

# AI Apocalypse Whitepaper v1

## 1. Introduction

It was November 2022. Mr. X was busy working on his laptop and sipping his coffee. Little did he know that on the other side of the world, an announcement was being made that was going to change his life forever. ChatGPT was announced that day. And then the world never remained the same.

ChatGPT was a breakthrough in AI. Within 5 days of its release, it broke the record of reaching the 1st one million users in the world. Just days after its release, Mr. X tried out the chatbot and was thrilled by the things that an AI could do in real time. Solve equations, do office work, create blogs and what not! This would make my life much easier! - he thought. But when Mr. X came back to his senses, he started panicking. A chill went through his spine when he realized that he would no longer be needed for his job at the office. As the AI could do all his work as a blogger. And replace him forever.

AI is gaining intelligence at a rapid pace. And this was just the beginning. An AI can do many things now - from writing stories to solving complex math problems, from writing code to making realistic images, from creating music to mimicking anyone's voice, you name it.

With AI expected to become a 2 Trillion Dollar industry by 2030, it could just be the man's most beautiful creation, that could take us to the brightest future mankind has ever seen. Or it could be the man's most apocalyptic creation that could take us back to the stone age.

Or it could be just something that we could have never imagined.

We have already reached a point where stopping the advancement of AI is no longer an option. Countries & companies are competing with each other resulting in the advancement of AI. We must give the advancement of AI a responsible direction through strict AI regulations, AI ethics and safety.

We believe in using AI in the Right way to assist Humans.

AI is for Humans. Humans are not for AI.

The day this maxim flips over, it will be AI Apocalypso.

Limit AI. Liberate Humanity.

---

## 2. What exactly is AI Apocalypso?

AI Apocalypso is the World's 1st Storytelling **AIverse** - A *Metaverse, Created, Narrated and Visualized* with AI !

In this Majestic Metaverse, you get to choose what will happen next in the story! Thus, steering the narrative in a world shaped by artificial intelligence, where storytelling meets the limitless possibilities of your imagination.

The story is set in a Dystopian future of 2050. When an AI chatbot from **Quantumachi**, a city in Japan, becomes the most advanced & powerful AI in the world. The story is divided into Seasons, which are then divided into Episodes.

AI Apocalypso has an exclusive NFT collection with limited supply. The NFTs are built using the ERC1155 standard and meticulously generated with AI, unique to each and every part of the story.

We are a community of AI and web3 degens, who not only understand the *Dangers of AI* but are willing to spread awareness about its *Right & Ethical* usage.

## 2. AI Apocalypto NFTs

The AI Apocalypto NFTs, that are built using the ERC-1155 standard, represent each part of the AI Apocalypto story.

The AI Apocalypto story is divided into Seasons. And each Season contains many episodes. The AI Apocalypto NFT represents a para of each of this episode. All the NFTs, when joined together, make up the AI Apocalypto story. About 50 NFTs make up 1 episode of the story.

Thus every NFT in itself tells a story and represents the AI apocalypto storyline.

The NFTs have a limited supply of 5048. The “50” in 5048 comes from “2050”, i.e. the year in which the story is set. And the “48” is a tribute to a famous Novel!

## **3. NFT Traits**

Each NFT has unique traits such as follows

### **1) Characters**

The story features different characters in its plots and storylines. Each of these characters, when encountered in the sentences of the story episodes, will be mentioned in the "Characters" trait. These characters will also be featured in the NFT image. This makes every NFT to be grounded to the characters in the story, which are nonetheless the heart and soul of every story.

### **2) Plot Twists**

Plot twists is a special NFT trait. When they occur, it makes the story turn its way around in an unexpected way and are thus an essential part of any engaging story. If the sentences, which these NFTs represent in the story episodes, contain plot twists, then this trait will be marked as having a plot twist.

### **3) Word Count**

This is a general trait which represents the number of words that each sentence of the AI Apocalypso NFT represents. Not every NFT has the same number of words, and thus this can be something interesting for NFT collectors to look at.

### **4) Tone**

The tone of the story represented by the AI Apocalypso NFT means the atmosphere that the particular NFT is generating. For example, the tone can be dark, mysterious, neutral, etc. The tone of the story changes like tides of the ocean. And this is an interesting NFT to deepen your ears into.

The tones can be one of the following

1. Neutral
2. Dark

3. Mysterious
4. Hopeful
5. Romantic
6. Humorous
7. Sarcastic
8. Nostalgic

## 5) Episode

This trait indicates the Episode that each AI Apocalypto NFT represents. There are only a limited number of NFTs generated per Episode (mostly 10). This guides the readers into figuring out which NFT belongs to which story Episode. The NFTs are sequentially numbered to guide the users into figuring out the next part of the story.

## 6) Apocalyptic %

Every NFT will have an upgradeable trait called Apocalyptic % . Initially it will be 0. You need XP to upgrade this trait. The more you upgrade this trait, the more Apocalyptic your NFT will be and thus will be more valuable & unique!

# 4. Voting mechanism

The initial story, and genesis NFTs of AI Apocalypto have been created by the AI Apocalypto team. This initial supply of NFTs serves as the foundation of the metaverse.

The owners of the AI Apocalypto NFT collection will then get to decide what will happen next in the story. They can do so by voting after the genesis NFTs and Episodes of the stories are released. The rest of the NFT collection will then be built and auctioned off to new users through a fair mechanism, after every round of voting.

This would help to build and expand the AI Apocalypto metaverse, its community and its products.

Here each *NFT* = 1 *Vote*.

Voting gives you **XP** which can be used to upgrade the Apocalyptic trait of the NFTs.

## 5. Auction mechanism

Every week one new episode will be released and the corresponding NFTs representing them will be available at the Auction marketplace of AI Apocalypto. More details on the auction will be available soon.

## 6. The KEY NFTs

Initially, there will be 100,000 Key NFTs. These NFTs will be initially airdropped to the top 1000 players of the Whitelisting Guess-Me AI game bot. This key will be your Key to the AI Apocalypto Metaverse!

Only the players with the Key NFTs can read the story. And only the players with Key NFTs will be allowed to enter and bid in the exciting auctions.

## 7. Orwellia

Only users with KEY NFTs will be allowed to read the Story of AI Apocalypto. The users with Key NFTs can redeem *Orwellia* at the end of each Episode which they can then use to upgrade their NFT's Apocalyptic trait.
