

Title: Data-Driven Instructional Cycle

Audience(s): Teachers (general education and special education)

Grade Level(s): K-12

Overview:

Participants will undergo comprehensive training to develop proficiency in the systematic collection, analysis, and utilization of student data to strategically inform and enhance instructional decision-making, ultimately contributing to improved learning outcomes.

Participants will gain experience in interpreting data, identifying patterns, trends, and student performance indicators. The program will also provide insights into establishing baseline assessments, progress monitoring, and formative assessments, ensuring an understanding of students' academic growth throughout the instructional cycle. Additionally, participants will explore best practices in translating data findings into actionable insights, allowing for the development of targeted and differentiated instructional strategies tailored to meet the diverse needs of learners.

How can we customize this offering for your district/ site?

- Delivery Method:
 - In-person
 - Virtual
 - One-on-one
 - Grade level team/ Small group
 - Whole staff
- Implementation Support:
 - Professional Learning
 - Coaching
 - Modeling
 - Co-teaching
 - Observing/ Feedback
 - Monitoring
 - Facilitate team walkthroughs
 - Data analysis
 - Other by request
