It starts with a Custom Lens Replacement consultation.

It starts with a Custom Lens Replacement consultation.

A consultation costs \$150 because we do more than a quick “screening.” Your initial consultation includes a full diagnostic workup using seven different tests and the latest technology. You’ll then sit down with our doctors and discuss the PERFECT vision correction procedure tailored specifically for you and other valuable information regarding the health of your eyes. You’ll also be able to meet Dr. Waite, your eye surgeon. Your \$150 investment then goes towards your vision correction procedure.

How much are glasses and contacts costing you?

The average person spends \$25,000+ on glasses, contact lenses, solution, eye exams, etc. It’s like renting “good” vision from the glasses and contact lens industry. Worst of all, these will NEVER improve your vision. Use our affordability

calculator and see how much you can save by getting Custom Lens Replacement Surgery.

Company Description
