

- Option 1: Olympic-level participation and/or competition that include a minimum of 15 hours per week of highly intense, professional, supervised training. The training facility, instructors, and the activities involved in the program must be certified by the superintendent or designee to be of exceptional quality. Students qualifying and participating at this level may be dismissed from school for one period per day. Students dismissed may not miss any class other than physical education. Students participating at this level may receive a maximum of one-half credit per semester.
- Option 2: Private or commercially sponsored physical activities include those certified by the superintendent or designee to be of high quality and well supervised by appropriately trained instructors. This option requires student participation of at least five hours per week. Students certified to participate at this level **MAY NOT** be dismissed from any part of the regular school day.

Application Deadlines

Fall semester/Full-year applications will be accepted from August 1, 2025 through the end of the school day on August 22, 2025.

Spring semester applications will be accepted from December 1, 2025 through the end of the school day on the first week of school in the spring semester, January 9, 2026. Only programs on the approved list will be allowed.

Applications must be submitted to the campus counselor. The earlier applications are received, the more planning can occur to cause the least disruption in the student's course selection and class schedule. Once received, applications will be reviewed by the campus counselor who will confirm that the agency is on the BISD approved vendor list and then submitted to the Director of Academic Advising & Counseling Services for approval.

Certification of Program

Before qualifying, local policy requires that the following information be provided to the superintendent or designee to certify the activity in which the student will participate, additional, approval is needed by the TEA:

- Type of activity
- ☐ Attendance requirements
- Qualification of coach
- ☐ Information concerning the health benefits and the rigor of the activity

Off Campus PE Full Program Guide

Texas Virtual School Network-TxVSN

Senate Bill 1788, passed by the 80th Texas Legislature in 2007, established a state virtual network to provide supplemental, online courses for Texas students. Courses are provided by Texas school districts, open enrollment charter schools, Education Service Centers, and institutions of higher education. All high school courses offered through the TxVSN are aligned with the Texas Essential Knowledge and Skills (TEKS) as well as the iNACOL National Standards of Quality for Online Courses. All high school courses are led by an instructor who is Texas-certified in the course subject area and grade level and has completed professional development on effective online instruction. Students may request to take an online course for high school credit, provided the course is part of the student's normal course load. The course must be necessary and required for high school graduation and not offered on campus. Students may take a maximum of two online courses per semester. Payment for courses taken through TxVSN will be the responsibility of the student. Courses taken through TxVSN will not count toward the Grade Point Average. Students interested in taking online courses must consult their counselor. Both the counselor and the principal must approve the online course request. For more information about the TxVSN, please see www.txvsn.org.

Miscellaneous Alternate Ways to Earn Credit

Physical Education Credit: Students can also obtain physical education credit through correspondence courses in physical

educat	ion from	the University of Texas at Austin or Texas Tech University (see information on Correspondence Courses).
n addi	tion to th	e regular course work, credit by exam/acceleration, correspondence courses, and summer school, students may
earn hi	gh scho	ol credit in other non-traditional ways. Approval for these types of credit must be obtained before a class is
started		
	Applie	d music: credit for taking private music lessons and performing recitals outside of school through a Community
	TEKS I	pased program that has been approved by the TEA. Students must first register through the counselor.
	Physic	al Education Credit: one credit required for all graduation plans. Students may be allowed to substitute the
	followir	ng courses for the required credit:
		Marching Band (PE waiver will be given for Fall semester only)
		Color Guard
		Drill Team
		Dance
		Cheerleading
		Athletics offered during the school day (PE credit for the first year), may receive up to 4 state PE credits

☐ JROTC (PE waiver for first year)

Ways to Earn College Credit in High School

Advanced Placement Program

The Advanced Placement (AP) program sponsored by the College Board enables students to complete college-level courses while they are in high school. Courses that are designated AP follow specific curricula approved by the College Board and differ from the academic courses in those same subjects. An AP course is like a first-year college course because of the subject matter studied and because each student is expected to assume the responsibility to complete assignments in a manner requested by the instructor. Upon successful completion of the AP level course, the student receives high school credit and the appropriate higher-level grade-point according to the grading scale.

When the student takes the AP exam and scores in an acceptable range, advanced college placement and/or college credit or both may be awarded upon college entrance by the accepting institution. The purpose of an AP course is to prepare the student to take the exam; therefore, each student enrolled in an AP course is encouraged to take the AP exam. All state-supported Texas universities are now required to accept AP scores of a 3 or higher. *All other credit and score requirements are at the university's discretion.*

<u>AP Exam</u> - The examinations for all AP courses are given on designated national test dates during May of each year. The cost of these exams is the student's responsibility. Fee reductions may be applied to the total cost for students on free and reduced lunch. In addition, students may also be required to purchase an AP study guide. Students should review their college selection's policy regarding the awarding of credit, placement and grades on the basis of AP exam scores. Students can check their college's course listing and use the Texas Common Numbering System to make sure these courses are accepted by the college they wish to attend.

Advanced/AP Exit Policy - Please refer to the AP contract.

Dual Credit and OnRamps

Dual Credit and OnRamps are early admission programs that allow students to earn college credit through identified high school courses. Students interested in enrolling in these courses must adhere to the deadlines set forth by the college governing the course.

Students must apply for admission, document eligibility for courses selected, enroll and pay associated fees by BISD designated deadline. Students who do not complete all steps by the BISD deadlines will be enrolled in a BISD course equivalent.

Texas Success Initiative

TSI Assessment

Students attending Texas public institutions of higher education must follow the Texas Success Initiative (TSI). The law requires all entering college students to be assessed for college readiness in mathematics, reading, and writing unless the student qualifies for an exemption. Each student who fails to meet the minimum passing standard of the assessment instrument must be advised regarding developmental education necessary to ensure readiness to perform college level academic coursework and will be placed in a developmental program designed to help the student reach that goal.

TSIA Exemptions

Students may be exempt from the TSI Assessment if they have one of the following:

- PSAT/NMSQT minimum score of 460 on Evidence-Based Reading and Writing, a minimum score of 510 on mathematics.
- □ Scored an ACT college prep assessment composite score of 23 with a minimum of 19 on the English test. With these scores, the student shall exempt both Reading and Writing sections of the TSIA.
- Scored an ACT college prep assessment composite score of 23 with a minimum of 19 on the mathematics test. With these scores, the student shall exempt the Math section of the TSIA.
- □ Taken the SAT administered March 2016 and later and earned a minimum score on the evidence-Based Reading and Writing (EBRW) assessment of 480 shall exempt both Reading and Writing sections of the TSIA.
- □ Taken the SAT administered March 2016 and later and earned a minimum score of 530 in Mathematics shall exempt the Math section of the TSIA.
- A minimum score of 4000 on Algebra I EOC and successful completion of Algebra II high school course with 70 or higher.
- Served for at least 3 years preceding enrollment, is a veteran, on active-duty, or a student who is or has served as a member of a reserve component of the U.S. armed services.
- Transferred from another institution having satisfactorily completed college-level coursework.
- ☐ Enrolled in a certificate program of one year or less (Level One certificates) at a public institution.

Preparing for College

NCAA - National Collegiate Athletic Association

Many college sports are regulated by the National Collegiate Athletic Association (NCAA), an organization that has established rules on eligibility, recruiting and financial aid. If a student is planning to enroll in college as a freshman and wishes to participate in Division I or Division II sports, he/she must be certified by the NCAA Clearinghouse. The Clearinghouse will analyze academic information and determine if the student meets the NCAA's initial eligibility requirements. Students wanting to participate in Division I or Division II sports should start the certification process early, usually by the end of their junior year. In order to be certified, students must complete the registration packet, have their transcript and SAT/ACT scores sent to the NCAA, and pay a fee. It is the student's responsibility to submit the registration packet. Additional information may be found at www.eligibilitycenter.org.

Note: Students planning to participate in Division III, Junior College or NAIA are not required to register with the NCAA Clearinghouse.

Web Links for SAT, ACT, Common Application, Apply Texas, FAFSA & more

The following is a partial listing of websites that students may find valuable during high school. BISD does not recommend or endorse any websites. They are provided only as an informational tool.

www.collegeboard.org	SAT registration, college and financial aid information	www.actstudent.org	ACT registration, college and financial aid information
www.commonapp.org	Common Application	www.goapplytexas.org	ApplyTexas (Texas Common Application)
<u>FAFSA</u>	Free Application for Student Financial Aid	www.fastweb.com	Scholarship search information
College For All Texans: Homem	Grant, Scholarship and early graduation information	www.eligibilitycenter.org	NCAA information
Texas OnCourse	Planning calendars, college search process	College Express	Choosing a College
www.achievetexas.com	Career Information (Note: requires extension)	Texas First Diploma	Texas First Diploma

Testing

BISD provides the opportunity for a student to take various standardized tests needed for the college process and to evaluate a student's future career planning. Some of these tests require registration and payment of a fee. Future College Board revisions may result in additional testing availability.

PSAT (8th Grade, Freshmen, Sophomores and Juniors)

The PSAT (Preliminary Scholastic Aptitude Test) is a Pre-SAT. It provides practice for the upcoming SAT exam and gives students a chance to see how their skills compare with those of other students applying to college. For juniors, it is the only way to qualify for National Merit Scholarships.

SAT and/or ACT (Juniors and Seniors)

The SAT or ACT is required by most colleges and universities for acceptance and financial aid. Initial testing should occur during the junior year, but each of these tests may be retaken as often as needed.

Belton High School is listed as a national test site for the ACT. Lake Belton High School is listed as a national test site for the SAT. Other locations are available throughout Central Texas. See the counselor's office for a schedule of test dates, or go to www.collegeboard.org to register for the SAT, or www.actstudent.org to register for the ACT. Fee waivers for students in the free or reduced lunch program are available in the counseling office.

Belton High School College Entrance Examination Board code: 440580

Belton New Tech High School @ Waskow College Entrance Examination Board code: 440582

Lake Belton High School College Entrance Examination Board Code: 440572

Preparing for College (cont'd)

Testing (cont'd)

Students with Disabilities

Students may apply for testing accommodations through College Board Services for Students with Disabilities (SSD) or ACT's Request for ACT Special Testing. Please refer to the counselor for information on how to apply, preferably during the freshman year. A student's qualification will cover all College Board and ACT testing programs for as long as the student remains with BISD, unless the school indicates that the accommodations have changed.

To be **eligible**, the student must:

	have a disability	that necessitates	testing accom	modations
--	-------------------	-------------------	---------------	-----------

- have documentation on file at his/her high school that supports the need to request accommodations and meets the Guidelines for Documentation,
- receive the requested accommodations, due to the disability, for school-based tests for four months.

Please Note: All decisions regarding accommodations are made by the College Board or ACT.

If students are eligible, they will qualify for accommodations on the following tests: *PSAT/National Merit Scholarship Qualifying Test, SAT Program (Reasoning Tests and Subject Tests), Advanced Placement Program tests, ACT, and possibly other local tests.

*PSAT/NMSQT eligibility enables the student to receive accommodations for SAT Center testing.

Students may request **accommodations** appropriate to their disability. The preference is to accommodate the student in the same manner used for school-based tests. However, when that is not possible, accommodations can still be provided to meet the need. Accommodations may include extended time for testing, photo-enlarged test, larger print, Braille, audio cassette, reader, writer, and/or computer for writing. However, these accommodations may not be available for every test. The student must contact the SSD Coordinator in advance to arrange for the needed assistance. Students who currently use accommodations in school or have an IEP or 504 Plan are **not automatically qualified** for College Board accommodations.

Belton Independent School District Dual-Credit Course Offerings

In order to receive high school and college credit for a course, the course must be on the list below and taken during a school calendar year (August – May).

Course Name	IHE Course #	High School Course Name	Course	HS	Local Course

Grading and Class Rank System

Grade Point Average Explanation for Class of 2026 & Beyond Belton ISD Graduates

- ☐ The grade point average is the average of grades in specific core subjects (English, mathematics, science, social studies and languages other than English), additional AP course offerings and dual credit/OnRamps offerings. The weighted GPA is used to create class ranking. Class rank is calculated based on the student's entity (school) enrollment. Grades shall be given for every course every semester. Grade points shall be assigned depending on the course classification and the grade earned. (See Grade Point Average Explanation section based on year of graduation.) ☐ Class rank shall be based on the average of these grade points based on the numerical grade average. Class rank computed at the end of the junior year may be used for college application purposes until re-ranking occurs after the 1st semester of the senior year. ☐ Final class rank shall be determined at the end of the third nine-week grading period of the senior year. Dual credit courses included in the third nine-week grading period shall include the final grade for the course if a grade is received by May 15. That rank becomes a permanent record on the Academic Achievement Record (AAR); no re-ranking shall occur after graduation for transcript purposes. ☐ High school courses taken prior to 9th grade, courses for which a pass/fail grade is assigned, local credit courses, summer school courses taken for remediation or acceleration, dual credit courses not reflected on the student's schedule during the fall or spring semester or taken during the summer, distance learning in the form of traditional correspondence courses or credit recovery or for remediation, Algebra I, first year foreign language, and credit by exam/acceleration are NOT used when calculating grade point. Please note: Dual credit course grades below 70 do not earn high school credit and GPA points. ☐ Please see table below for Grade Point Average Explanation. This document is housed in the EIC Exhibit in school board policy. Students will be ranked for class standing on the following system: ■ Beginning with the class of 2026: ■ Level 1: Skills-Based Courses ☐ Level 2: On-Level Courses Level 3: CTE year 3 and 4 course, Pre-Advanced Placement, Advanced, Dual Credit, OnRamps, and
 - Advanced Placement Courses

 Advanced Placement Courses
 - □ Bonus Points: Advanced Placement and/or OnRamps Courses (Up to a total of six courses taken in Sophomore and Junior Year combined, and two courses taken in Senior Year)

86	2.6	86	3.6	86	4.6	71	1.1	71	2.1	71	3.1

No grade points will be given for a grade below 70.

Bonus Points will be added for Advanced Placement and/or On-Ramps Courses (Up to a total of six courses taken in Sophomore and Junior Year combined, and two courses taken in Senior Year).

Calculation of Weighted GPA:

- All courses included in the weighted GPA will be calculated using weighted values in the Level 1-3 tables.
- Bonus points will be added to the calculated GPA for up to 8 one-year credit courses, equaling in 16 semester courses. A total of 0.1 weighting for each full-year course (up to 8 courses as described above) will be added to the GPA. This equates to a 0.05 weighting of the course at each of the two semesters. Courses will a grade below 70 will not receive bonus points.
- The maximum obtainable GPA for a student is 6.8 by the end of their senior year, for ranking purposes.

Final Grade System

BISD high schools are on a SEMESTER-GRADE SYSTEM. The final grade for the year is the average of the two (2) semester grades. A student must have a grade average of 70 for the year to pass and receive one full credit. One-half credit may be awarded on a semester basis.

☐ The following grading scale is used: A (90-100); B (80-89); C (70-79); F (69 and below -Failing)

Grading Policy – BHS and LBHS

Regular Courses

Advanced and Advanced Placement Courses

Minor grades - 35% Major Grades - 65%

Minor Grades - 30%

Major Grades - 70%

Examples of minor grades may include, but are not limited to, the following: homework, weekly notebook checks, pop quizzes, warm-ups, worksheets, vocabulary, short essays, presentations, cooperative learning group work, mini-assessments, etc.

Examples of major grades may include, but are not limited to, the following: projects, major papers, major tests, presentations, labs, unit tests, unit projects, 9-week tests, notebooks, etc.

<u>Progress Reports</u> will be issued every three weeks to every student. Academic courses will provide a minimum of 9 minor and 3 major grades in any 9-week grading period. Advanced and AP courses will provide a minimum of 6 minor and 3 major grades in a 9-week grading period. Dual credit students may access their grades through the university.

Grading Policy - BNT@W

Learners at BNTHS@W will be assessed based on the Learner Outcomes, and percentages for each outcome are listed below.

Knowledge (70%): The learner will demonstrate a proficiency of the required curriculum through rigorous, engaging, and relevant learning experiences and authentic assessments.

Written Communication (10%): The learner will use standard conventions of grammar and rhetoric to produce clear, concise, logical writing appropriate for a variety of audiences

Verbal Communication (10%): The learner will clearly articulate ideas in a manner appropriate to the audience, occasion, and setting.

Student Agency (10%): The learner will demonstrate the capacity to set goals, reflect, and act responsibly to effect change. Students own their learning.

Dual credit students may access their grades through the university.

BISD Honor Graduates

Students whose class rank is within the top 15 percent of the graduating class shall be designated honor graduates. District honor graduates shall include the following:

- □ Students whose class rank is within the top **two percent** of the graduating class shall be designated summa cum laude graduates. **Summa cum laude** (with highest distinction) graduates shall wear a gold medal with a blue ribbon at the graduation ceremony.
- □ Students whose class rank is within the **top three to five percent** of the graduating class shall be designated magna cum laude graduates. **Magna cum laude** (with great distinction) graduates shall wear a silver medal with a red ribbon at the graduation ceremony.
- □ Students whose class rank is within the **top six to ten percent** of the graduating class shall be designated cum laude graduates. **Cum laude** (with distinction) graduates shall wear a bronze medal with a white ribbon at the graduation ceremony.
- □ Students whose class rank is within the **top eleven to fifteen percent** of the graduating class shall be designated as graduating with **honors**. Graduates graduating with honors shall wear a bronze medal with a gold ribbon at the graduation ceremony.
- National Honor Society members wear gold cords and collars.
- ☐ Bioscience, CTE, AVID, and Military students may wear earned cords.

Top 10 Percent

According to the Texas Education Code (House Bill 588), students are admitted to any Texas state public college or university if they graduate in the top 10% of their class. * This applies to university admission but may not apply to the school of their preference according to their major. Students must apply no later than two years after they graduate from a Texas high school, and they must complete the application process before the deadline date established by their college of choice.

*Exception: SB 175, passed by the 81st Legislature, modifies the top 10 percent admissions program for The University of Texas at Austin. Under the new law the University is to automatically admit enough students to fill 75% of available spaces set aside for Texas residents in an entering freshman class.

Using data from recent years, the University has determined that automatically admitting students in the **top 5%** of their high school class to the entering freshman class will fill 75% of available spaces for Texas applicants. As a result, **UT Austin will automatically admit all eligible summer/fall freshman applicants who rank within the top 5% of their high school class, with remaining spaces to be filled through holistic review.** *Note: Information is current as of time of publication. Please visit UT Austin Freshman Admission to view most up to date information.*

Valedictorian and Salutatorian

- □ No high school senior shall be eligible for valedictorian or salutatorian honors who has not taken as many as four (4) academic courses each year of high school. Students must have been a registered full-time student at the same high school during the last four (4) semesters prior to graduation to be eligible. To be considered registered for a full semester, a student must enroll no later than the close of school on the tenth (10th) day of the beginning of the first semester.
- ☐ For the purpose of determining honors to be conferred during graduation activities, the District shall calculate class rank at the end of the third nine-week grading period of the senior year. The third nine-week grading period shall be used as the semester grade for the purpose of GPA calculation for all courses with the exception of dual credit.
- ☐ The student with the highest accumulated GPA is named the Valedictorian, and the student with the second highest accumulated GPA is named the Salutatorian. Students graduating earlier than they would normally graduate will not be eligible for valedictorian or salutatorian status.
- ☐ Highest Ranking Graduate: The student meeting the local eligibility criteria for recognition as the valedictorian shall also be considered the highest ranking graduate for purposes of receiving the honor graduate certificate from the state of Texas.

Schedule Change Requests

From time to time, it is necessary for students to change courses during the semester. If a student needs to change a course or transfer from one course to another, the student should discuss the need with the school counselor. This should include the following procedure:

For a semester or year-long course, a student may not withdraw from a course after the start of instruction. However, to meet individual needs, the principal, or designee, may use his or her discretion to approve a course change. A student who withdraws from a course before the deadline stated above will have the grade from the dropped course applied to the grade for the new course. It is highly recommended that a student transfer from one course to another in the same discipline. A student who requests and receives a course change assumes responsibility for the content of the entire course on the final examination.

Students will receive a list of courses requested for the new school year. Prior to the submission of these choices to the counselor, students and parents should review them carefully for accuracy as these choices impact course availability and staffing. Course corrections will only be made for errors in the student's schedule.

In order for changes to be made, the Request for Schedule Change form must be filled out and signed by all appropriate parties. Changes will not be approved without valid documentation and/or reasoning. The student shall remain in the original course until a new schedule is received from the counselor.

Reasons for a change to be considered:

- 1. Students are in need of a graduation requirement.
- 2. Error in the schedule.

- 3. Balancing class sizes.
- 4. Schedule changes per administrative adjustments.
