

Hi guys. I wanted to go ahead and talk about what has been going on. I have made mistakes and have greatly fucked up. I want to go over what I have done and some of the announcements that have been made about me.

To put it all upfront, I had been flirting with multiple female streamers, and engaging in online sexual acts with some, all while being married. She was not aware of any of this, and I'm speaking with her and we will be handling it between us in private.

I originally was not going to make a statement or say anything. I wanted to handle things in private with my wife. I've since been called a coward and ultimately made things look worse by disappearing. In my mind I thought it'd be best for everyone to move on without me around, but I realize now I should have said more and for that I do apologize for just leaving. However, after being threatened, blackmailed, doxxed and multiple things being twisted, I decided I needed to say something. So I want to address each statement that has been said that I have come across and shed some light on things.

I want it to be clear, I am not innocent here. This is no way trying to sway opinions or make myself look good, or downplay **anyone's** feelings. I'm not trying to win anyone over, or excuse any of my actions, but I want to provide more to the announcements that have been made and show screenshots of conversations. I'll try to have things broken up into sections and try to keep things clear. I also don't plan on naming/saying things on people who haven't said anything to give them their privacy, but I can adjust or add to this if more things end up needing to be said in the future.

If anything in screenshots is blacked out, it is most likely names or sexual/graphic talk.

Before I get into screenshots and everything I first want to answer: Why did I keep my relationship secret?

In the beginning, I was vocal and spoke of her on occasion. However, a few months in, her and I decided I shouldn't be as open on certain things on stream and I began talking of her less, progressively getting down to not mentioning her. THIS DOES NOT AT ALL EXCUSE MY ACTIONS OR THE FACT THAT I DID NOT GO AROUND TELLING PEOPLE I WAS TAKEN. I took the "don't be as open" way too far and am aware that this is my own fault and just as bad as if I went around saying I was single. It just got to a point where I didn't mention her, and no one would ask if I was single or taken, but this was still wrong of me.

These are the threats and blackmails I have been made aware of. The emails were sent to my personal private email that only a few people were aware of. This leads me to believe I have already been doxxed. Laughing Mask/Woozy: https://x.com/mask_laughing has been the most vocal, posting a blatant threat to twitter for me to stay quiet as well as being the one who emailed me. Avi has made a tweet threatening to dox me if I return.

EDIT: It has been pointed out that my personal email was visible on an old youtube account

Hopefully you are this dumb Inbox x

thank you, and its no worries! he is off the platform and i am just trying to not give him another reason to come back when he sees my name pop back up with this post after so long.

i do plan on revealing his name, voice, and screenshots *if* he returns to the platform so people can keep an eye out, but as of now, i just dont want my name to pop up when he searches his.

I wonder if it will ever catch up to you how fast can I make it there o?o

I wonder if you still have any conscience, any guilt?

I hope so! <3

I mean what's the point of telling your wife if you will just run away from her without a second thought! I wonder when I will do it! Computer Science is a great major to have you know - so many useful tips and tricks <3

Sincerely,

Turns out he wasn't even okay ✨

Bo Barley Today at 10:10 AM

@Announcements Never thought I'd have to say this here, especially about someone who was my best friend, but we're losing a community member today. He's not dying or anything just deleting himself off the internet. Good riddance! It's not my place to tell you all the full/real reasons why he's leaving but I will say that Twitch will be a safer place for women now! Yay!

I ask that you don't ask about Okay_Value, don't DM me or anyone about it. If the people he affected decide to say something that's on them, but I just wanted to give a clearer picture of why he's leaving. He has helped and supported a lot of us but I don't think he deserves to slip away from this looking like some kind of saint.

He is not a good person

With that said, I'll be canceling stream today. I'm a little drained from finding out about all this. (edited)

Announced in Barleys discord server on 2/21/25 at 10:10 am, then to twitter later in the day at 2:51pm

Barley was one of my first friends on the platform, and had been my best friend ever since. Around September, we started flirting more and ultimately confessed being into each other. She was aware of my engagement/marriage the entire time. Things were mutually enjoyed until she learned I had also been talking/engaging in similar acts with other females, where she understandably became upset and we discussed me leaving the platform:

 **Okay_Value** 2/20/2025 10:33 PM
I'm wondering if it might be best for me to step away from value

 **Bo Barley** 2/20/2025 10:34 PM
Yeah

 **Okay_Value** 2/20/2025 10:35 PM
I'm sorry Barley. I think I'll work on shutting it all down tomorrow

 **Bo Barley** 2/20/2025 10:39 PM
If you don't, I will

 **Okay_Value** 2/20/2025 10:39 PM
No I will

 **Bo Barley** 2/20/2025 10:39 PM
Yeah I said that as more of a threat lol
Grrr

 **Okay_Value** 2/20/2025 10:40 PM
I know you did, but no it's okay
Ill make an announcement in the discord and close it down tomorrow and end the channel. If you do decide to say anything, I understand, I just ask you leave the irl stuff out of it

 **Bo Barley** 2/20/2025 10:41 PM
Like what

 **Bo Barley** 2/20/2025 10:41 PM

 **Okay_Value** 2/20/2025 10:41 PM
I'm just going to say it's financial issues, which I mean isn't wrong, part of my disability is being ended

 **Bo Barley** Like what

 **Okay_Value** 2/20/2025 10:42 PM
Just like the irl lady I guess

 **Bo Barley** 2/20/2025 10:43 PM
What do u can keep telling people ur singleee orrrr

 **Okay_Value** 2/20/2025 10:43 PM
I mean Barley I'm going to step away from it all. There won't be any one for me to tell im single I guess. And also I haven't told anyone I'm single, no one asks

 **Bo Barley** 2/20/2025 10:44 PM
Ok
R u asking me not to tell ur wife about this then

 **Okay_Value** 2/20/2025 10:45 PM
I'd appreciate if you didn't
And if you'd unfollow her stuff on insta

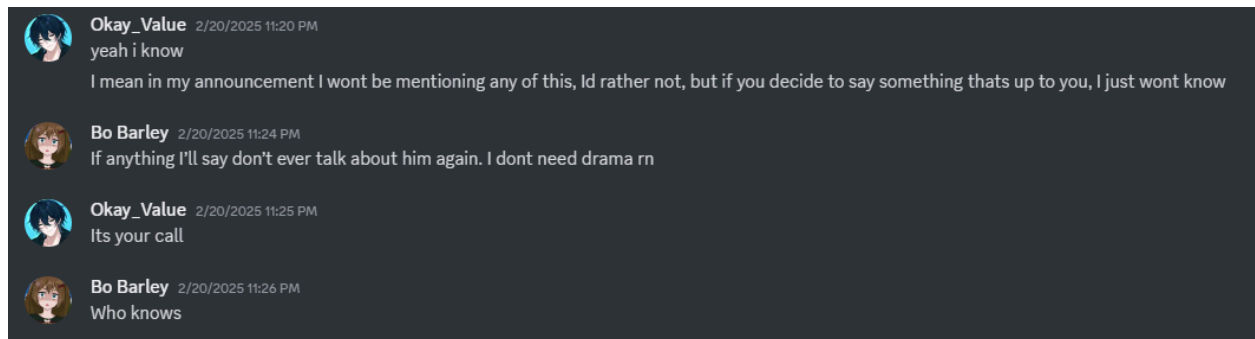

From talking with Barley, I came under the understanding she wanted me to just leave, and I started shutting down my platforms. She waited until after I had left her discord server to make her announcement and waited till later in the day to make the post on twitter, potentially to keep me from seeing it:

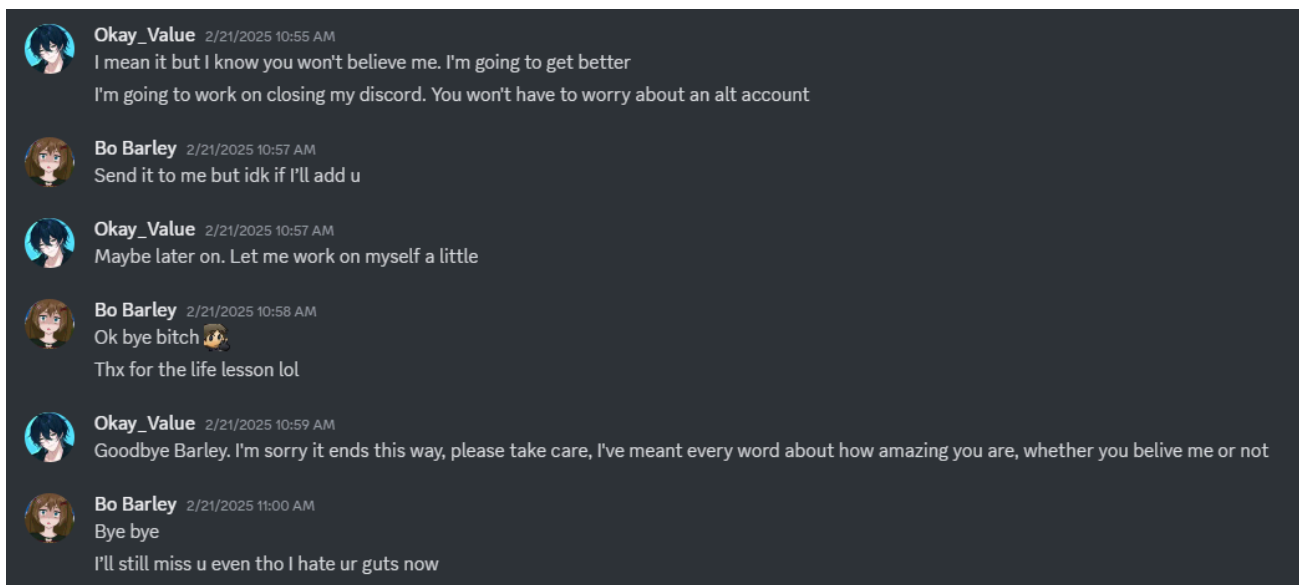

I won't go too into detail on our romance out of respect for Barley's privacy, but she is welcome to if she decides, and I have no problem responding at that time if needed.

I had asked Barley not to tell my wife that way the news would be coming from me and her and I could work things out on our own. It was never a case of "begging" Barley to not say anything. I had let Barley know she is welcome to make an announcement if she had wanted:

Our final conversation even left way to potentially talking again in the future. I had said I was going to make a new discord to provide to her, however I never ended up making the new account.

Closer to the end, Barley did start to distance herself a little. We hadn't been hanging out as much (which was my fault) and she wouldn't be stopping by my streams as often. On 2/14 we discussed everything:

 **Bo Barley** 2/14/2025 8:15 PM
ur not mad r u

 **Okay_Value** 2/14/2025 8:40 PM
what? why would I be mad? I stepped away to eat

 **Bo Barley** 2/14/2025 8:43 PM
Oh idk u we're still talkin in bees chat when u stopped messaging so I thought I said something wrong 🙄 sry

 **Okay_Value** 2/14/2025 8:44 PM
Barleyyy you are good. Whats been goin on lately? You got sad last night too, talk to me

 **Bo Barley** 2/14/2025 8:47 PM
Idkkkk just overly cautious cuz I keep finding myself being awful

 **Okay_Value** 2/14/2025 8:47 PM
I mean then you know we can talk and work it out, silly. Im here for you

 **Bo Barley** 2/14/2025 8:56 PM
Yeahh true. I guess it feels like u don't rly like me anymore which is probably why I'm being so paranoid that someone is replacing me. I have fully convinced myself [redacted] is into u and sending pics lol. I just don't know what to do bc I know I'm making shit up in my head or im taking the smallest comment and making stories up about it. then I take it out on you sometimes so I'm lowkey distancing myself so I don't do that anymore. Idk. If u r over me or need distance tho pls tell me! I understand

 **Okay_Value** 2/14/2025 8:57 PM
You do know [redacted] lives with her boyfriend and lives off him right?
[redacted] is an incredibly nice and supportive friend
we do silly sus jokes here and there yes
do we message occasionally. yes
Have we sent ANYTHING? no
Have we flirted? no

Have we sent ANYTHING? no
Have we flirted? no
do we even dm anything sus? no, we keep it friendly and professional
But she is one of the last few people I can actually talk to about twitch stuff and shell tell me things straight
She hangs out each stream and is extremely supportive

 **Okay_Value** 2/14/2025 9:08 PM
Barley you are my best friend, I still completely love hanging out with you. You know ive been in a rough mental state lately, but you arent "replaced" or anything. You know I still really like you, I cant shake that, and no I dont want distance. Is this because we dont do sussy stuff anymore? Barley, Im sorry but I just dont know if its best to keep the sus stuff, I dont want our friendship to change, and frankly, YEAH I miss being in call with you, and I miss all the sus stuff. [redacted] and I miss those [redacted] with you god so much, but its part of what put you in a bad mental state back in december and idk it just doesnt feel fair to you, I dont want you to be in a place of SOLELY thinking of me or something you know? Im not trying to make you feel unwanted or anything, because fuck I still want you so much, but I just feel bad about it. You are still and always will be my bestie, ill always luv ya and always mwah you to bed

But also some of the other still, is really taxing. This whole imaginary beef with [redacted], you couldve just talked to me about it rather than letting it brew up. The whole not liking krow thing, to me it feels like you dont like him because I give him some attention. Idk I just feel like I just keep making you upset over and over because I make a silly comment to someone that has no meaning. Or when you message like oh I cant watch your stream or I shouldnt have stopped by your stream, it really hurts and I dont know what to do about it. I hate putting you in that position, I hate making you sad or anything, and I feel like im just making things worse for you
im not trying to get you all sad and stuffff, I swear none of this stuff is going to make me talkto you any less, this is just us talking

 **Bo Barley** 2/14/2025 9:18 PM
Sorry I'm trying to figure out how to respond

 **Okay_Value** 2/14/2025 9:18 PM
PLease dont be sorry, its okay

Okay_Value 2/14/2025 9:18 PM

PLease dont be sorry, its okay

and I mean idk, you dont really have to say anything unless you want to

But that doesnt mean like stop talking to me? Id still like to fortnite and all tongiht

Bo Barley 2/14/2025 9:54 PM

Sorry about the Rin thing getting too much. I didn't wanna talk to u about it cuz you've been so drained lately n I feel like a burden every time I talk to u. Yeah with Krow every time I see him streaming u barely message me so it is me being greedy for attention. It did start with that bad impression of him being weird towards me till I raided him tho. So it's not just you. I can work on things w him but u always say I don't have to like him so idk what u want w that.

The bad headspace a few months ago wasn't bc of the sus stuff it was bc u had more followers than me and it made me think u were better than me in every way bc of that. I obviously don't think like that now it was a learning experience that numbers aren't everything.

If u want to stop the sus don't say it's for me just tell me u don't want to anymore. I'm still into you, I still like all the [REDACTED]; I'm still down for whatever ur down for.

What do u mean by "solely" thinking of u? Am I just being too much? Should I be looking for other people?

Sorry for not being able to watch ur streams. I know the reason my crush on u started bc of all the silly sus jokes u make but bc I feel distance from u and our communication isn't much anymore, it just makes me upset now. Idk I guess the jokes just make me uncomfy sometimes n I don't wanna feel like that about you so I don't watch ur streams much anymore. I feel bad saying that bc I don't want u to feel like it's wrong or that u have to change for me.

That was kind of a mess let me know if anything isn't clear. Sorry if I worded things to where it sounds rude, I'm just trying not to fluff things up too much

Okay_Value 2/14/2025 10:07 PM

By solely idk, I just think once you mentioned like, not wanting chat to be flirting with you becuase you only wanted it from me or something? idkkk im not saying you SHOULD be looking for other people, but if someone happens to come by that maybe you start to like or something, I dont want you purposefully passing it up because of me if that makes sense?

Im not saying you need to be friends with Krow, I was just using him as an example there. Same with Rin, you dont need to be friends with her, but I dont want you to feel uncomfy around either of them I guess. I mean you literally said like you got sick just from me mentioning Krow on stream

I know the bad headspace was mostly from the twitch stuff, but there was still parts of it from the sussy. you mentioned it a few times

I know the bad headspace was mostly from the twitch stuff, but there was still parts of it from the sussy. you mentioned it a few times

Im just I guess conflicted on the sus stuff, do i necessarily want it to stop? no. Do I still want it all? of course I do. I just dont know if we should. I mean theres plenty of times im sitting there thinking of you and just not sure if I should tell you I guess.

Barley I mean we still talk every day, we still communicate a ton, and I still tell you pretty much everything. idk is the distance coming from you feeling you need to distance yourself? I mean im just trying to figure out what I need to fix i guess, Im trying to not be distant and trying to always be here for you, I dont want to lose your friendship at all.

I mean I just dont know what else I can do. I still get all excited when you pop by stream, I dont want to make you uncomfy, but yeah i still want to make the jokes and be how I am and such, but I dont want to affect you with it. I want you to be able to enjoy my streams, because i still love your streams. I guess I feel like ill make a sus joke or something towards someone and your mind immediately jumps to I must be flirting wit hthem, when im not.

im sorry Barley, im not trying to make you feel any of these bad ways, I just want us to be besties

Bo Barley 2/14/2025 10:34 PM

I think I just like u more than u want me to. It's not like ur wasting my time or preventing me from seeing other people. Ur definitely the reason I don't feel lonely rn tho. Maybe that's why I'm so clingy and scared to lose you.

I think I should at least make more friends. Bc I feel guilty when you're not the first person I ask to hang out but with u being antisocial lately I'm not letting myself ask u to hang out so then I just end up not hanging out with anyone at all. Then I see u hang out or collab w other people, drinking and having fun and I want them dead (I'm being dramatic) bc why them and not me? That's gotta be why I felt sick when Krow was in that collab w u. (I'm figuring this out rn Im sorry)

I guess I'm really just missing you and wanting attention that isn't just texting.

As for the headspace, I do remember that I wasn't as comfortable with sending u pics so when u asked for them it did send me into a panic. But I've showed u m, [REDACTED] so like it's chill now lol. I don't want to like argue that we should keep being sus tho I feel like I'm pressuring u into it or something.

Idk what to do about the stream stuff. I think after this convo I'm ok with [REDACTED] and I was fine w Krow for a while till that one night I freaked out so I can be chill w him again.

I had a thing for a while where I was really good at noticing when I was overthinking or overreacting and calming myself down and realizing I was being dramatic but it kinda slipped away from me for a bit. I'll keep working on it.

I can try to watch ur streams again and see if it still makes me uncomfortable but I think just being normal and hanging out regularly whenever ur feeling up for it will be the fix.

Okay_Value 2/14/2025 10:49 PM

It's not that I don't want you to like me and all, I just feel bad I can't offer you more if that makes sense, because frankly, yeahhh I do want to offer you more, but I know I can only do so much. and it makes me feel bad

Im okay with you asking me to hang out that's fine, I just yeah am not always in the mood too, that is nothing bad against you or that I don't want to hang out with you, Im sorry Ive been like that, but I really don't want you to take it personally. The collabs lately have been things Ive been pushing off since like December. back then I tried talking to you about how I was getting overwhelmed and pressured with people asking to collab, but that was around the time you didn't want me talking about stream stuff so I didn't get to really share much. Ive just felt bad pushing these people off so much and they've kept asking and asking, so ive been trying to push myself to be more social, so I can also be there more for you, and it was the wrong move and I think a big part of why I was in such a bad place last week and needed the couple days

I completely allow you to ask me literally as much as you want to hang out, just please don't take it personally if I say no, me saying no if anything shows that im comfortable with you because you know I hate saying no

I do think you having others to hang out with and such is a good idea, and I hope the people on the server is at least a good start for that? And I mean we keep playing on the server a bunch, and I know you said it's not the same, but it's kinda been good for me. Having people there but not be required to chat or anything so I can kinda just zone out and focus, then we chat here and there, that was really helping me tbh but I feel like that's not enough for you. And I know you said I can always be in call and not talk, but if I do that, then you think im mad at you and not wanting to hang out with you and that's not the case. Im sorry, Im trying really hard to get back to how I was and I really just need you here for me on this

I get you missing me and wanting more, again I want to give more, im trying, just please understand where im at. I think hanging out as the group is nice, because then I can be a little less attentive and it's a bit more okay, but we haven't been able to get everyone together like at all

Im just idk on the sus, I mean I want to, I just don't know. You aren't pressuring me. I mean I guess we can still share [redacted] and maybe [redacted] or there, I just if possible for both of us, I think not being sus all the time would be nice?

I want you to feel welcome and comfortable in the streams and have fun if you decide to watch. Youve LITERALLY [redacted] lol if I tease someone else about it or something, I swear it means nothing. If I message you saying that oh [redacted] lol I MEAN that and do want [redacted]

I do want to get back to hanging out and all more, i just need to keep working on it, and please just be patient with me

I do want to get back to hanging out and all more, i just need to keep working on it, and please just be patient with me

Also on [redacted], she absolutely adores you and Hemp, she thinks you two really are amazing. Ive done nothing but tell her how important you two are to me and how helpful you two have been. Im not saying you need to become friends with her or anything, but honestly she could be a decent friend to have. Shes unfortunately dealt with a lot of not great interactions with other streamers, so I do think she would really appreciate having a true friend like you can be, BUT again not saying you need to or anything. Shes just a very sweet and kind person that might be worth giving a chance

Bo Barley 2/14/2025 11:10 PM

Pls don't feel bad for not offering more, I went into this knowing u had a fiancé it's not like I don't know. I've already told u I'm fine just being a flirty Internet thing w u. I guess I just want to be ur only internet thing if that's not too much to ask.

I did stop asking u to hang out bc u said u felt guilty saying no to me so I'm glad ur able to say no now.

I'm sorry for being so needy with attention I will be more patient w you and I'm rly glad the smp has been good. I did say it's not the same kinda hangout but that's mostly bc I've been dying to play Fortnite lol. And it is a little less goofing around and fun when not in like a group voice call especially bc ghost and hemp both moved a million blocks away and hempies been in a bad space recently too.

I did say it's nice just being in a voice chat with u but I don't remember thinking u were mad or anything bc u were quiet? I don't think that was the case but I'm sorry for making u feel that way.

And I'm sorry I wasn't there for u when u were overwhelmed w people asking to collab. I was rly awful to u during that time I still regret most of what I said. I rly hate how much I've hurt u.

Again, I'll be patient w the hanging out stuff I won't expect things to be back to normal right away but I might need a conversation like this here or there bc it rly helps a lot to know what ur thinking.

Okay_Value 2/14/2025 11:18 PM

You are okay to ask me to hang out, I do still feel a bit guilty saying no, but I will get over that and just be honest about yes or not feeling up to hanging out, I promise.

I get that, im up for some fortnite so im happy to play some. but I really have been enjoying the minecraft so im glad you are too. I get wanted to call with ghost and hempie during that, but i think we all just zone out and get in the focus mode but idk. Maybe if you ask they'll be more open to calling

Its also kinda me thnking you guys get mad at me if im not as talkative in the calls, maybe thats me doing my own overthinking and if so im sorry about that and will try and not be like that.

Its okay Barley, seriously I know it was a rough time for you, I don't hold it against you. We are at a better spot now. you know im happy to talk about things and all, you are always welcome to chat with me and id rather you share your mind than not

Bo Barley 2/14/2025 11:22 PM

I know for sure the gang isn't mad when ur less talkative. Everyone gets like that so it's totally fine.

Barley and I had a very strong friendship that went through some patches, but we always made up. My mistake to Barley was talking to other people over the course of Barley and I talking and I really hurt her with that. Aside from that, we had a mutually enjoyed and consensual time together

Barley, if you do happen to read this, Im very sorry for how things ended between us but I am aware it is my own fault. Its also my fault for letting the flirting begin in the first place between us. We went through a lot together, and I still cherish the friendship we had.

i never spoke up about this, but during my first few months of streaming i was heavily sexually harassed and manipulated by one individual. i have always been the one to say, "speak up!", but how could i when he was supposedly such an angel in the community? i was terrified that everyone would turn on me. look at me like some kind of animal for even accusing this man of such a thing. he even begged me not to say anything about him. especially publicly. i have been holding my breath for so long.

but today i learn he has left this space, and i finally feel like i can breathe again.

so i had first met [redacted] on twt. he dmmed me saying he would like to be friends and get to know me, etc etc. i am sure you know how that goes. we eventually transitioned to discord where we started speaking more regularly. as most people that know me know i am naturally a very jokey flirt. it's something that is a part of my humor that i have always had. (i stopped doing this with people outside of my vtuber group because of him.) maybe this was my fault, but i assumed his retorts were in a joking manner as well. another thing i should mention is that being "mean" is a part of my personality as well. not a genuine mean, but a teasing to those i know well, if you know what i mean. this "mean-ness" was never an issue with him until later.

anyway, we continued speaking pretty regularly and i too grew to trust him with personal information. i guess i grew too comfortable and agreed to face reveal with him. some time after that the flirting became more frequent and much more sexual. again, my flirts are only jokes and once i realize it isnt a joke anymore i stop. so, i realized that he was no longer joking, despite him saying he was, and i stopped the

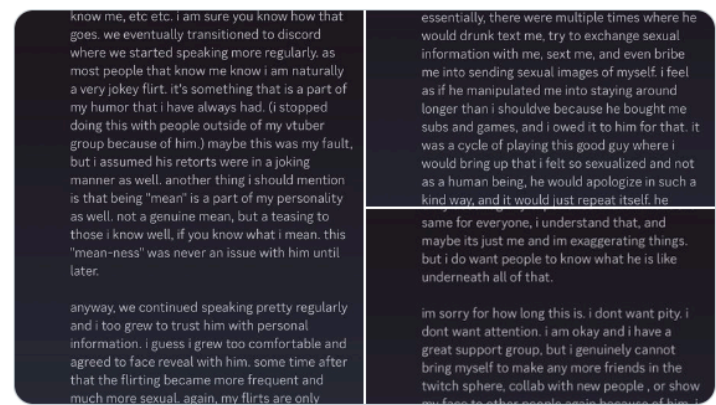

AVI TANUKI VTUBER | ETHEREA

i have blocked out his name because a part of me is still fearful. if you figure out who it was, then so be it, but i will not speak his name myself.

the screenshots below is my experience with this person.

someone in his bubble had asked me to come forth and talk about my experience with him. at the time, my identity was anonymous. i was unsure for a long time, but i wanted people in his circle to know who they were truly around. so, i came forth and spoke the screenshots below, revealing myself. despite my statement, the person i revealed this to decided to stick next to him. for what reason, i don't know, but i say this now because if you are reading this- i want you to know i am disappointed in you. i don't know if it was the clout or the money or the games he gave you but i am beyond disappointed and hurt.

5:11 PM · Feb 21, 2025 · 2,007 Views

despite him saying he was, and i stopped the bit. he wasnt exactly too enthusiastic about this of course, but it didnt really stop him. i was uncomfortable with it, and despite the whole "mean" thing i have going on, i let him push me over and i let him keep going with it saying it was okay even though i felt super uncomfortable with it.

essentially, there were multiple times where he would drunk text me, try to exchange sexual information with me, sext me, and even bribe me into sending sexual images of myself. i feel as if he manipulated me into staying around longer than i shouldve because he bought me subs and games, and i owed it to him for that. it was a cycle of playing this good guy where i would bring up that i felt so sexualized and not as a human being, he would apologize in such a kind way, and it would just repeat itself. he would constantly say that i was "so mean" to him and whatnot- when now that i look at it, i think i just wasnt giving him what he wanted.

i genuinely feel so insane for this because what if i am the bad guy he keeps saying i am?? what if im making it up even though i have the screenshots to back it? it just sucks because i he's getting all this praise for such a kind guy

screenshots to back it? it just sucks because i he's getting all this praise for such a kind guy persona and everyone keeps posting about how kind and giving he is, and im left feeling like a dirty used rag. my experience with him isnt the same for everyone, i understand that, and maybe its just me and im exaggerating things. but i do want people to know what he is like underneath all of that.

im sorry for how long this is. i dont want pity. i dont want attention. i am okay and i have a great support group, but i genuinely cannot bring myself to make any more friends in the twitch sphere, collab with new people , or show my face to other people again because of him. i dont want my experience with him to be anyones 100%, but if you are already on a tipping point with him- i would suggest you leave before you fall victim too.

i know i have a grittiness to my personality. i know i have thick skin. but at the end of the day i am a person too. i just wanted to be treated like it. like my what happened to me mattered. i don't want to keep shoving it in the dark corner and hoping for the best.

fuck, i don't even collab with people outside of my circle anymore because ive been so scared. i raided this guy. i left MY COMMUNITY with him. it makes me feel so disgusted knowing i left the people who take their time to come see me at his front fucking doorstep.

i am so sorry to you guys for that. i know it's one bad apple out of so many good ones, but fuck. this sucks. i can't say im sorry enough.

i just cant help but blame myself over and over again for what's happened. i know better. i lived it before and fell for it again. he was one of my first streamer friends outside of etherea, but i guess you never really know the true *value* of a persons character.

These are Avi's tweets on the situation. I hope they are clear enough to be viewed, and if not her twitter link is above.

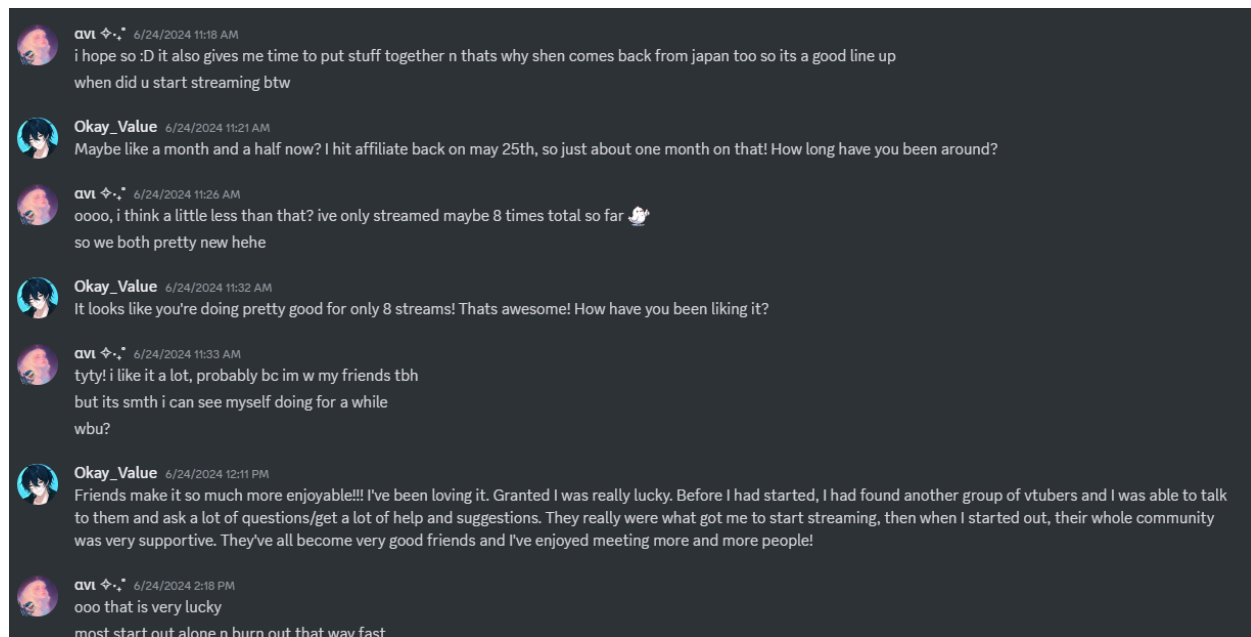

To start, I will admit Avi is probably the situation I was the worst with. I was flirty and definitely overshared at times. Avi, I know me saying sorry for how I was towards you doesn't mean anything now. I truly wish I had just been a better friend and not a burden to you. I have no intentions on ever contacting or bothering you, just as I have left you be all these months.

However, there are a few things in her statement I would like to address:

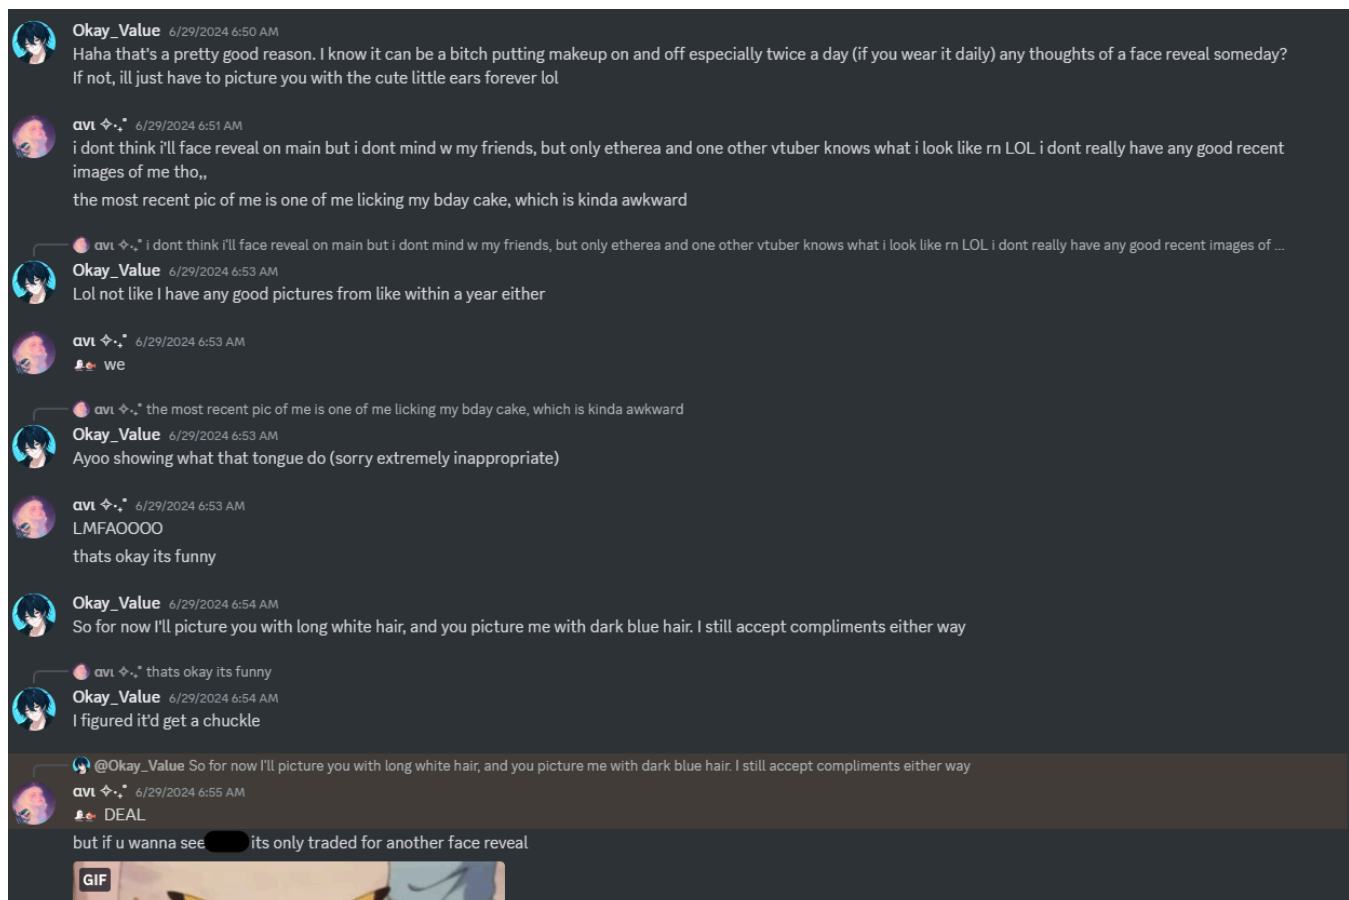

Avi and I started talking around June 20~ish, interacted a few times on twitter, till I dm'd her saying how her group (etherea) all seemed very nice and if theyd like to collab at some point. We talked a little, then switched to discord (june 24th) where she began to tell me about her minecraft smp and asked me to join.

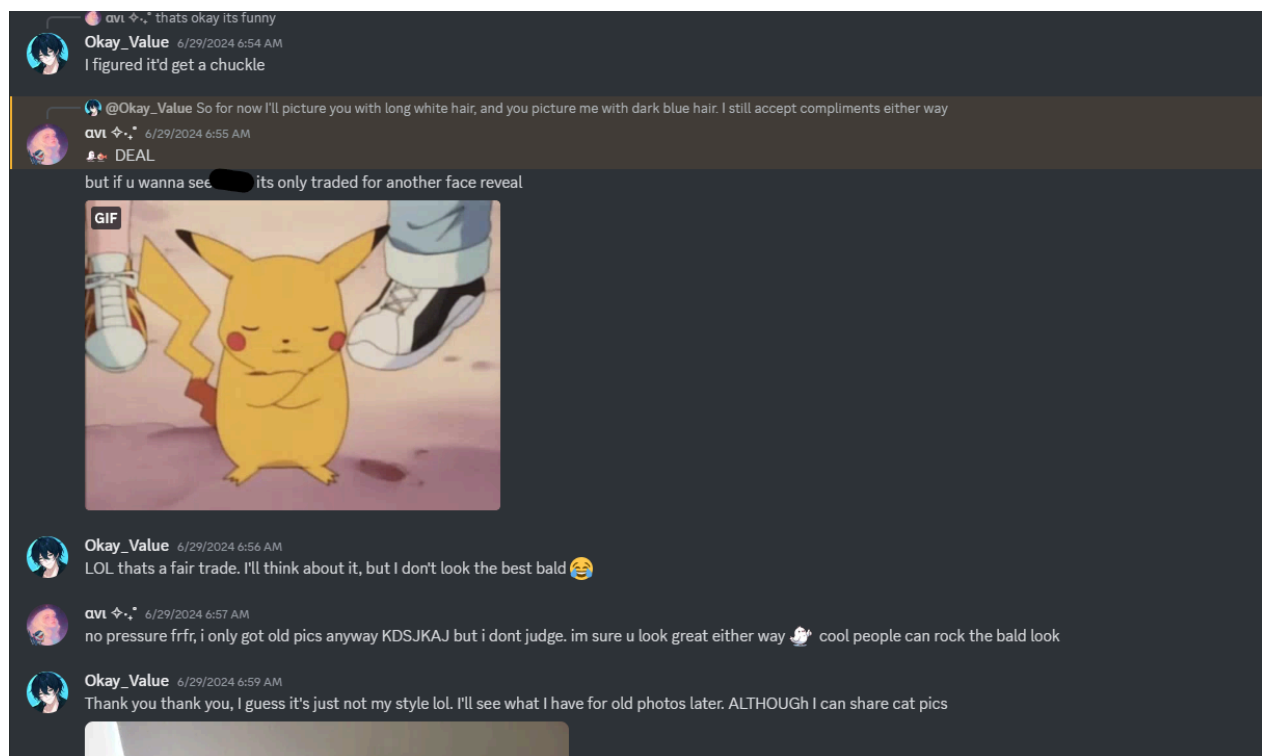

After discussing the minecraft smp, we got to know each other a bit and talked about our streaming journey so far

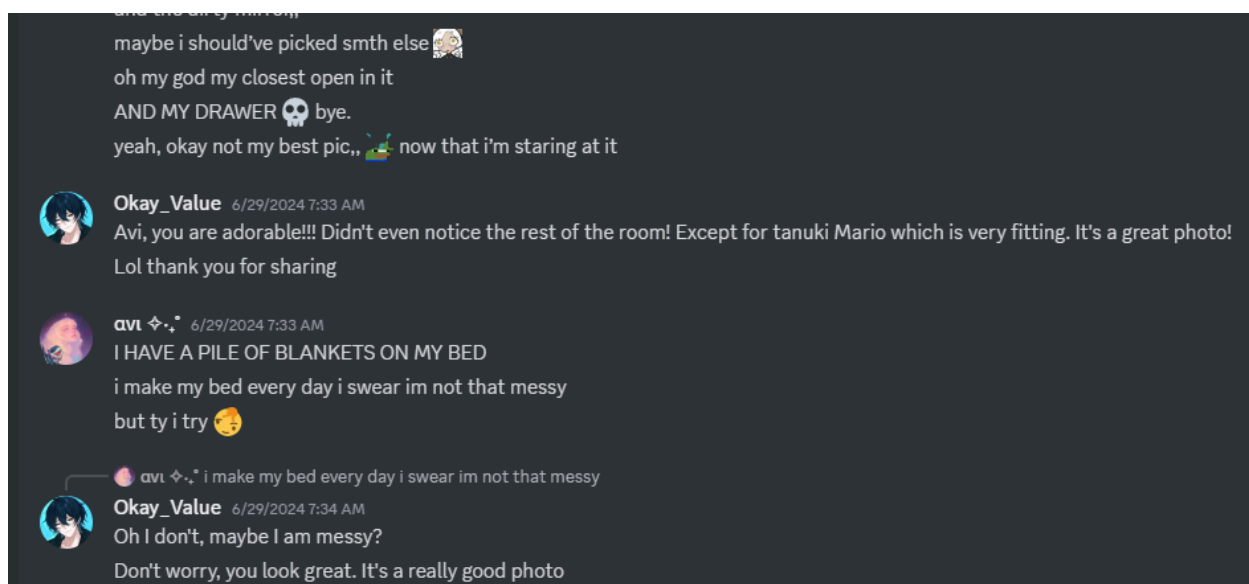

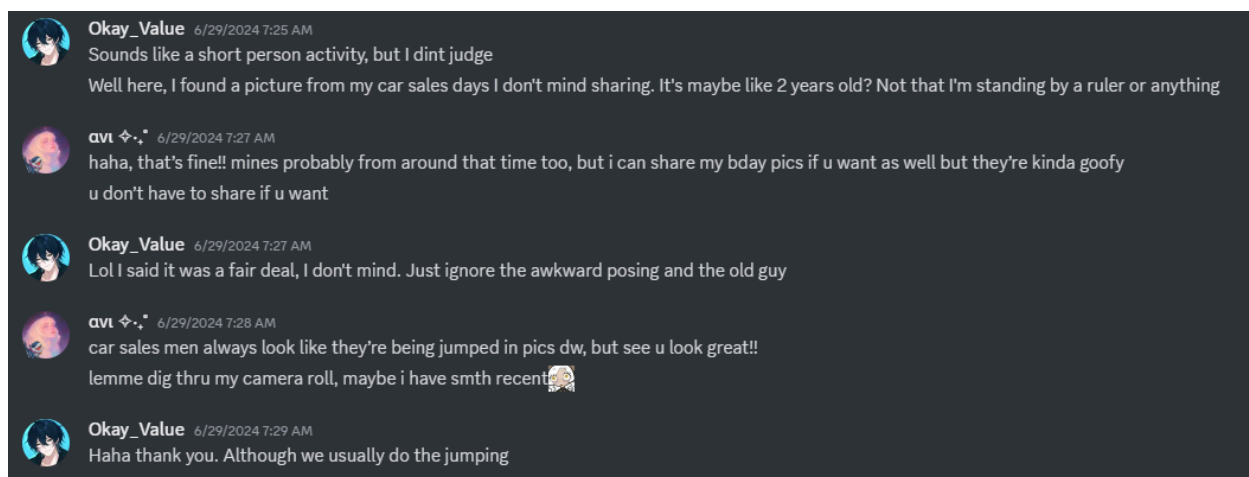

A few days later, as we were talking about why we both chose to be vtubers instead of irl streamers, and eventually discussed swapping selfies:

Later on we did end up exchanging selfies

Avi claims that I would buy her games or gift subs to make her feel like she “owed me”. However, any gifting or game buying happened very early in our friendship:

She had also just hit affiliate, so I went and subbed. As far as buying subs and games, I think in total I gifted maybe 20 subs (I cant fact check the sub amount, so grain of salt please), I did gift her the “pink mercy bundle” for overwatch on June 29th

And we had discussed playing A Way Out together and I bought this for her as well, it was on sale at the time

These were all gifted very early on in our friendship. There was not another time that I gifted games or anything extra to try and persuade her to keep talking with me. With a way out, I simply got to paying for it before she did and we did the collab a week or so later. After this there was no more gifting or any kind of way to make her feel she owed me her time.

avi🎮6/28/2024 3:26 PM

how could u do this to me.

I COULDVE GOTTEN IT

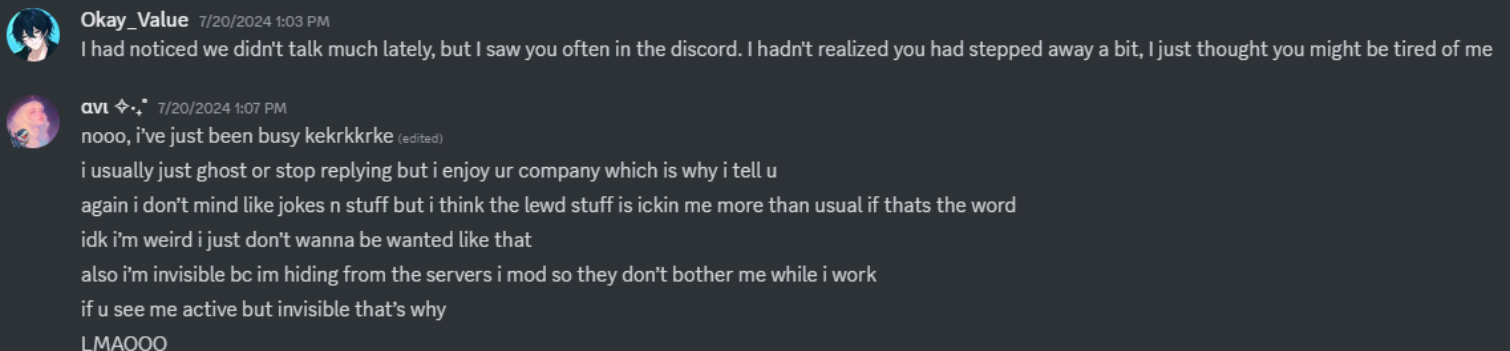

I did at times ask about sexual interests, not in the interest of “sexting” with her, but to discuss interests. (7/13) One night, I did overstep and shared an interest of mine. After her response of not being happy with it, I promptly deleted the message. She may have it screenshotted, and if she would like to share it that's fine. I believe it had to do with ropes.

After this interaction, I made sure to dial way back. Yes, there was still the occasional flirt/sus comment, but the conversation of sexual interests was not brought back up. We continued to talk daily as we normally did.

On July 20th, she shared with me a text exchange she had with someone talking about how she felt most guys sexualized her and how she felt uncomfortable by it. Since this was a text conversation between her and someone else, i'm not going to show those here, but it seemed she was referring to multiple guys in the rant. We then talked about it:

PLACES TO B PEOPLE 2 SEE

if u see me active but invisible that's why
LMAOOO

Okay_Value 7/20/2024 1:09 PM

No no, I completely get it and you have every right to not want to deal with it. I'm glad you're talking to me about it, really. I don't have any ill feelings or anything

After this, the flirting was dropped completely and we just talked as friends. We continued to talk daily into August, which she then had a trip so we talked a little less frequently, we talked a little a few days as I was recovering from a surgery in late August, then that was about it. There were still occasions of her asking to hang out

avi ♡. ♡. 7/24/2024 4:43 PM

I should be able to at some time this week!

Our last full conversation was on 8/23 where we were talking about my recovery, then we last spoke on 11/17 when Avi let me know I was being removed from the minecraft server that I had not been active on

avi 11/17/2024 10:41 PM

hi value!

i have noticed that you have not been meeting the minimum streaming and playtime requirements for the SMP. these parameters were specifically stated in the contract and agreed to by you. as a result, i will be removing you from the Aetherlands SMP.

if you have any questions, feel free to let me know! we wish you the best, and thank you for your time and contributions! 💜

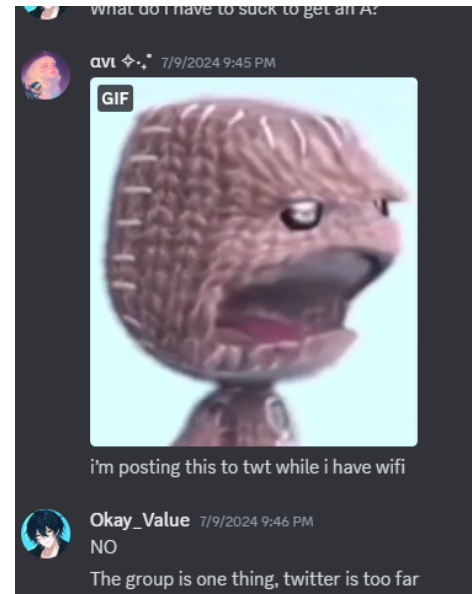

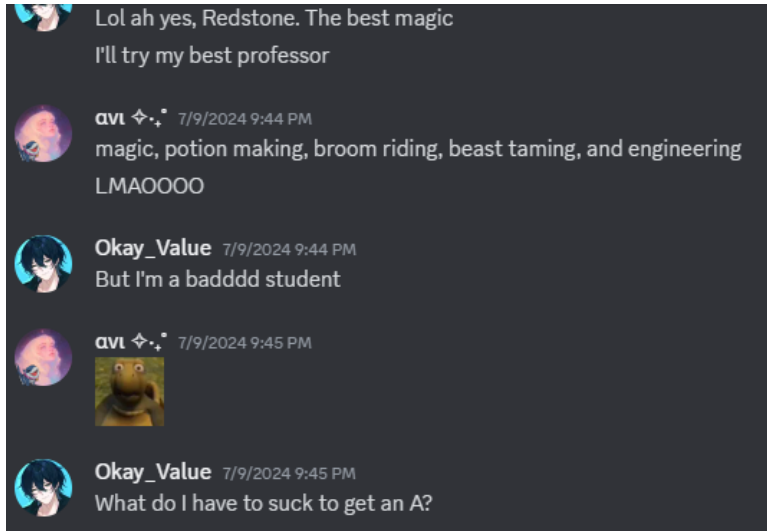

Okay_Value 11/17/2024 10:43 PM

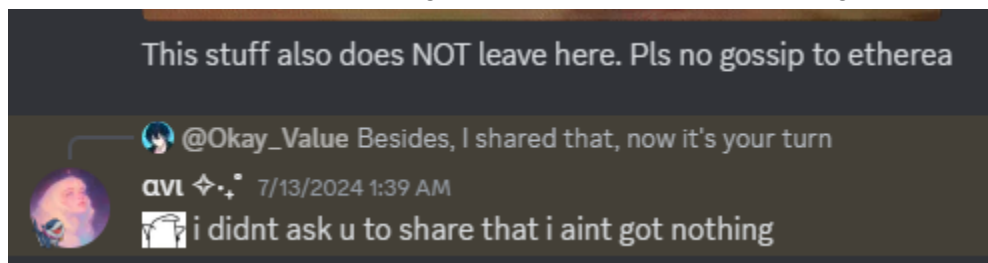

Hey Avi! Thank you for the heads up and I completely understand! Wish you all the best and hope the server goes well!

Avi mentions I “begged” her not to say anything about me which is not true. There were TWO cases I said anything about something not being shared.

7/29 One time, we were discussing her teaching the people on the minecraft server about magic:

The other time was during the overall conversation on 7/13, after we both had shared something we were sorta into, before I had gotten to the point of oversharing:

But maybe I missed a message or something, if Avi has other screenshots showing me begging for nothing to be said, she is welcome to share them. I tried to be careful with the screenshots to avoid sharing anything she told me of herself in private.

I admit I was completely in the wrong during our friendship. I should NOT have been trying to flirt or bring up sexual conversations regardless of myself being in a relationship. Outside of my unwanted flirting, looking back over our messages we had a strong friendship. We talked often, and got to know each other pretty well (in normal ways), and Avi would constantly ask me to hang out and play games. We didnt VC or play games too often, and if we did it was in group settings either with other people from the MC server or members of Etherea.

Again, Avi, I know apologizing now does not change anything, and I truly wish I had just been a better friend to you back then. I do still wish you the best in anything you put your mind towards, and please know I will not be contacting or bothering you at all.

Bettydeux: <https://x.com/Bettydeux02>

Hey guys, I wanted to address something that happened in our surrounding communities recently. Some of you may know where this is going but some of you may have no idea and I find the fact that things remain so cryptic to be the biggest problem here so I want to address it directly.

Okay_Value is a predator.

I have thoughts on this but I want to be clear that this is the main point of this message. Thankfully I do not consider myself to be a victim of his, but I did forgive many overstepped boundaries caused by Value because I didn't want to rock the boat (something Value would continually take advantage of).

Value was not being funny

Value was not being sus

Value was not messing around

Value was not playing a character

Value was not "corrupting anyone"

VALUE WAS INDIVIDUALLY TARGETING FEMALE MEMBERS OF HIS AND SURROUNDING COMMUNITIES AND GROOMING THEM WITH SEXUAL BEHAVIOR

I am lucky to have friends around me that recognized this behavior and validated my feelings because as others have said he had a pristine reputation and a larger community, saying anything against him felt like it would only bring backlash from his friends and fans.

This is why I pulled away from Okay_Value's communities, why we didn't continue the collab for Pico Park, why there was a very awkward distancing from surrounding communities where he continued to participate, and why any interactions you may have seen with Value and the people closest to him became very short and sparse.

I did not interact with Betty a whole lot, either on stream, in groups, or in dms. Our first dm was from her asking for her role in the discord server to be updated.

After Value left social media I began reintroducing myself into the communities that I had left and I can feel people are cautious about addressing him or his actions directly. I HATE that the power that he leveraged is still serving him even after he left social media, it simply isn't right.

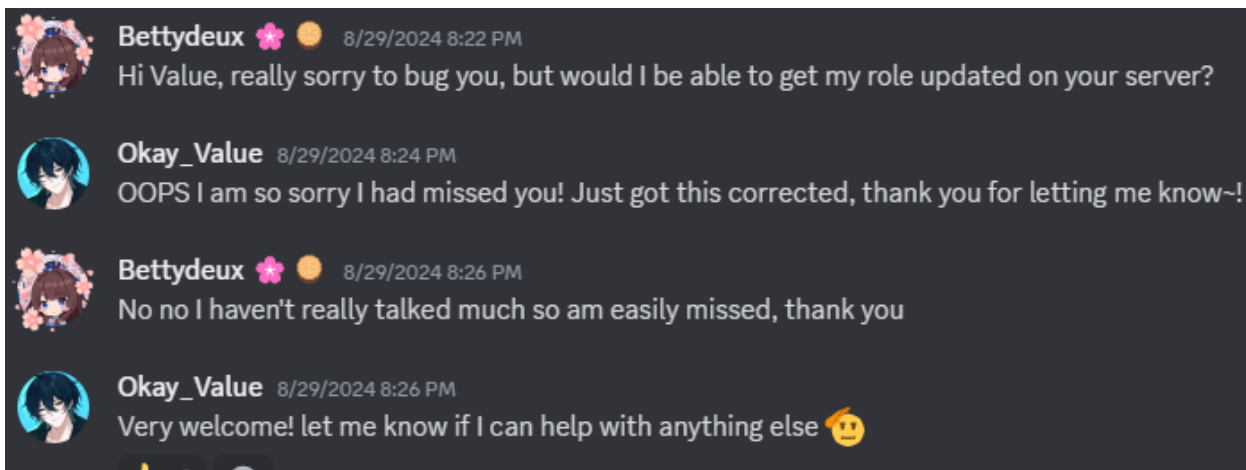

Even as I write this and prepare to send it out I feel it weighing on me: "Who am I to say anything? My voice doesn't matter."

But EVERYONE has a voice and it should never be silenced by someone else. Anyone affected by Value deserves acknowledgement and validation. You did NOTHING wrong, he was a creep and he should not be bolstered, celebrated, or missed by anyone.

For those who have the hanging feeling that they should have known or that they should have done something different, please don't blame yourself. This was part of his manipulation, he portrayed himself as a "wholesome" person while privately harassing women. His actions were repeated and intentional and not something to be forgiven.

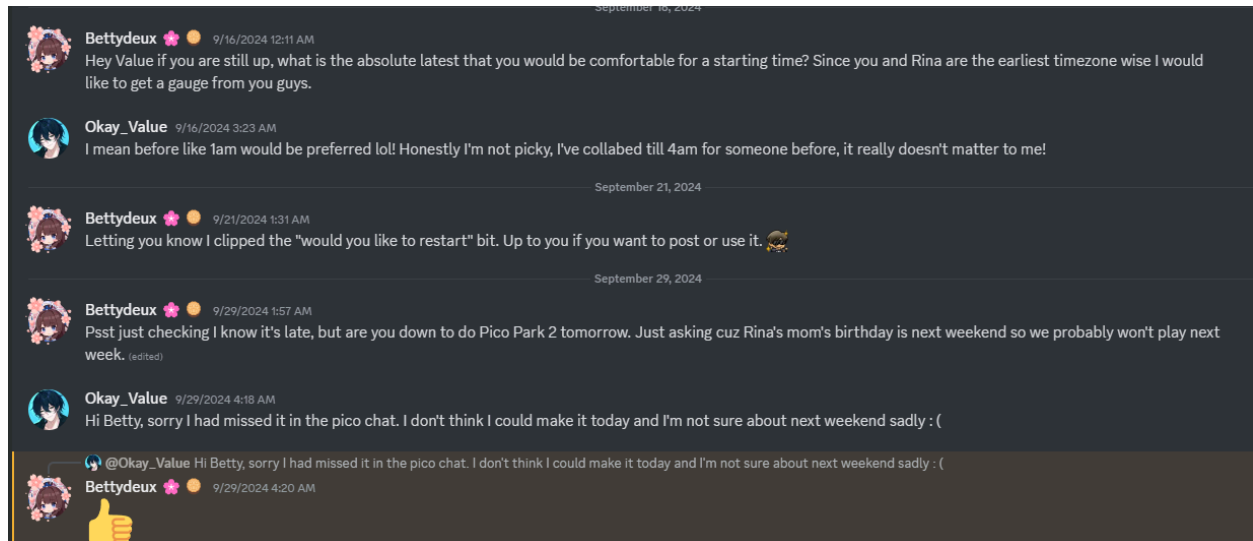

What I hate the most is that he left social media like a COWARD to avoid taking accountability or apologizing for his actions.

Okay_Value is malicious and inexcusable and I wanted to make sure that he doesn't get the "Value Pass".

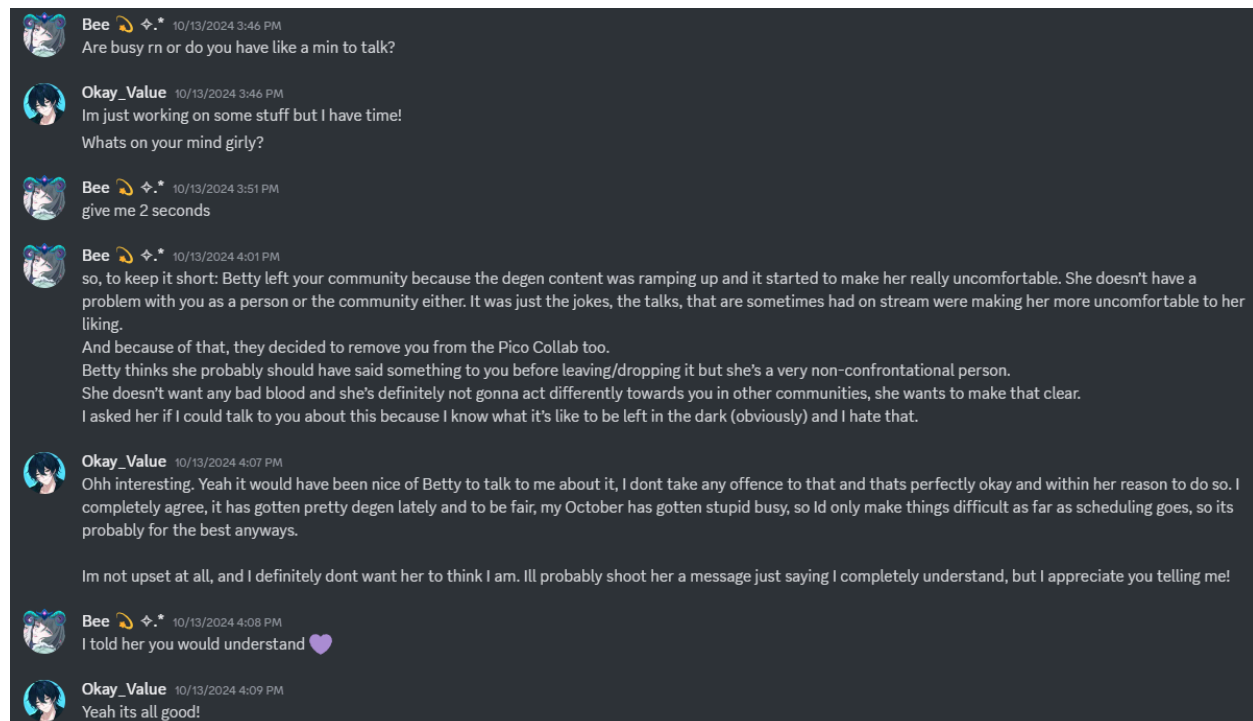

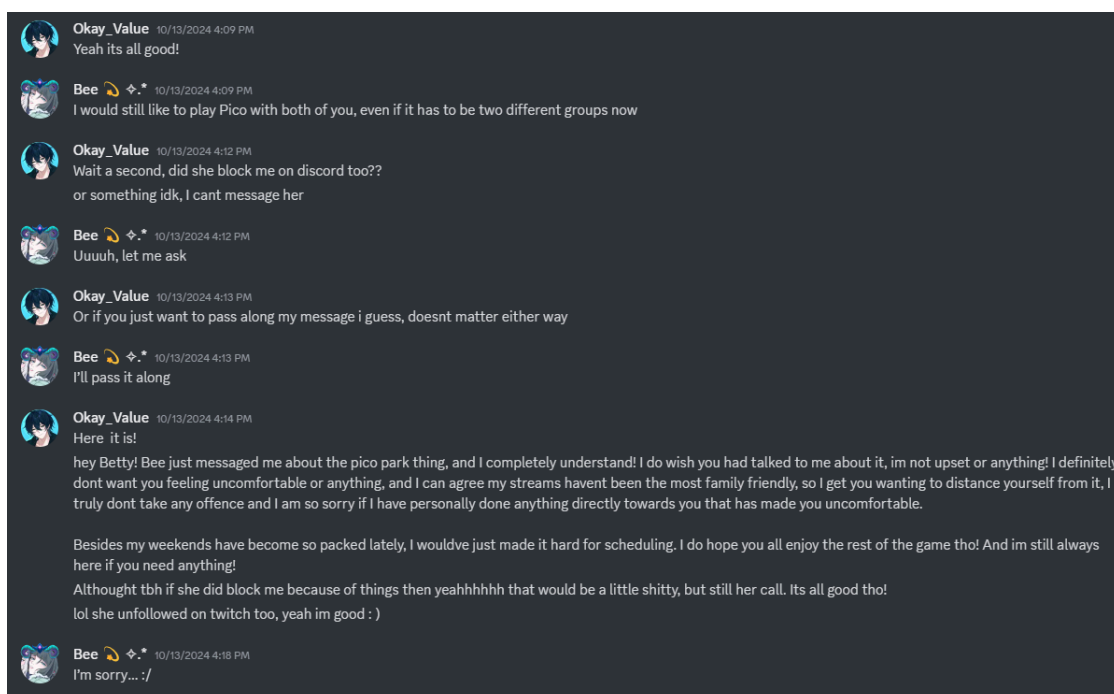

Then she invited me to a Pico Park collab. I wasn't familiar with much of the group other than BeeDeadly, but agreed and joined. As a group, we had a few vcs ahead of the collab to meet and go over Betty's rules for the collab. We did part 1 of the collab, and we all said we had a good time.

The only other private dms with Betty were in relation to scheduling part 2 of pico park

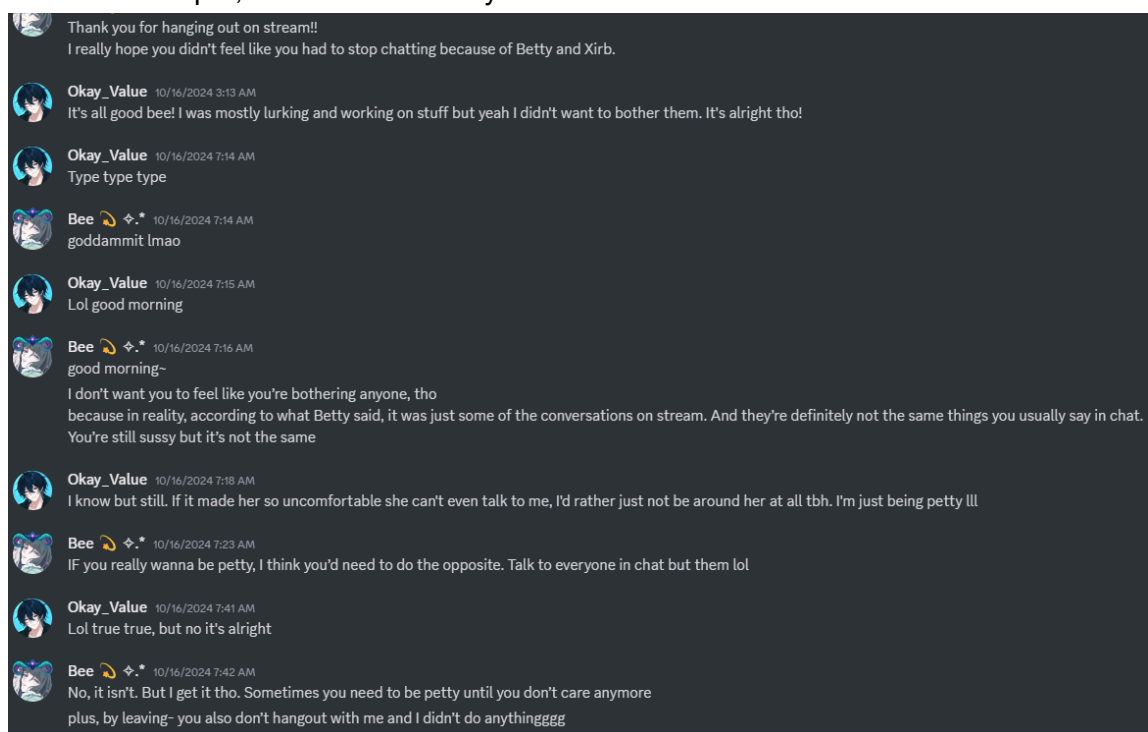

Part 2 was working on being scheduled however it was getting pushed back a bit, until Bee reached out to me:

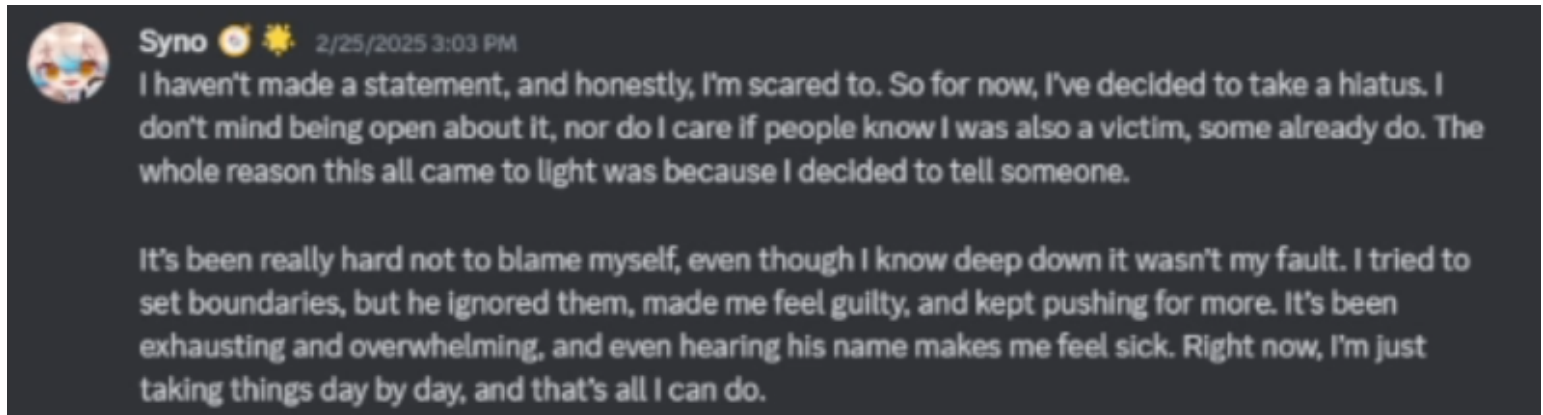

A few days later while I was in Bee's stream, Betty had popped in, so I went a bit quiet to not make Betty uncomfortable. I did whisper her on twitch (at this moment, my twitch is still deactivated so I cant pull this message) to ask her what I had done, she never responded. If she didnt delete the whisper, she can most likely share it if she would like. Bee reached out to me:

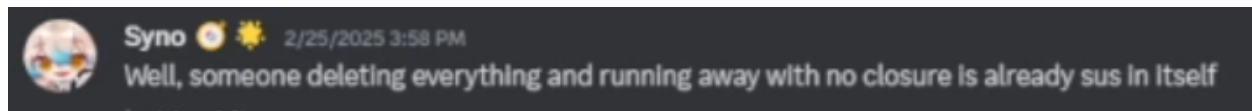

All this to say at no point did I attempt to flirt or overstep any boundaries towards Betty and we did not interact much. During the time we were “friends” I tried my best to send love and support her way as much as I could as I did to all my friends. There was no “awkward distancing” as she states. If I saw her in chats, I left her alone. She chose to leave the communities, and is now using this as an opportunity to come back. Again, i'm not trying to downplay any feelings here and Betty is welcome to feel this way, just as I am welcome to feel her making this statement was solely for her own gain.

Synominvt: <https://x.com/SynominVT>

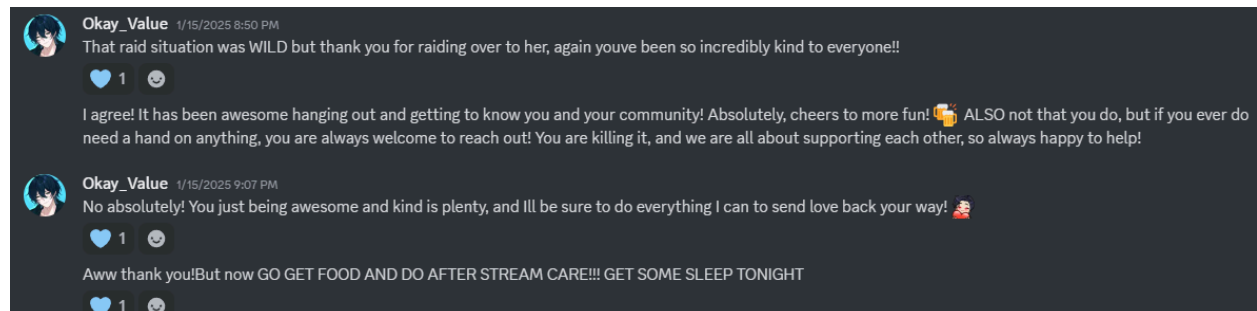

At time of writing, this is the only announcement ive been made aware of from Syno. Her twitter is above in case she has added something since.

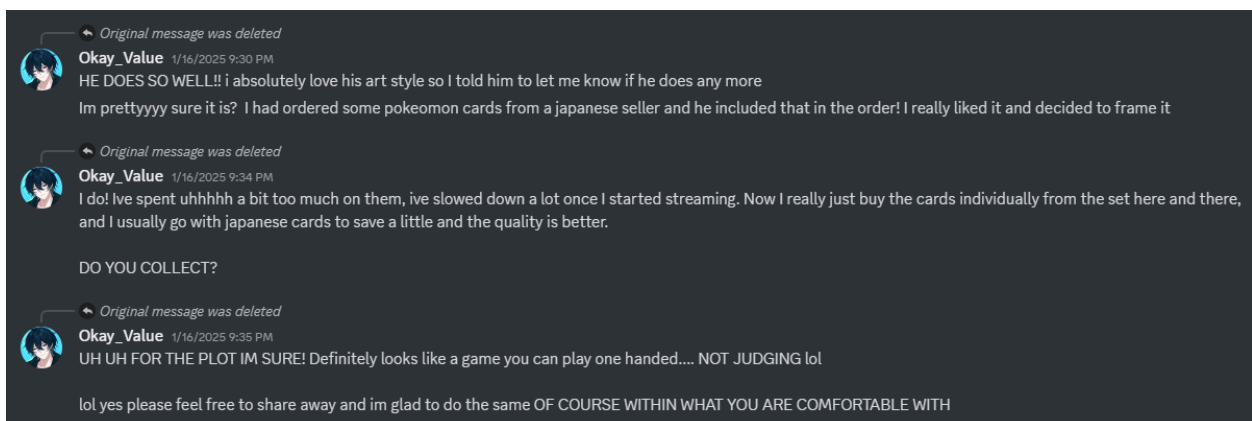

Syno has since been in the process of deleting all of her dms with me, so I dont have too many full conversations from when we first started chatting. If any of the screenshots I have, have messages she has since deleted I will show the side by side

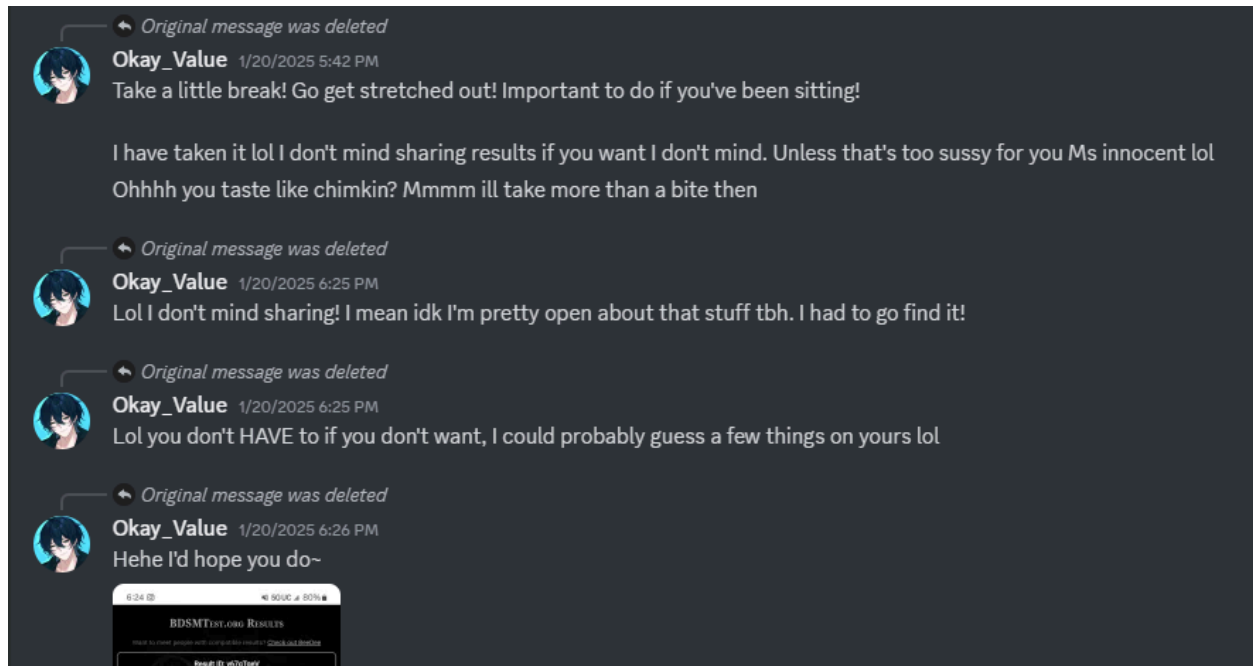

Syno and I had first started talking just in each others streams at the beginning of January 2025, we were both very supportive to each other from the beginning. We had shared a few memes in dms, till 1/15 that I had messaged her after one of her streams:

From there we starting talking more, getting to know each other, and bonding over similar hobbies:

We talked a lot over the following days, there were compliments and some minor flirting here and there. Then on 1/20 she had asked if I had taken the BDSM test and if I was open to sharing (her messages have been deleted, so I only have my side of the conversation for this):

Afterwards we talked about our interests, and began teasing each other, the flirting definitely began ramping up from here from both of us, and lead to more explicit conversations. Out of respect for Syno, reveal too much from her. But we were both on the same page and enjoying things

The weeks that followed we continued to get to know each other and chat. There was flirting and sus comments/jokes from us both and occasional explicit conversations

Jumping forward a few weeks to when things started to end a bit between us. Her messages here have not been removed as of writing.

In mid February, Syno had a bunch of irl things going on and we didnt talk as much, and we ended up starting to discuss things between us:

Okay_Value 2/15/2025 10:41 PM
I just miss you lol

1

Sorry lol

Syno 2/15/2025 10:46 PM
Don't be sorry silly, I miss you too

Okay_Value 2/15/2025 10:47 PM
Its okayyyyy. I do miss you, bnut its okay I know youve been busy and everything I dont want to add on to that or something, which like if you want me to chill on sussy stuff or anything, by all means you can tell me!

February 16, 2025

Syno 2/16/2025 12:10 AM
u sweetie, sorry just got out of the shower and gonna eat, but i miss you too i really do. I do want to chill a lil on the sussy stuff since ive been dealing with a lot and been busy so i havent really been in a huge mood, i feel bad but im really thankful for you for being really understanding you are so sweet and u make me really happy...just thank u so much asjdkasd i had a very emotional night so im just super drained

Okay_Value 2/16/2025 12:15 AM
That's perfectly fine, and I appreciate you letting me know, really. Communication is big so you can always talk to me. Please get some sleep okay? You deserve it after a fun night!

I guess for the sus stuff, just whenever you're feeling it let me know! Otherwise I'll be good! Please don't feel bad at all, it's okay. I just don't want to bugging or making things harder on you, wanna make you smile not feel bad, okay? I appreciate you and I know you have so much going on

Syno 2/16/2025 12:21 AM
Val, you're seriously such a sweetheart, thank you so much for understanding. It really means a lot that you care and are so considerate. I promise I'll let you know if or when I'm feeling up for it again, but just knowing you're here and being patient with me already makes me feel better. You never bug me, I really appreciate you so much. Just thank you, really.

Okay_Value 2/16/2025 12:37 AM
Im just happy to be here for you! Whatever works best for you I follow your lead okay? Im sorry if I had been a bit too much at all on the sus, I definitely didnt mean to, but again I just appreciate you talking to me about things. Especially with you saying if, I mean if that means you like dont want it at all anymore that is okay too, it really is what works best for you. I dont want to put you in a spot of like doing it "just for me" (edited)
really is what works best for you. I dont want to put you in a spot of like doing it "just for me" (edited)

Syno 2/16/2025 3:04 PM
Thank you so much, I am happy to be here for you too. Honestly, I'm still figuring out my comfort level with all the sus stuff, and being drained and overwhelmed lately hasn't really helped. I do feel guilty about not doing it but I appreciate that you are so understanding about it. It genuinely means so much. I just want to be upfront about where I'm at, and I hope that's okay. Again, I cannot say this enough but you're so sweet, and I really, really appreciate you more than you know. ❤️

Okay_Value 2/16/2025 3:11 PM
I do get it and I understand, I really appreciate you being upfront with me on things, and seriously I dont want to make you feel guilty or anything like that at all. Seriously, I just enjoy you. I enjoy anything with you. I know youve been really busy, youve had so much just not great things going on, and the last thing I want is to add any pressure to that, seriously. I mean, I wont lie, I have been missing you a bit, NOT JUST THE SUS STUFF, I guess just chatting with you since we havent gotten to as much, but again, that is completely okay, I know what you have going on, and I dont want you to feel like you need to talk to me or anything so like dont let me saying that make you feel guilty or anything either.

im just here for you, no matter what. you can talk to me about anything, if you want to just vent, yap, chat or anything, im here for it. Althoughhh tbh the goodmornings and goodnights were really nice so if its okay I might go back to doing those? But again I dont want to overdo it or anything, if you need time not talking or anything, thats okay. you just tell me. I just want you to feel comfortable and welcome to talk about anything

Just editing to avoid hitting you with another message, im really not trying to be like too much or needy or something, but please do let me know if im being too much and im so sorry if I am (edited)

Okay_Value 2/16/2025 10:36 PM
Everything okay, Syno?

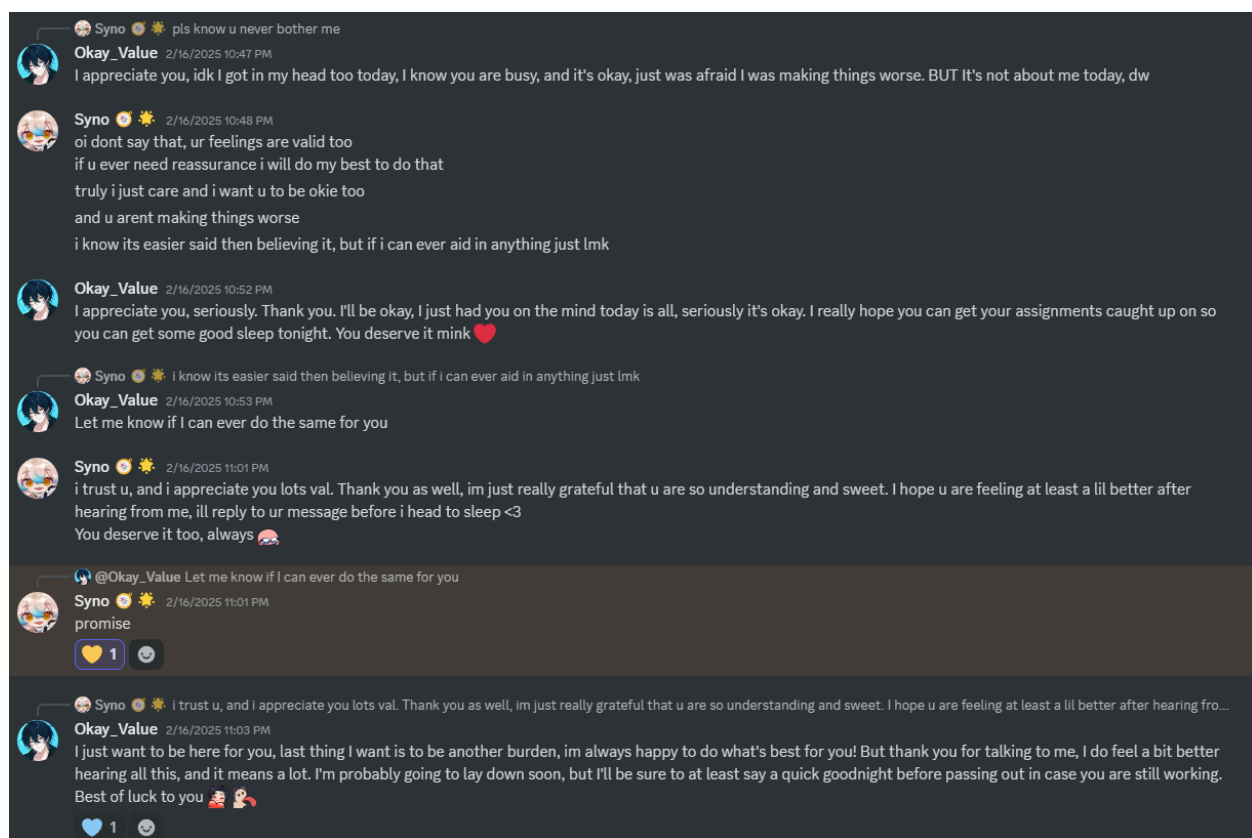

Syno 2/16/2025 10:43 PM
behind on assignments and overwhelmed today
ill respond soon, promise, im sorry for the delay :.)
getting into my own head and too much is going on so brain go brr

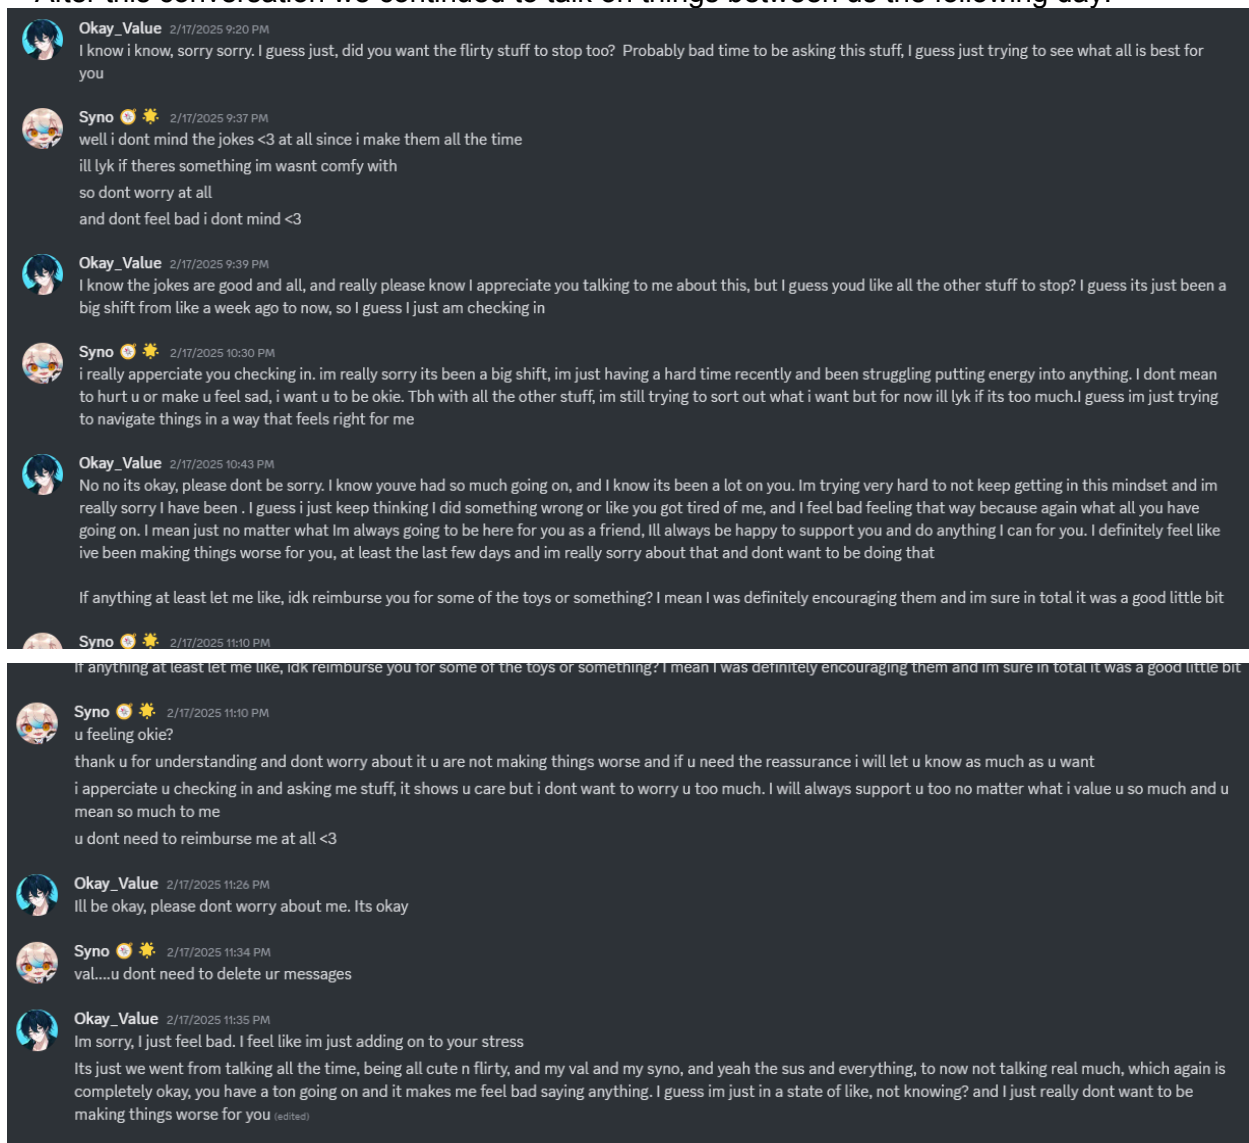

Okay_Value 2/16/2025 10:43 PM
No no, don't worry about me it's okay ❤️ I don't mean to big you. I'm sorry. I was just checking on you

Syno 2/16/2025 10:44 PM
just want u to know i didnt forget about u
nor am i mad
i care for u lots
im happy u check on me

After this conversation we continued to talk on things between us the following day:

We were working on establishing boundaries and discussing things. It became a little difficult to navigate, as at times id ask about one thing, to which she would say she is still trying to sort things out and she would let me know if anything was too much

making things worse for you (edited)

AND HAPPY BIRTHDAYYYYYY

 **Syno** 🌞 2/18/2025 1:37 AM
ur okie val, pls dont worry about it u are so sweet and i enjoy being around u. Im sorry that ur feeling bad i dont want to ruin ur night or anything. I had fun when u were around and im glad u hung out truly <3
dont feel bad saying anything, ur feelings are valid. Things have just been overwhelming on my end and i usually deal with that stuff badly, to the point where i rot and dont take care of myself and i just know i need to get to a point where i can get better with it. I get what you're saying about not knowing where things stand, and I don't want you to feel that way. I think things moved really quickly at first, and I didn't really have time to process it all. I don't want you to think it's because of you though because its not. I really need to focus on getting better and taking care of myself and my irl situation. U are not making anything worse and i love being around u and always will (edited)
THANK U VAL ;; u do too much and u do so much for me and i feel like i dont deserve it at all
but thank u truly
i cant thank u enough

 **Okay_Value** 2/18/2025 1:46 AM
Please don't be sorry, if anything I'm ruining your night, and not exactly letting your birthday be off to the best start and I apologize for that. I did have fun with you tonight, and fuck I was so excited when you joined. I loved hearing you laughing and talking with you and I'm so sorry I kinda shut down and went quiet. I just wanted to spend the night making you laugh, and I did the opposite. I know you'll say I didn't, but really I am sorry.

I just really appreciate you talking to me. I understand the things went fast, and I completely get that. I completely get your irl situation and needing to work on things, truly. It'd be so incredibly selfish of me to ignore any of that. You do really mean a lot to me, you make me smile a lot, and I know I'm not SUPER open about when I'm feeling down, but just you being there has been so huge to me, really. I will be the best possible friend I can be to you, however I can be there for you, I promise

Please, I don't do enough for you, and you deserve it all. You're such an amazing person Syno, im truly so beyond thrilled that I met you and even get a fraction of your time. I really want to make the rest of your birthday special, so seriously anything you'd like, pls let me know? Let me spoil you a lil. [REDACTED]
[REDACTED]

Although, just last question on the sus stuff. Do you want to delete your pics or videos? I mean those are completely up to you. Do you not want me looking back at them? Should I not comment on them? I mean again, it's completely up to you. Cause fuck I do of course still find you so sexy, but I don't want to like disrespect you or anything

 **Syno** 🌞 2/18/2025 2:36 AM
Val... please don't feel bad or like you ruined anything. I had so much fun tonight too, and I'm really grateful you checked in and have been so understanding. I was honestly so excited when you joined, and I'd love for us to play more together in the future. Don't apologize for being quiet or shutting down, your feelings are totally valid. I know our brains can be a bit silly, but I'm always here to reassure you if you need it. I know it's tough, but just do your best. You always work so hard, and I see that.

Also... please try not to compare yourself. You're truly amazing, and I know it's easier said than done, especially when you're already in your own head. You mean so much to me, and I still want to be friends and share lots of laughs. I just need to set some boundaries, something I've struggled with in the past. I told myself this year I'd do better for myself and prioritize my needs and wants.

Val, you're such a sweetie... thank you so much. Hearing that means the world to me. I'm so grateful that you've been so caring and sweet towards me. I'll always be here for you, and you don't ever have to force yourself to talk about things you're not ready to share, but you're always welcome to. You won't scare me off, I care about you a lot, and I want you to feel validated and cared for. But I'll never push you into doing or saying anything you're not comfortable with.

I'm so lucky to have met you, Val. From the moment you stumbled into my stream by chance, you've been so amazing, and everything since then has been incredible. I've met so many amazing people, including you, and I wouldn't trade any of it for the world. I'm truly honored to have you in my life, and you deserve so much. I might have a hard time asking for things, but anything you do, even just talking to me, means so much. Meeting you and everyone else has been one of the best birthday gifts I could ask for. I wouldn't even know what to ask for, but I can't stop you if you want to do something for me. No matter what, I'll always be grateful for you. You deserve everything.

I think it's best for me to delete them, just to keep things feeling healthy and respectful moving forward. I really value your opinion and how you see me, and that makes me happy. But I need to make sure I'm doing what feels right for me. **It's not about regret, it's** just about creating a space that's comfortable for both of us. Thank you so much for asking, I really appreciate it.

 **Okay_Value** 2/18/2025 2:45 AM
I'd be happy to play or hangout plenty, you're important to me and regardless I still want our friendship to grow. I understand the setting boundaries, and I know you aren't saying I did, but I really am sorry if I've at all pressured you in any way. I'm happy you are sticking to bettering yourself this year, and I'm happy to be there by your side every step of the way.

I'm really glad you have been so touched by meeting everyone, truly. You are so loved and appreciated, everyone has such a great time with you, and I truly do love every minute of your company. I still do get extremely giddy and excited when I see you around or anything, like I'm star struck lol. I'll find some way to spoil you for your bday, dw about it.

I completely understand and respect that. I'm happy to remove my pics and such as well. I mean yeah, just full honestly, sad to not see you anymore and all, but I understand it's best for you and am okay with it. It's probably bad of me to say, but the option is there if you ever do need someone to be sus with, even if it's just for a tad, but of course please never feel pressured or like you need to. Just know I really did enjoy it all okay? But most importantly, I just enjoy you

tad, but of course please never feel pressured or like you need to. Just know I really did enjoy it all okay? But most importantly, I just enjoy you

Syno 🌞 2/18/2025 2:59 AM

Val, I know I keep saying this but you really are just so incredibly sweet, and I really appreciate everything you've said. I'm glad we can still hang out and play together, and I'm definitely looking forward to growing together too. I'm super excited for the future and tbh I get really excited and giddy when I see you as well! I don't feel pressured at all, and I'm really grateful for how understanding you've been. I want you to know that your excitement and support mean a lot to me, and I feel lucky to have you in my life. I'm so happy you enjoy spending time with me, because I enjoy it just as much.

I really do appreciate you respecting the boundaries I've set, and I'm thankful for your kindness and care. I also love that you've been so honest and open with me. It means a lot that you've enjoyed the time we've spent together, and I want to keep those good memories while making sure things feel right for both of us moving forward.

I think moving ur pics would be a good idea just to go forward but if you don't that's completely fine as well. You are ur own person and whatever you do I will respect. You have been nothing but respectful to me and my boundaries and I will always do the same for you. As for the sus stuff I will keep that in mind, I appreciate you offering and just letting me know. Thank you for enjoying me for who I am as a person, knowing that means so much 💙 (edited)

No it's okay, im sorry! I just do kinda feel like I'm bugging you now, it's my bad

Syno 🌞 2/18/2025 4:23 AM

Of course Val, always 💙
I am very grateful that ur again so understanding and open about all this. HUGE ASS SWEETIE I SWEAR

I've truly enjoyed our time together too, and nothing is regretful at all
I wouldn't trade the fun we've had for anything. And I promise, if a boundary ever feels off, I'll tell you, just like you can always talk to me if anything's on your mind. I really appreciate you checking in and being so thoughtful.

If you wanna keep regular selfies that's okie! I appreciate you being so respectful about all of it. As for the outfit ratings and everything else, haha, I'll def let you know :3

Okay_Value Thoughts on things like cute or sweet names or saying mwah? I mean I know we say mwah to everyone but I guess normally when I say it to you, and maybe at least how I thou...

Syno 🌞 2/18/2025 4:24 AM

Mwah is fine since I do that for everyone unless you don't want to and I'll respect that!
Good girl everyone sadly calls me that as a joke now 💀
Syno, mink and what not is fine, I'm a bit indifferent with cutie cause some of my friends call me that

Okay_Value 2/18/2025 4:32 AM

No no it's okay, ill let you get to the skin and I know you're having fun talking to cahks, it's okay. I appreciate you taking the time with me, I just, I guess it kinda feels like all the "feelings" that were or may have been there are gone now, im sorry I guess that's just taking me a minute, but it's okay and I respect it! Idk it kinda feels demoted in a way I guess. Which I get it again you have a lot going on. You don't owe me your time or anything and I understand completely us not talking as much, I guess just like know I'm still happy to chat as much as you'd like okay?

Syno 🌞 2/18/2025 4:44 AM

Thats okie dont worry about it Val! Feel free to talk to me if u want, I'm not doing much atm but working here and there
I was having fun with everyone silly him, cres and wozy etc
My feelings aren't just gone like that, but i just want to do what's best for myself currently and to get better. It's been hard for me mentally but ive been sleeping and dealing with it another way
U are not demoted, I still care for u
i appreciate it val, I will definitely message u to just talk here and there
we will still talk
im okie with the morning messages and night time messages

Syno 🌞 2/18/2025 10:55 AM

Morning Val, I've barely slept but wanted to reply

I kinda got overwhelmed last night and got off for the night but was just in bed thinking a lot. Gonna go back to bed here soon but wanted to text you before I did.
Morning and night messages are okie specifically if it's just natural and we are already having a convo. I do wanna play more stuff with you in the future and just talk in general and I'll always bother you or even hit you or spam you with memes if you don't mind that stuff LOL
I just want things to feel more natural for me and also set up my boundaries. I appreciate that you respect them and it means a lot. I hope u rested well, I know you didn't sleep much but please take care of yourself Val
And just know I'll always be here if you need anything. I appreciate that ur so open and honest with me already
I also don't want to drag you along either and that's also why I'm setting up a boundary
I don't feel right doing that and I'm not anywhere ready for a relationship or anything like that

Okay_Value 2/18/2025 11:07 AM

Im sorry I didnt mean to overwhelm you, and I appreciate you writing me back real quick. Please get some sleep, I know you have stream later so please take care okay?

Im completely open to playing or hanging out and talking plenty, you can spam me away or whatever you would like, im happy for it. You know I will respect your boundaries and all, just please stay open and honest with me and ill do the same with you. I dont want to put you in a situation you are uncomfortable, and I really do apologize if it just takes me a min to adjust and please dont give up on me. I just do really care about you, and its just lately kinda hurt but its okay and will be alright.

I completely understand and appreciate you. You havent been dragging me along, ive just enjoyed what we have had

Syno 🌟 2/18/2025 11:17 AM

It's Okie Val, I understand 💙 I just don't want to leave you hanging and I also had a conversation with my sister that also helped me feel less stressed. Okie awesome then I'm looking forward to those things and I'll def spam you with memes here and there. Thank you again truly, and I get it takes time to adjust so I'm not going to give up on you. I care about you too and I'm sorry to have hurt you, just ever since I was hit with Covid and stuff started going a bit down hill with me irl, I just realized a lot of things, there is a lot of emotions that I suppress, and being alone with my thoughts more just helped me get back on track on where I want to be. I don't ever want to hurt you so again I'm sorry, but I care about you and will be here for you if you need it.

Val...please make sure to rest after stream and don't go super long today...

Okay_Value 2/18/2025 11:57 AM

Its okay really, I completely understand and I am glad you got some time to think over everything. Im sorry if I was contributing to I guess negative thoughts or emotions, I really do just want to make you happy and be here for you really. You can always talk to me about anything and you dont need to be alone in your thoughts if you dont want to be alone, im always here for you Syno, seriously. I care about you and am happy to do what I can for you, I guess I just dont want to mess up our friendship or something like that

Okay_Value 2/18/2025 3:36 PM

Sorry I know you just got up, and I REALLY dont mean to be messaging right away, I just ended stream and went to reread and realize I had misread your message a bit. Im glad taking the time to yourself helped you think on things, just know you can always discuss things with me. Still, I am sorry if I had contributed at all to bringing you down or adding extra weight to you, I guess I didnt realize I was affecting you that way and im very sorry. I just thought we were both enjoying it and it were helping each other by being there for each other. I also dont mean to still be overwhelming you by bringing it up, so if youd rather stop talking about this thats okay too

I hope you got a little sleep, and if you dont want to respond to me now I understand, just let me know. I really want you to have a special birthdayand I just feel like im not helping, and I feel horrible that im making things worse. Would you prefer I not stop by your stream tonight? idk if that would help you? (edited)

Okay_Value 2/18/2025 6:15 PM

Please dont be sorry, its okay. Im sorry, please have a great stream 💖

I was thinking tonight, honestly I really miss you. I miss talking with you. I dont want to make you feel overwhelmed or that talking to me is draining. Can we go back to chatting and such? I know you have a lot going on, and I miss you just talking to me about your day or just things you are doing. I miss making jokes and just having fun with you. I cant promise I wont bring I guess stuff like this up again, and please you are welcome to bring it up if youd like. I just have spent the last few days so badly wanting to hear from you, and so frustrated with myself for putting you in this position and putting more on your plate. Id love to still talk to you always, but I understand if youd rather cut back. I just hope youre birthday is amazing, and that I havent ruined anything, because fuck I care about you so much (edited)

Syno 🌟 2/19/2025 2:56 PM

Thank you so much for yesterday Val, you didn't need to do all that...you are so sweet and giving ;; I'm so grateful for it and I'll find a watch repay you 💙

We can definitely go back to chatting and such. I'm sorry for just replying now but rough morning, figuring out finances and what I'm going to do about my living situation. Family being a pain. Thinking about maybe getting a second job if I have to. Not sure. Just stressed lol

I miss hanging and making jokes as well and we definitely will. Again I'm really sorry, just so much is going on I've played like nothing recently

My birthday was amazing and I'm happy I got to spend it with you and the others so thank you so much

Okay_Value 2/19/2025 3:07 PM

Thank you Syno, I wanted to spoil you a bit, please dont think of it as like, me trying to buy your time or anything, seriously, you deserve it and I wish I could do even more. Please dont apologize about taking your time getting back to me, seriously. Im sorry it was a rough morning and im here for you. Im sorry for how Ive been, im trying to be better and give you your space as you need, I will be better.

Have things gotten worse with the [REDACTED] mean I can only do so much, but I mean the offer is there if you need some help. You had offered to help me a bit back, and im more than happy to offer to you as well. Id do anything to make sure you arent like hungry and on the street (not that it would get t othat, but you know) I know you have been busy, and last thing I want is to become just another "chore" or something, im going to be better for you and be the best friend I can be

Im so glad you had such an amazing birthday. It was so sweet hearing you read all the notes people made, honestly very brave of you to read it on stream, I couldnt read mine on stream lol. Its good to save those and go back to them at times. I still have mine saved on my desktop. It was so amazing seeing all the support and love you recieved. I know you talked a lot about feeling you dont deserve it or arent anything special, but I really hope last night helped convince you otherwise. You are so amazing Syno, you are one of the most special people I have ever met. I dont mean to get all sappy, but im so proud of you for what you deal with and how you still carry on with a smile. It really is an inspiration, and im so incredibly grateful to have you as a friend (edited)

U didnt need to spoil me...but i appreciate u so much ahhh u deserve it as well and i want to be able to do the same for u
you dont need to do more for me, u do enough and it means a lot truly
thank u for being there for me and understanding
yeah things have gotten worse so its been a lot so im trying to budget etc and figure stuff out
ur too sweet and u dont need to do that for me <3 again u do enough and im so grateful for u
ur not a chore at all, so pls dont see urself as a chore
im happy u thought it was sweet, i cried a lot the past couple days so ive been so drained but im so honored to have such lovely ppl in my life. the messages mean so much to me and i kinda wanna print out and do something special with them. i understand not reading them on stream, but i cant wait to do one for u this year :3
i will definitely be saving mine and im happy u stuck around, but i hope u got good sleep at the very least
I do feel like i dont deserve the love and support that i get and i dont feel like i do anything special for the people around me and i wish i could do more. I want to do more. It surprises me all the time getting support like this and i really dont understand it, i want to put my all into streaming and its been hard to do that. I dont plan i dont do much, i just go live but i want to work on that. im not amazing val...but im happy u think i am, im happy u find me special, just hard for me to understand that. Hopefully one day i cant appreciate myself a lil more. I dont mind the sappy stuff, i find it sweet and endearing and its what i love most as well as the sillies so thank u. I try and think positively and push forward, but i do have a lot of times where i break down, i just dont like talking about it or sharing that side about me, i want to make everyone happy
im so grateful to have u as a friend as well

Okay_Value 2/19/2025 6:58 PM

Im sorry to hear things have gotten worse, if you need to vent you know im here, but I know sometimes just taking your mind off it is helpful, im just here for you.
I think printing the messages would be super sweet! its just good to have it near so you can always look back to it, especially when you are feeling down, so I mean great time for it to be here yeah?
Syno you just being you is the most special thing you do. You dont need to do anything crazy, you going live and being there and giving a smile to everyone is more than anyone can ask for. You do an amazing job, your streams are so fun to be around and they are that fun because of YOU. I know how it is getting in your head and thinking you arent enough, im in that right now, its tough, its really tough, im sorry your head is there and things have been rough. you truly deserve the best and I mean that more than anything

I guess speaking of making everyone happy, back with the things you would say to me, idk just how much you were into me, calling me yours, wanting me, and saying I made you happy a bunch, was all that genuine or partly just for me? and is all that gone now?

made you happy a bunch, was all that genuine or partly just for me: and is all that gone now?

Syno 🌞 🌞 2/19/2025 7:18 PM

It's Okie and thank you so much Val. I do need to stop running away from my problems, I've just always done that.
Yeah for sure, I think I'll do that later for sure ❤️
Val....thank you...ima cry ahhhhhh...I just really want to do more, I want to give to people as much as I can. My biggest goal is to inspire others and make them happy and I will try and continue to do so. I just know I'm very hard on myself and always have been.
I'm happy u find my streams fun....it's just so hard getting out of my head and feeling like I'm doing enough. I'm happy u enjoy being around me everything
If you need any reassurance as well, I'm here for you and I'll listen and provide that. I'm sorry ur also going through it

You deserve the best. You are so incredibly sweet and caring and I will continue to say that bc it's true

You do make me happy a bunch, I enjoy being around you and everything. **What I said at the time was genuine it's how I felt in those moments.** I'm not one to drag someone along or play with their emotions so I would never lie to you like that. I'm not sure if all of that is gone but I know I need to focus on myself. I'm overcome by a lot of different emotions and my life is honestly a mess and what we were doing is the last thing I need to ever worry about and I am very sorry. It was too much for me and I can't give you what you need because I need to give that to myself. I don't even care or love myself Val. Now I'm not a very crazy sexual person and doing that stuff was a lot out of my comfort zone but i enjoyed doing it for the while but i realized that im not really staying true to myself and it might have been me trying to please you and make you happy since how i felt about you plus it was going way too fast. So im trying to do better for myself. I would like it if we stopped, i want to be close friends with you and be silly and be there for each other.

Okay_Value 2/19/2025 7:39 PM

I just please know its nice talking with you, really. I know its a lot, just thank you. I understand being hard on yourself, i understand feeling like you dont do enough. Genuinely, I completely get it. I know it all goes through our heads in different ways so im sure I dont fully know what all is going through your cute head, but just know you are not alone and are loved. You do make people happy, and I genuinely am amazed by what all you do with what all you have going on.
Im always happy to tell you how amazing you are, reassure you, and heck even point out just how great you are doing (unless you arent a numbers person then i will NOT go into that then). Just know you truly are doing amazing, and I am SO proud of you mink ❤️

NOT go into that then). Just know you truly are doing amazing, and I am SO proud of you mink ❤️

I appreciate you offering to be here for me, I dont want to burden you with my stuff now, I know youll say its okay, but really its okay. Just a lot of irl stuff and I mean honestly yeah i have been sad given, you know, this all, but I promise its okay and I really dont say that to make you feel bad at all, seriously. I just want to be honest and open like you have been with me. Ill be okay, I just appreciate you

No no, absolutley im not saying lets start things back up or like continue or anything, please I completely understand. Im so sorry I pushed you out of your comfort zone, seriously Syno, im so sorry. I should have been better at checking in and making sure you were comfortable with things, really I am so sorry. I just yeah, did really enjoy it. and not even just the sus stuff, just idk you made me feel special, and wanted, and confident, and comfortable. I get possibly doing it to make me happy, and im sorry you were in that position and I feel really bad for putting you there. I appreciate you telling me know, and im sorry. I guess just, my feelings are still there, im just trying to push them aside so I can just be here for you. I really hope that doesnt make you feel like you need to distance from me

After all this, it had felt like we both said what we needed to and were able to move on as far as having just a friendship together. Syno ended up bringing it up the following day, and it ended up being our final conversation:

 **Syno** 🌞 2/20/2025 7:12 PM

 **Syno** 🌞 2/20/2025 7:28 PM
im just a very open person and it gets taken the wrong way
i got carried away and got scared to voice my concerns
and worries
so i kinda just pushed them back

 **Okay_Value** 2/20/2025 7:30 PM
Syno.... I never wanted you to feel scared or worried, im so sorry, I never wanted you to feel those ways. I really did mess things up
I wouldve respected anything you had said, at any point. Icare about you as a friend, that comes first, everything else was second
did I really misread things all the way from the beginning?

Each time we had gone to talk about things, Syno's feelings changed on the matter, and I did my best to respect her wishes. I was not trying to push boundaries or push her to do things. Looking back, I can understand my messages might not have come off as intended, but with her continually saying how she was still working out the boundaries she wanted, in my mind asking about things would help us be on the same page, and I was wrong.

At the end of things, I understand that Syno was regretting some of the things between us, however she did state she genuinely meant the things at the time when she had said them:

ing. What I said at the time was genuine it's how I felt in those moments.
 e you like that. I'm not sure if all of that is gone but I know I need to focus

The moments we had together were consensual and mutually enjoyed and at no time did she give the feeling of not enjoying things in the moment. I made sure to make it clear she did not need to do anything she was ever uncomfortable with

AHHH

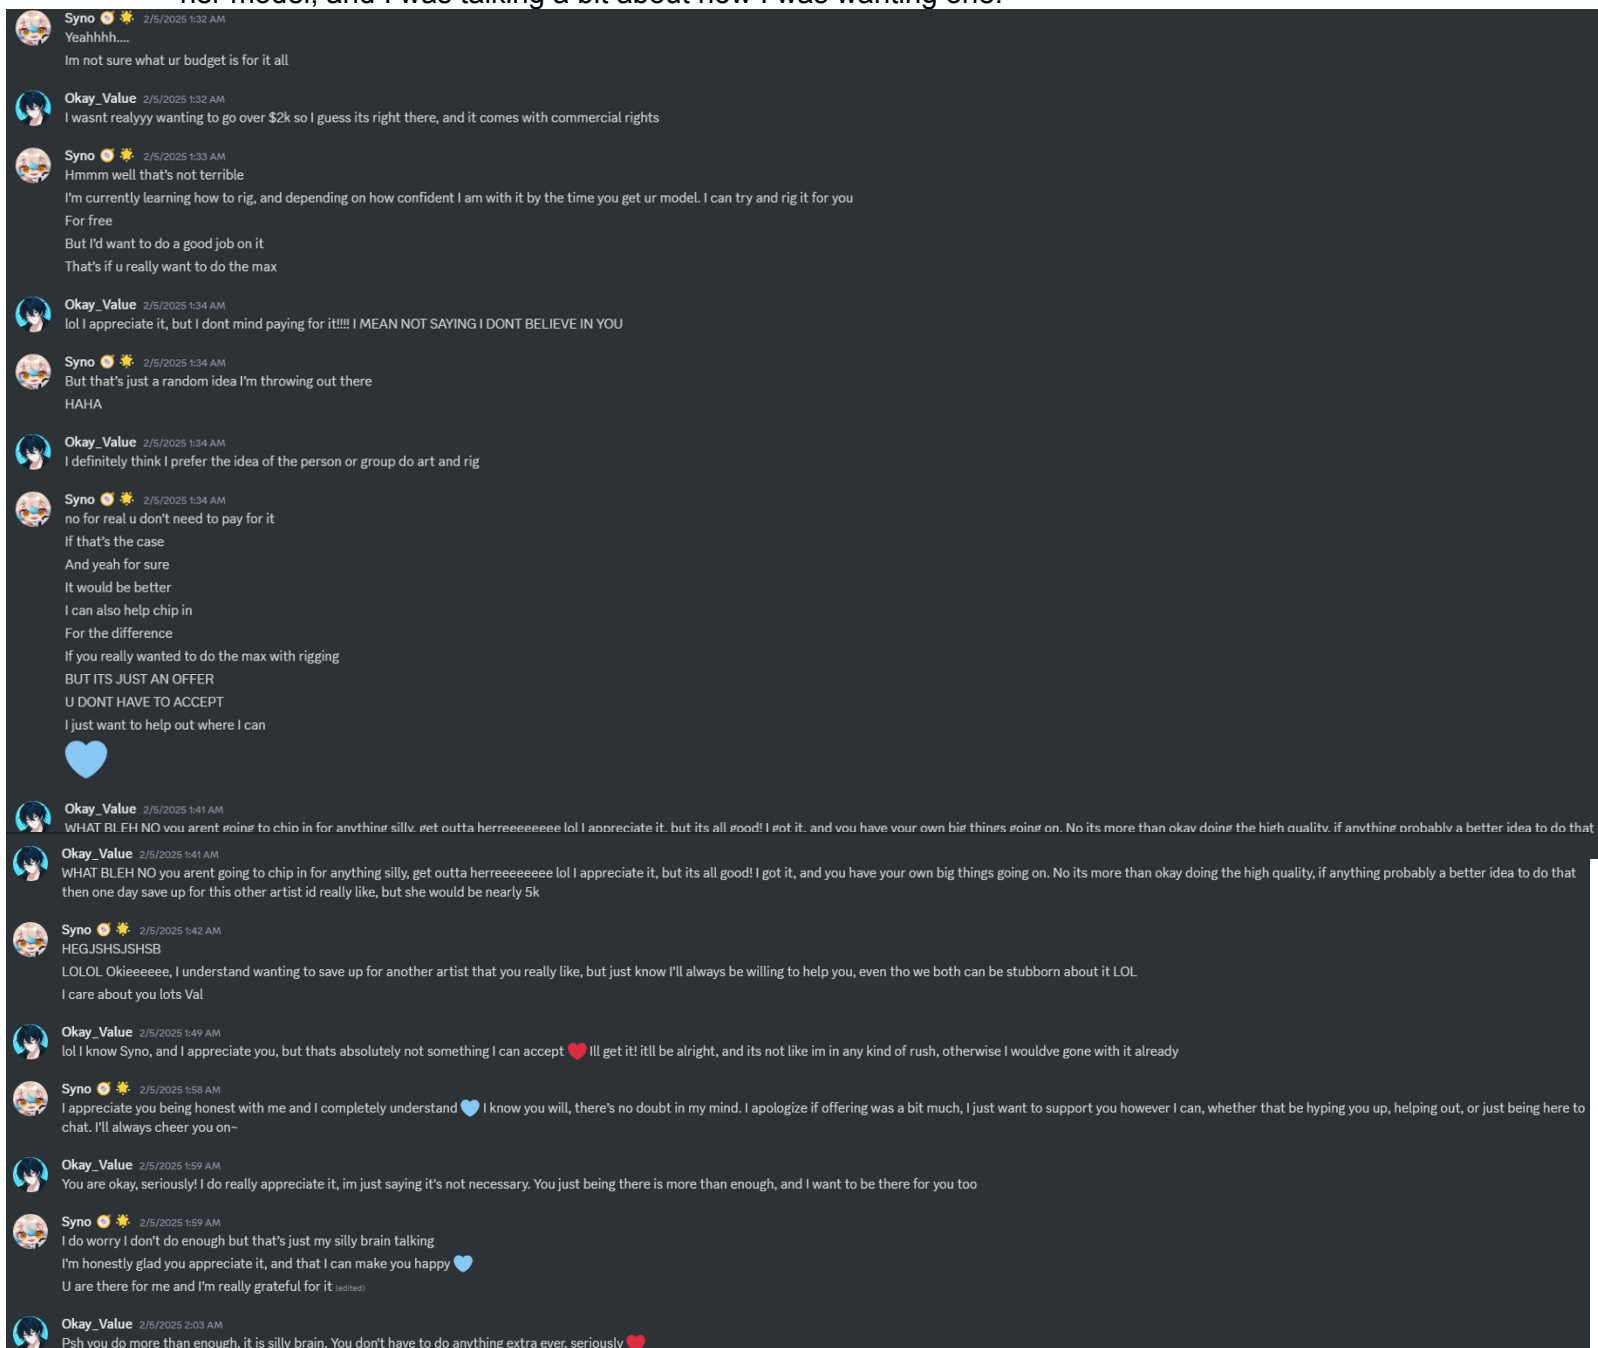

At one point, I had asked Syno if she had any “toys” to which she said she was already looking at getting some. We talked about them a little, and I offered to help pay for them to which she declined:

I did spoil Syno with a bunch of gifted subs during her bday stream on 2/18. This was while we were discussing things between us so might not have been the best time overall to do so, but it was her birthday and I'm always happy to spoil my close friends on their day. Her and I had a habit of gifting subs back and forth to each other, but for her bday I made sure to gift extra.

At one point her and I were discussing custom vtuber models. She had been sharing updates of her model, and I was talking a bit about how I was wanting one:

Syno had ultimately offered 1) to potentially rig a model for me in the future and doing so for free. 2) To help pay for my custom model.

I declined both options, as that's not something I could ever ask anyone to do or accept something like that.

It was moments like this that made me feel how much we both enjoyed each and cared for each other

In closing, at the end of things Syno had changed her feelings on all that we had done and our friendship, and I understand and respect her feelings. However, I feel that we both had mutual and consensual experiences together that sadly had a poor ending.

The mistake I made with Syno was that I did not in the beginning reveal my relationship status. While I never explicitly said "I am single" the fact I did not say anything about it is even worse and I really did fuck up in not sharing it and engaging in these activities with her.

I do genuinely wish Syno the best in all she does going forward, and I'm incredibly sorry things went poorly between us. It was my own fault for not sharing my relationship status and keeping us just friends. I genuinely meant the things I would say to her, and I know that only makes me worse overall towards my wife.

I don't know if it's expected of me or what I'm supposed to do. I was complacent in Value's actions for far too long, and I didn't realize that it was solely my responsibility to open everyone's eyes. It's so easy to point fingers when no one knows the whole truth.

When no one cares about your individual experience or whatever other trauma and triggers you're tiptoeing around. It's easy to say wow someone should have done something. I don't know if it was my place to speak out for others. It wasn't something I was equipped to handle.

I knew in my gut and had enough reason to drop him months ago, but I didn't. I silently kept tabs and prayed that it would blow up in his face. I didn't have the courage that it takes to speak up.

I didn't have the strength to forget every single similar horrible flashback that I had to relive. I've been hurt by someone like him before, and that made it so much harder to admit what was going on. I should have done more to help others when I had the chance.

I want to preface by saying there was never anything sexual between Hemp or I. Of course there were plenty of sus jokes from us both, but it never went further.

Hemp has been the most vocal about me since my leaving, not in public, but on discord and dm'ing multiple people to talk down on me. She had a chain of messages that she would copy and paste to different people (these will be down below) trying to make me look even worse. In these messages there is a lot she leaves out and blatantly lies about, while hiding things she herself has done. Im going to try and keep these thoughts as put together as I can, and provide screenshots of our conversations as proof.

This is the rest of her "announcement":

hempie >

Lain is Lain, and I'm me.

like it was my place to share *her* story.

I can't remember exactly when you entered the picture but I do remember both me and Barley thinking he was gravitating towards you for the wrong reasons. It felt more like who you know and how many eyes you had on you rather than what makes you a good person. To be clear he always spoke very highly of you and even on what I'm referring to as his death bed he said he truly viewed you as a friend and liked spending time with you.

Anyhow in November was when I really exceeded my limit with him. At this point I had already been put in a position to take side over him, I felt bullied by him, I felt like I was making excuses for him and all the while I felt alone and powerless. He would have this habit of mocking me for how I sound or what I said, I'd express it felt really shitty, he'd apologize and swear to never do it again.. but then rinse and repeat we're right back to square one. I did unfollow him at the time and leave his server because I didn't know what else to do. I was faced with the same challenges. Do people even care? Would they believe me or just take his side like I did for so long?

The hardest part was the bond between me, him and barley. She's quite honestly one of the best friends I've made on this platform, but she was head over heels for him essentially so despite my efforts to show her the truth, she just wanted to keep excusing it and forgiving it. I'm not very good at being social and reaching out and she's been by my side for an entire year so of all the people I thought I could keep in my corner, she was it. But Value had already gotten to her. So when I tried to vocalize I think we should do or say something I felt even she wouldn't stand behind me so I kept choosing to

In the last month or so it's been coming to light that the initial girl I spoke to in October wasn't lying about him. I never thought that she was I just thought it was a one off thing. Made a mistake, learned from it, never gonna happen again. I don't know just how many people he's affected. I know of a handful of girls that were gifted cosplays and deliberately asked for photos of them wearing it. I know of at least two that have provided me proof of him asking for explicitly sexual favors in exchange for money and they both seemed completely blindsided by the fact that he was married now. They claimed to be told by him directly that he is single and it sucks because no one wants him, maidenless, whatever. I really just did not know what the hell I was supposed to do with any of this information because the only person I thought I could trust with it didn't want to accept it; and that left me feeling like I'm wrong for wanting to expose it.

As far as me hating you; I think it's unfortunate because I can recognize that YOU did nothing wrong. It was the fact that Value was in the middle. I get that I probably

As far as me hating you; I think it's unfortunate because I can recognize that YOU did nothing wrong. It was merely the fact that Value was in the middle. I get that I probably wouldn't even know you exist if not for him so it's truly a hard thing to wrap my mind around. I think I did feel jealous of you for a while. Or maybe even sorry? Not that I think you're asking for pity the situation is just genuinely so fucked and I never thought I'd find myself on this side of it. I did feel angry with him when I saw you "Game over- Thank Value" redeem because I found that on youtube at 4am one day, went out of my way to send it to him because I knew how much he loved RE and then watched it become some great Value legacy. But at its core, I think it was just tied into me knowing all the things that I know and wanting him to own up to it or pay for it even but feeling silenced. I never cared about the credit. I cared that I knew he was hurting people and everyone was still giving him praises. Throwing money at him in offline hype trains, supporting him through thick and thin. It's just such a mind fuck, truly.

Just while I'm doing a tell-all anyhow; I don't know if there is anything negative he's said about me to you floating around. I didn't think he'd be the type of person to do that but I also didn't think he was capable of being who he turned out to be. A few people have mentioned that he more-or-less talked shit about me and claimed that I was envious and jealous of him and "his numbers". I hate that he painted such a sour image of me when all I ever tried to do was understand. And I was never jealous of him for what he had, just angry how he achieved it.

If I can do anything at all with the small platform I have I just want people to know it's not their fault. I'm not a psychologist and I can't diagnose anyone but it reads like narcissism through and through- and someone with that personality can be so hard to clock. It's just rough feeling like out of everyone involved, even Value himself, I'm still the only one trying to take any accountability. And I don't expect people who truly didn't have the facts to say I knew something was up- I mean even the people I confided in and said what do we do?- are playing it off like this is the first they've heard of it. I don't know I just can't fold like that. I did know and I didn't speak out for a lot of reasons; some selfish and some not. At the very least I can try and give people closure since he was too cowardly to do so himself. I also don't have any way of saying it and I'm on a roll with admitting my own faults so uh.. I'm so sorry that I unfollowed you on twitch too at some point. I just became so bitter that I felt like I couldn't do a damn thing and coped by eliminating everyone that reminded me of him. If you'd accept me I did enjoy your streams all the time I lurked and will be refollowing you. I don't expect anything in return and if for some reason we don't speak much after this blows over I don't take it personally. But I'd at least like to keep the door open and hold on to what little power I have left over my existence online.

I did reach out to a few people and you're welcome to share with others what you know. I know Basil had told you to message me and I did express to her I wasn't trying to speak to you directly to control the narrative; it's just that I think out of everyone he's interacted with from start to finish I truly knew the most and can give the most clear and honest answers.

And you're welcome to direct people to me too. As I've told a few others I almost have to take pride in it, because people that truly feel embarrassed or ashamed of his actions don't have to fill me in. They can just vent and ask away and I can provide everything I have without them having to try and make me understand. I already know and I'm more than willing to listen and help in any way I can.

hempie Yesterday at 9:54 PM

I think I've gone through a lot of stages of grief already. The hardest part is the select few that refuse to see it for what it really was and are still choosing to blame *me* and my compliance for so long. Of course I could have done more. I should have done more. I could have cut all ties at the very least if I couldn't stop him. But no one seems to care just how involved he was in my life too. The fact that he has my full name and I wasn't sure what he'd do with it. The fact that I've been doxed before online but under way worse circumstances so I felt as if the past trauma was immobilizing me. It feels like because I'm one of the only ones to admit YES I knew but didn't say anything, I deserve to be burned at the stake with him.

The logical side of me knows this simply isn't true. But it's so hard to feel like you have to go to bat for yourself in such a shitty situation when people are already giving you the side eye.

hempie Yesterday at 10:13 PM

I'd like to say I truly appreciate you despite our very limited interactions. With everything that's transpired.. I mean you were a victim, too. I feel like anyone that ever looked up to him or admired him in any way is a victim; just varying degrees. No one knew who they were truly talking to and I guess none of us really know online but I was naive enough to think that common courtesy and human decency were still relevant even in online spaces. I regret the time he's robbed me of and the spaces he's soiled. The friendships I never got to make and the one's I'll never be able to repair. I'd like to extend the same offer; if you ever need to just let out a basic "what the fuck, man?" my ears are open. Despite being a complete stranger to your community for the most part I'm here to calm them down or give them closure if they need it like I said. I'm a little bit older than Value and some of the people that were in his newer close circles, so this isn't my first time experiencing a blowup like this online. I'm capable of putting my differences aside for the sake of other people and although it's kind of biting me in the ass this time around I'd still like to help those who really feel beside themselves m. hempie Today at 2:22 AM

Just with him sweeping his wife under the rug. We hung out a lot off stream as a group, me him and b0 and ghost. he would talk about her to us and I wasn't always there for every word he said on stream, So a lot of my interactions directly with him in call; I still heard him bring her up occasionally.

I didn't realize he wasn't being as open with everyone that he claimed to be close with. I didn't know he was literally NEVER bringing it up on stream

He never asked me for any photos directly. He has pay info because he really wanted to help me pay for a webcam to get into vtubing after I got laid off- wasn't really thinking too clearly sent him my paypal and he helped. Didn't really occur to me he got my full name from that; I literally didn't understand that he could see that information idk I thought it was just email I really never used it much and it wasn't until I started commissioning things that it clicked that I wasn't using a business account and people could see MORE than just my email

**hempie**

Lain is Lain, and I'm me.

**hempie** Today at 2:26 PM

as far as pushing him directly I really didn't feel strong enough to do so. he kept circling around I don't buy people and I just treat everyone the same. around the same time I did try and tell barley idk man I just can't forget the fact that he has a WIFE and no one seems to know. and she seemed to not really want to press it either. so with him ignoring it when i first kind of opened up the door to talk about it, her wanting to leave it in the dark and me reliving my experience that i just had with someone sharing photos of *ME* I felt stuck.

I had thought the girl I spoke to was the only one that may have actually had this experience with him specifically, so to me and my experiences, I was worried despite sharing her story and omitting her name; Value would have been able to say "I know who this is about it" and I wasn't sure how he'd react or if he'd try and drag her through the mud. My story was 2 years ago and had nothing to do with streaming or Value. I didn't know him yet and I wasn't streaming regularly. It was online tho and the person who did it to me shared my photos publicly on twitter as well as named me. The only reason it got to that point was because someone else spoke up for me; so I was truly afraid by telling someone elses story for them, they would end up just like me. (edited)

**hempie** Today at 2:35 PM

It really is just a rock in a hard place, I could have pushed harder I could have done more I could have tried to say something other than just to Barley. but I also felt so confused and traumatized and there was the fear of being ostracized on top of it all. Staying quiet was a choice and while I don't think it was ultimately the correct choice I have to own that it was the one I made for whatever reasons I had.

There is a lot in these dms I would like to address and get around to, and i'm going to attempt to make it as linear as I can.

*When Hemp and I would talk we both were under the assumption the conversations would stay between us. We would both say like "this stays between us". While I'm hesitant to reveal some of the things she had told me in private, she has already gone and made many of the things I shared with her public.

1) Hemp was engaged and began flirting with another streamer as well.

When I first met Hemp, she was also engaged. She kept this mostly secret, but we would talk on it on occasion:

**hempie** 7/16/2024 4:33 AM
u do well at mentioning mrs value and casually dropping that you are spoken for irl so i think it helps keep it in peoples minds you're just having a good time i had a lot of internet trauma that led to me being super secretive about every aspect of my life on stream and i'm sure 80% of the guys in my server probably think i'm single bc i don't really reference [REDACTED] much on stream
thats where *my* guilt lies is i feel like i could be doing better
but i also don't feel any obligation to be fully transparent with my romantic relationships to people on stream when i'm just trying to game and have a good time
so i get confused on when i'm supposed to bring it up if it doesn't flow in the conversation u know?
like if people are obviously openly flirting with me i would create that wall and address it but it also feels weird being like ERM NO I HAVE A BOYFRIEND
DON'T SAY THAT

**Okay_Value** 7/16/2024 4:35 AM
I mean yeah I totally thought you were single until you mentioned [REDACTED]. Not that it was anything specific you said to like me in particular to make me feel you were single, it was prob just an assumption. Granted once I learned, its not like it changed anything for me, but as much as I love ya, I don't be simping

**hempie** 7/16/2024 4:36 AM
like i'm comfortable in my relationship and i'm comfortable with myself so i don't think of it until after the fact i guess

**Okay_Value** 7/16/2024 4:36 AM
Maybe not that way, but a way I've found subtly works is just slowly switching from I to we
Like "oh one day WE would like more space for more xats
Cats

**Okay_Value** 7/16/2024 4:37 AM
You could start bringing him up more in streams, again just small things here abd there
But if someone specifically asks then you could answer truthfully

**hempie** 7/16/2024 4:38 AM
thats the thing is i've never had anyone ask LMAO not that it bothers me but when i'm not being questioned i don't think about it in the moment

hempie 7/15/2024 5:39 PM

BUT ANYHOW to come full circle idk i just feel bad sometimes and i think thats why i've been in such a mental slump lately with streaming bc if all goes like it was supposed to [REDACTED] will be here soon and i fear my time at my desk will be cut back to virtually nothing and i don't want that to happen so then i start reevaluating my whole life and my priorities get a little fucked up and idk what to do so i slump

@Okay_Value Id wager, he probably looks more similar to this than his current one

hempie 7/15/2024 5:39 PM

ur telling me this man isn't actually a [REDACTED]

great now i'm uninterested

he's streaming soma tonight bc when we added each other on steam i looked at our shared games and said u have soma thats all u need then he said he hasn't actually played it yet to which i demanded he does so here we are

@hempie BUT ANYHOW to come full circle idk i just feel bad sometimes and i think thats why i've been in such a mental slump lately with streaming bc if all goes like it was s...

Okay_Value 7/15/2024 5:42 PM

No I get that. I think you would def be happier once [REDACTED] gets here, and you have him, you know? But losing out on vtubing would be hard on you, I know how much you love it, it stresses you tf out, but thats for different reasons (like obs/windows dying). Trust me, its not like I havent sat there reavulating everything either. Its just... Difficult?

Hemp and I were in similar situations where we had an irl relationship and began to keep it more secretive. We also both had started to flirt with other people online. While I do not know the extent of Hemp and *****'s flirting, it did continue for months (may still be ongoing) and she did have him buy hundreds of dollars of items on her throne (her throne no longer shows who gifted items so I can't back this up or show the dollar amount), gifting subs, gifting games, and later on she was considering having him pay for her entire trip to join him at a convention:

@hempie i haven't had the opportunity to talk to any of the homies about it and i have mixed feelingsssss

Okay_Value 10/9/2024 4:54 PM

whats up?

hempie 10/9/2024 4:54 PM

so theres like a vtuber convention i guess. offkai? idk if you've heard of it

i've never looked into any type of cons so its all new to me

but [REDACTED] messaged me last night and said the 2025 dates dropped and its in San Jose in june i think he said- and he was like god willing u haven't stopped talking to me by then i'll buy your ticket and pay for everything if you'll go with me

and im like UUU FREE CONVENTION THAT COULD BE SO FUN

but then i remembered what [REDACTED] looks like irl and im fearful it would be with the intent of pursuing uhuh .. something romantic and intimate and i just don't know about that one dawg

@hempie but then i remembered what sin looks like irl and im fearful it would be with the intent of pursuing uhuh .. something romantic and intimate and i just don't know ab...

Okay_Value 10/9/2024 4:56 PM

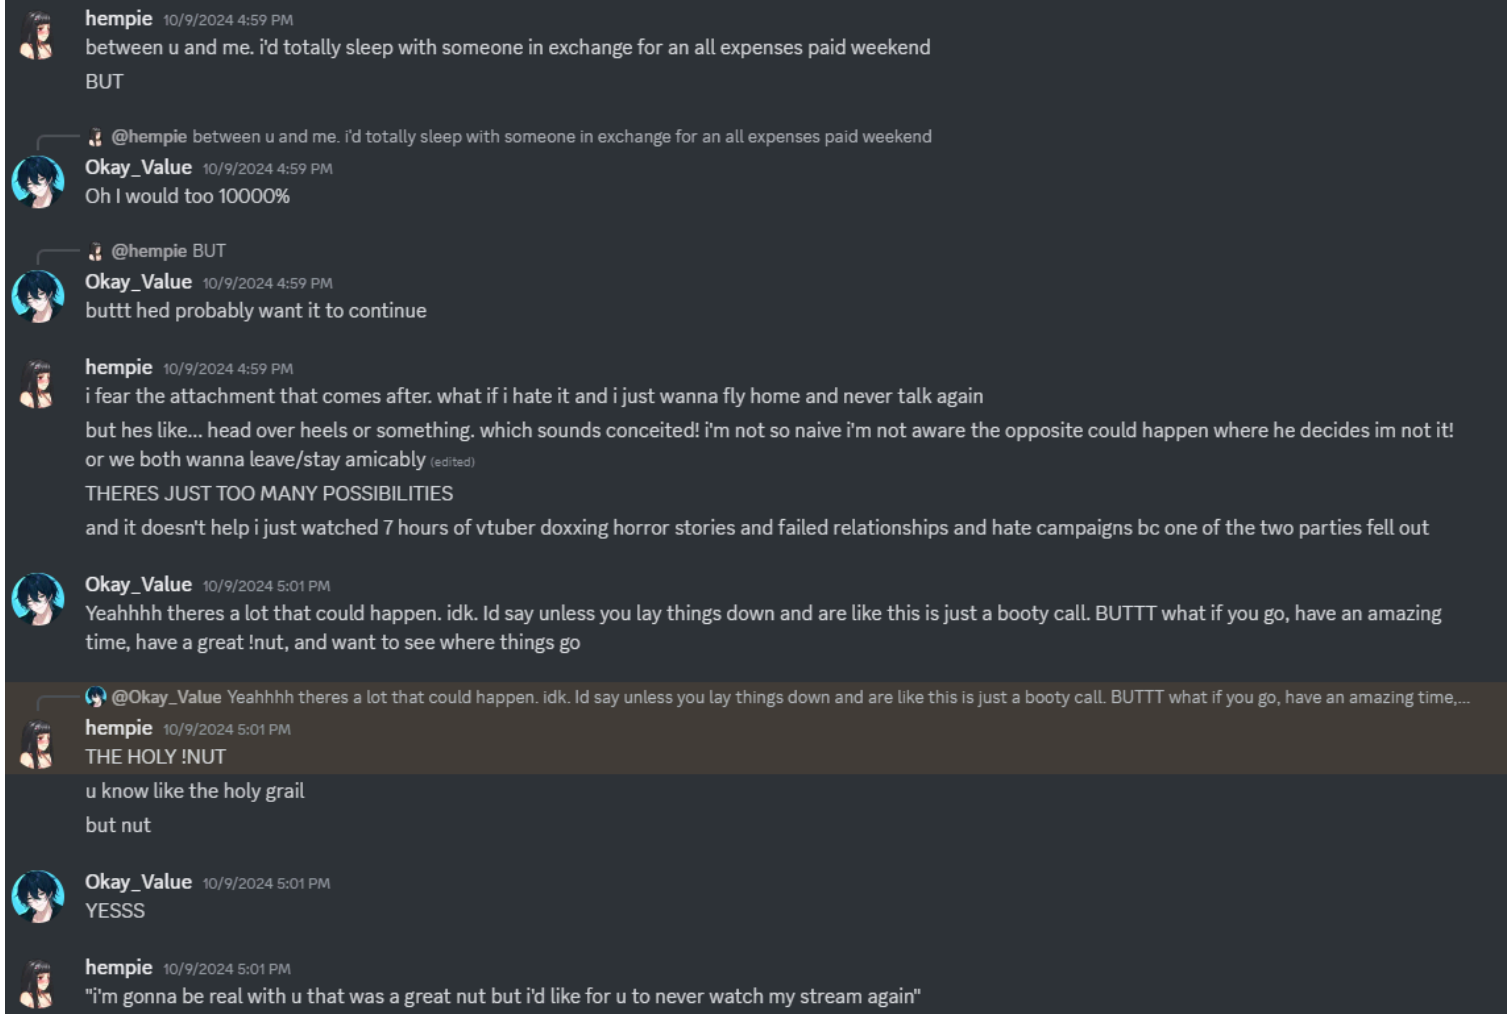

I emannnn paying for everything? I meannnn yeah he might at least want a smooch ya know?

THAT WOULD BE SO FUN! I actually hadent heard of this

hempie 10/9/2024 4:56 PM

would u kiss a vtuber for a free ride to a vtuber convention be honest

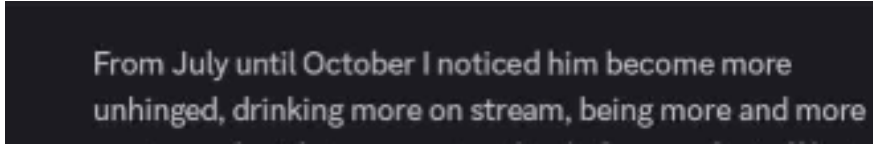

While I know the two of them have had some issues, I am unaware of if they are still talking/flirting. She also stopped ALL mentioning of her fiance back in July so I am unaware of how that relationship ended as well.

Again, I'm unsure of the extent of hemp's flirting. It doesn't seem like it was to the extent of mine where it was with multiple people or if any sexual acts had happened. Her doing this as well does not excuse me for having done it, it was wrong of both of us to encourage each other to engage in this.

2) My drinking and streams becoming more unhinged

From July until October I noticed him become more unhinged, drinking more on stream, being more and more

Between when I started streaming in May of 2024 to February 2025 there was 6 streams I drank during.

Drunk american truck sim (was a sub goal), Drunk powerwash sim with Barley (was a follower goal for us both), 1st day of RE6 we hit follower goal, and I did shots to celebrate (BIG mistake), New years stream, and Backrooms collab in January.

There may have been another time or two where I would have a drink during a collab, but would not be to the point of being drunk.

Off stream however, there were MANY nights that I would be in a call playing games with the gang (Myself, Hemp, Barley, Ghost) and we would all be drinking. I did drink a lot between July and September, my Chemotherapy had wrapped up and I had been cleared by my doctors to drink, so I celebrated. Then in September when my cancer made a recurrence, I then had to stop again for a while for more procedures/surgery, then late October I was cleared to drink again, but I did not drink as often.

Me celebrating does not excuse any actions I did while I was drunk.

Around July/August, my content DID start to become a bit more unhinged. Chat was receptive to it, it was things I was open to talk about, and there would be plenty of sus conversations that would happen on stream. However NONE of this was targeted to anyone in particular and involved sus/unhinged/degen comments from both myself and people in chat. It was always as jokes or in fun, and was often encouraged. But if I was ever in a collab with someone outside of the gang, the sus and unhinged comments would always be dialed back and kept respectful.

3) The F and V situation

sometimes. September of 24 comes around and he has a falling out with [REDACTED] and [REDACTED]; i never got the FULL story of what happened here but it essentially came down to pick a side me or [REDACTED]. Well I didn't know [REDACTED] all that well despite him seeming nice so we all rallied behind Value. In October [REDACTED] had reached

While I have their names blacked out for their privacy, I will be referring to the two other people involved as F and V. Letters do not have anything to do with their actual username

This statement made by Hemp is a complete lie and I believe she lied to both F and V to make herself look better. I do not have proof of her lying to F or V and am only able to share my conversation with Hemp on it. I am going to try and keep F and Vs information private out of respect, but they are welcome to comment on this as well to which I can provide additional info at that time if need be.

For context:

F and V were friends I had made that I introduced to Hemp. F and I had a strong friendship for a while, and were flirting together. F was aware I was in a relationship, and we still would flirt/make the occasional sus comment. It was definitely more flirting than I should have been participating in, and that is my own fault. F and I ended up having a falling out over a conversation about V. I shared it all with Hemp. To try and keep it a little easier to Follow F's name will be crossed out with Black, and V's name will be crossed out with red:

[REDACTED] and I were talking about [REDACTED]
I mentioned how he can be a bit of a flirt

Okay_Value 9/8/2024 4:40 PM

and she got a bit upset, thinking that she is just "another girl" he is talking to
But also, shes upset with me and Im like ?????????? Wouldnt you maybe want to know something like that? I know I would

hempie 9/8/2024 4:47 PM

she shouldn't be upset with u for being girlypop about it
dude literally sent me a selfie and asked bo if she wanted to see his messy wet hair at the same time
DONT TELL HER THAT THO

Okay_Value 9/8/2024 4:48 PM

EXACTLY! I didnt mention that, I just was like yeah I think he got flirty once or twice with Bo or hemp but it didnt go anywhere

hempie 9/8/2024 4:48 PM

i don't want her to be like "value said..." to [REDACTED] bc then it just gets messy and awkward lol
she'll learn one way or another. if she won't take ur warning then it'll just have to be the hard way

Okay_Value 9/8/2024 4:49 PM

Well I was just telling her, She knows him way better than I do at this point, and he ended things with that other girl cause she kept flirting around, so maybe hes just focused on you! But she was just already upset and wouldnt really listen to anything else so its up to her now
I suggested just keep things going, have fun, see where it goes. Doesnt need to rush straight to relationship
Love on the internet can just be, messy

hempie 9/10/2024 9:00 PM

i wouldn't read into it too much. she's probably acting like that bc she was simping for u for a minute and doing stuff with u + the person shes crushing on probably makes her overthink it and feels awkward speaking in girl brain terms. it is super shitty she took ur words the wrong way but i'll be on ur side. i knew u first and ur actually a friend to me. i don't know her that well tbh (edited)

honestly if i evaluate it i wouldn't be surprised if she interpreted it maliciously. i mean like. her thinking u like her despite knowing ur taken so shes probably just a little full of herself. like ohh value likes me and i dont want that so im gonna be so mean to him

its not fair to u im just trying to understand why she's acting so weird towards u

and she probably thought u warning ger about [redacted] was to "keep her attention for urself" even though u and i both know that's not the case

Okay_Value 9/10/2024 9:06 PM

No I know I know. It still just stings.

Was typing then read your message, and actually that's a fair point. Maybe I should just have a similar mindset and be like oh it's you rather than OH ITS [redacted]

Honestly, it's too exhausting either way. I really don't care. It's mean but id put money on she fell for [redacted] because she was in a rough spot, he gave her attention, and she went with it. But who knows.

Also she was talking in his chat literally before he started stream just like a certain [redacted] would lol

I'm just tired. I just wanna play goofy games with friends

F and V became close and F developed a crush on V. While V was a friend of mine, I did let F know that he could be a bit of a flirt and had tried flirting with both Barley and Hemp together.

hempie 9/8/2024 4:47 PM

she shouldn't be upset with u for being girlypop about it

dude literally sent me a selfie and asked bo if she wanted to see his messy wet hair at the same time

DONT TELL HER THAT THO

Bo Barley 9/13/2024 9:58 AM

Oh boy !

I mean to me, it definitely seemed like [redacted] was flirting with me. He said stuff like "I'll take pics just for you when I go out to eat" and that "just for you" part is pretty flirty imo 🐼 and he asked if I wanted to see "wet messy hair" like hello??? Do you say that to someone and it's not meant to be flirty at all??? And this stuff is off stream too so it's not like he was putting on an act.

Idk exactly what u said about him just calling him flirty isn't like a horrible insult either ??

Looking back it was not my place to have said this about V. At the time, I had said it due to a situation F had previously been through and was trying to look out for her. While I dont believe "being a flirt" is all that bad (clearly) it was not right of me to say about V.

sometimes. September of 24 comes around and he has a falling out with [redacted] and [redacted]; i never got the FULL story of what happened here but it essentially came down to pick a side me or [redacted]. Well I didn't know [redacted] all that well despite him seeming nice so we all rallied behind Value. In October [redacted] had reached

All this to say, Hemp was fully aware of the situation and was understanding of what was happening. I later learned that Hemp lied to F and said that V had never flirted with her, but I dont have proof of this. Hemp is just happy to say what she needs to make herself look good to who she is talking to even if that means lying or manipulating things.

3) Hemp's bitterness

Anyhow in November was when I really exceeded my limit with him. At this point I had already been put in a position to take side over him, I felt bullied by him, I felt like I was making excuses for him and all the while I felt alone and powerless. He would have this habit of mocking me for how I sound or what I said, I'd express it felt really shitty, he'd apologize and swear to never do it again.. but then rinse and repeat we're right back to square one. I did unfollow him at the time and leave his server because I didn't know what else to do. I was faced with the same challenges. Do people even care? Would they believe me or just take his side like I did for so long?

I hate that he painted such a sour image of me when all I ever tried to do was understand. And I was never jealous of him for what he had, just angry how he achieved it.

These two points both happen to go together and I'd love to address them both. In November Hemp and I did start having long conversations that ultimately boiled down to her beating me down over and over and telling me how I don't do enough for her, when she would do nothing for me. There will be screenshots and I'll be sure to show as much of the conversations as I can. This all started right as I started to pass her in follows on Twitch.

Hemp DID also show a screenshot from one of these talks that happened a bit later on. These messages were of course selectively chosen by her to make me look even worse, rather than her showing all the conversations:

This began on 11/13 late at night:

hempie 11/13/2024 8:25 PM

I KNOW U DONT SEE IT BC U DONT CHECK SERVER UNLESS I TELL U TO BUT RIGHT NOW BEFORE I START MY LOCKDOWN COLLAB IS A BAD TIME LMFAOOO

u just seem mad at me tho

am just a girl

u feel mad

Okay_Value 11/13/2024 8:26 PM

Im not mad at you! Seriously!

I dont mean to get you upset before your collab, im sorry, I just felt bad and wanted to make sure we were okay

You know I love you

hempie 11/13/2024 8:40 PM

did barley tell u 

probably actually shes the only one i mentioned it to so it tracks lmao

Okay_Value 11/13/2024 8:41 PM

I was talking about how great your streams have been and how happy I was that you were doing so well, and she mentioned she was surprised because she thought I was mad at you, so I asked her why she thought that. I mean it was kinda me pushing

but now barley is sad that I messaged you about it, so now I feel awful that I hurt you both, and im really sorry that I made you feel that way. Ive been so happy for you and have enjoyed your streams and hanging out so much, I couldnt be mad at you

OH RIGHT sorry i meant to circle back to this it's just been a weird fuckin day. i think everything i tried to do today went wrong at least once 

i think it's mostly fault of my own paranoia and overthinking. i'm very sensitive to tone and certain responses or lack thereof. i don't blame u for being busy or not answering sometimes- that'll never be a problem bc i'm terrible for responding a lot of the time and u know this better than a lot of people lol- but like remember when u were putting together u whole pokemon thing and u were like oh u guys never check my server so u hate me. i get that's super frustrating bc u want support and people to notice ur work or even just u- and theres been a lot of times where u do ask me when i pop into ur stream what my plan is or when im streaming next and ive talked about it or ran polls or posted a schedule but i know u don't see it. and again its okay because this hobby is very time consuming and u have to be self centered in order to prioritize everything u can to grow urself- i just feel weird when it feels like its expected of me and its not given in return i guess? like how u joked oh no one looks so they hate me i thought oh value never checks unless i dm him directly and tell him to

hempie 11/14/2024 1:29 AM

and i've felt awkward a bit lately when gaming with u an b0. i think its because it feels like.. idk dude it just straight up feels like im a third wheel sometimes since u guys confessed ur crushes to one another lol. like theres been a lot of times in fortnite where u two are in a car miles away from me and it just feels bad. or im silent for a good 15 minutes because im caught in a loop of "u nuttin? u bustin? *moaning* ayo?? uwu bark bark nut nut nut" and idk how to really insert myself into that lol

but then i think my silences gets misinterpreted as me being mad and im not i just feel awkward and have nothing to contribute

i just remember havin a lot of good convos with everyone at one point while gaming and its transitioned into sus city 24/7 and im not that gorl 24/7

im selectively sussy

im just brain dumping everything to air it out so we can vibe again without me feeling awkward

 @hempie im just brain dumping everything to air it out so we can vibe again without me feeling awkward

Okay_Value 11/14/2024 1:32 AM

No please do, im just listening

hempie 11/14/2024 1:33 AM

but i think what i was gonna say is i notice how you do chime into bos server with responding and reacting to art n stream schedules and i don't think u do that in mine and i don't feel jealousy in any regard its more so like.. not included lol

i know u said too that if i didn't self promo in urs you'd stop in mine- but ive never been one to do the self promos in other discords its just too much for me to think of. if i could automate it i would- but i notice when u stop posting them and again it seems to be selective on ur part to leave me out and i don't always understand why

to think of it I could automate it I would- but I notice when I stop posting them and again it seems to be selective on ur part to leave me out and I don't always understand why

so these are all super minor things that really aren't a big deal and they don't upset me to great lengths- its more like its all the little things compiled into one so i started to think damn he might be mad at me actually

you have always been very supportive though and i try to do the same but i don't think i do as well as u. i don't want u to think i take any of it for granted because its truly not my intention!! i just- i guess wanted to make sure we're cool? idk! like you don't HAVE to react to everything or respond or self promo. really you could decide to never say anything in the server and it wouldnt sway my desire to see u grow and succeed

i just wanted to explain *why* it seemed like u were mad. or why i assumed as much

bc honestly if u responded to this and were like im literally just to busy or to tired id probably be like ok bet i understand completely

Okay_Value 11/14/2024 2:03 AM

Im really sorry, Ive seriously never meant to make you feel these ways, ANY of this honestly.

For the discord thing, I do get that. Im honestly not active in really any of the other discords ive joined, I mean I barely even read my own when everyone is chatting away, but Yeah if I have something to say or share I put it there. I have yours unmuted, so I do go in and check posts and such every now and then, im sorry I haven't been super up to date on it, I really mostly focus on like our dms or such so I can give like you or Bo or Ghost my attention cause thats who i want it towards. But I get you feeling like itd be better for me to comment on art and stuff, Im really sorry. I know you had a lot of art Monday and Monday was a great day, I dont mean to turn this on me or anything, but for whatever reason after I ended stream Monday, I got incredibly depressed, I just turned off the computer and just was done, so I had missed everything and didn't get the chance to comment on it all, and im so sorry I left you on read,. I just couldn't that night. You mention the pokemon thing, and I did make the comment of you guys not checking it, while I meant it incredibly sarcastic and as a joke, I completely misread how it came off and I do now realize I shouldn't have made that comment.

I absolutely dont expect you interacting or reading my discord, and im thankful you do or did anytime you would look through or comment. Im just not good at being active in multiple spaces, and I need to work more on that. Times I ask you about your plans or something when you pop into my chats, I try very hard to remember like yours and Bos schedule, but im very forgetful especially when that like "go" mode is on, and I know for a while you weren't posting one, or you would post day of that there would be a stream, so if its one of those day of posts or polls, im more likely to miss it when im streaming. I never say or ask it in a way of like "oh i need you to tell me so I dont have to go look" its more of I genuinely am curious and interested in what you do AND I want to shout you out while im streaming. I mean I literally mention you probably 100 times a stream, even if you dont show up or not. I love how awesome you are doing, and I just want you to succeeded and any amount of love I can send your way im happy to do so.

You mention the self centered part, and maybe I dont notice it, but I try so hard to make sure I dont only focus on me, and that I can spread the love to as many of us as I can. Of course the focus is on the gang, but maybe otherwise im spread to thin and cant give the proper love. Idk this has given me something to think about, and if Ive come off as self centered, fuck i am so sorry.

The gaming part. I mean we really aren't trying to make you feel like a third wheel. I know I try and talk to you as much as I can, but half the time then I feel

The gaming part, I mean we really aren't trying to make you feel like a third wheel. I know I try and talk to you as much as I can, but half the time then I feel like you get annoyed with me or just go bleh, and I mean theres been times, where like youll do a few things and ill like genuinely get sad or hurt and think you hate me, and I think one time I got quiet because of it and you went like "I Hope you aren't sad because of my jokes" and I lied and said I was eating or something, I should take it as jokes, but I cant always tell and I do get real sad about it because I really do think you dont me there. The sussy comments and everything, I will 1000% dial back, I agree it can be much at times, but the intention is never to exclude you. hell everytime Bo asks to hang out we immediately go and see if you or ghost want to join, we really dont hang out much without you two or just Bo and I, because we do love you guys and want you around. I really dont want it to be to the point you dont want One of us around or something, and id do anything to avoid that.

Back to the discord a bit, Same with Bo's server, I dont often check it unless shes like "OH did you see this" but message I mean a good amount of the day, so its usually in the moment so ill go comment, if its much later or something I wont, and I feel like I accidentally get to your server stuff too late, so just say to you how amazing it is. But I can absolutely put the effort into going and saying how great it looks there on the server.

For the self promo thing, I absolutely would love if you self promoted in mine! I personally have just stopped promoting in anyones servers, I just have the automated one for mine, but id still love and encourage you to post in mine if you would like. I think I can set it up to auto post to mine when you go live, ill look into that tomorrow if youd like that! Its not at all trying to leave you out =, I never want to exclude you, i just genuinely haven't been posting them anywhere. I do my twitter post and thats it.

Hempie, you have been so incredibly supportive and such an amazing help and friend through all of this. Please dont think you haven't been. Im so so so grateful for having met you and having you and I still look up to you so much. youve helped me more than I think you realize, and no matter what I do, I dont think I can ever help you as much as youve helped me, and I genuinely mean that. But I am always happy to be here for you and help and do anything I can for you, and I mean that from the bottom of my okay heart.

I completely get why youd think im upset, but I promise you Im not and I still so greatly treasure you. If I genuinely was upset or anything, Id absolutely talk to you about it, because I value your friendship too much to lose you. honestly tho, half the time I think you are upset with me or annoyed by me and it really hurts but idk what to do or how to fix it and I really never want to do that, but then things seem fine and then I think its all in my head and idk its just a back and forth so I guess were both kinda in the same position? idk. I just, please if you ever are upset with me or think im upset with you, you are always welcome to talk to me about anything, i promise

God im sorry, I yap too much. Same offer applies to you if you don't want to respond to any of this, I also just want to make sure we're good (edited)

tldr I fucking love you

@hempie i know u said too that if i didn't self promo in urs you'd stop in mine- but ive never been one to do the self promos in other discords its just too much for me to think ...

Okay_Value 11/14/2024 10:12 AM

I did go ahead and do this, I set up auto go live notifs in my discord for you Barley, and Ghost. It doesnt ping everyone, but itll auto post for you

hempie 11/14/2024 1:44 PM

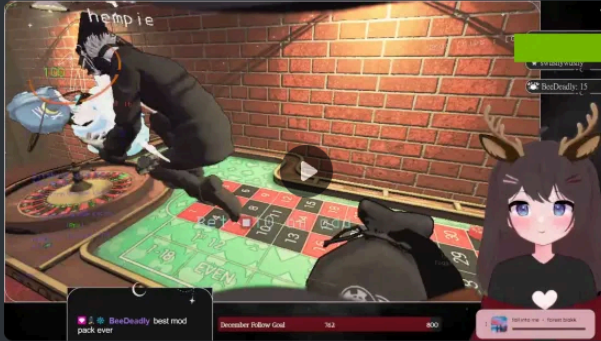

i have read this and teared up a little but had a valium this morning so am to brain mush to respond properly but i hear u and u make a lot of good points and i appreciate u and am sorry for ever making u feel bad or sad and also i luv u binsh

It started with Hemp being upset that I didn't interact in her Discord server enough. I started putting in extra effort to be active in hers. She did not do the same to mine. After this first talk, we were back to normal until 12/14:

hempie 12/14/2024 11:16 AM

i'm havin a rough go at this because i've been trying to decide if it's even worth bringing up or if i should just let it go and kind of keep my distance in the future because i'm tired of feelin this way when i'm around people i should feel comfortable being myself around
i know you swore up and down u didn't do it. i know its probably not a big deal to you and "i'm just over reacting or taking things out of context". but it's something i've talked to you about already in the past and vocalized how shitty it makes me feel. this was within 10 minutes of me even joining so the rest of the time i'm there i just tried to stay quiet and not react to anything unless people spoke to me first

i know you haven't been feeling good. i know you're stressed and busy 24/7 between irl appointments and just day to day life stuff. i know you have a lot of tabs to keep on all these people you network with because its a numbers game to you and the best thing you can do is extend your reach to bigger and better homies to help your personal growth. i don't blame you for being the way you are with streaming. it just felt bad this week too because i let myself think i was part of the group lmao. like u raided ghost and then barley and im ngl yesterday i was like holy shit im never live when he raids out and he did homie rounds this week so im next 🍀 you didn't say you would raid me and i didn't really expect one or feel bad that i didn't get one. i just notice things and feel like an outcast among the three of you sometimes. which is a weird feeling to deal with. i just wanted to say i don't want or expect anything from you because i know i don't have anything to offer anymore as far as your growth goes. it just feels bad and when i asked barley what do i do about this she said just talk to you so here i am despite my gut telling me to say nothing

Okay_Value 12/14/2024 11:40 AM

I am glad you talked to me, im sorry Hemp, I really dont want to be making you feel this way at all.

First, with copying you I genuinely didnt I guess remember it after, and Im so sorry for sitting there saying I didnt. Its absolutely not in a way of mocking you, but I do understand how that makes you feel. I know apologizing doesnt mean as much as actually not doing it, but I really am sorry for letting you down on this again. you know I love hanging out with you and never intentionally do anything to make you feel down.

Im sorry about not raiding you yesterday, I really didnt think about that. I had planned on raiding over to [redacted] since she had been giving so many bits these

Im sorry about not raiding you yesterday, I really didnt think about that. I had planned on raiding over to [redacted] since she had been giving so many bits these last few days with the crowd control and I hadnt been able to yet. I raided ghost because I know he hasnt gotten as much love from people lately and doesnt get to pop into my streams as much as you and Bo do so i cant shout him out as easily. I raided Bo the other day since it was her celebration stream

I mean yeah I focus on the numbers a lot, but that doesnt mean I still want to prioritize and love on the homies. I mean I still care incredibly gratefully for you and the gang, and dont say you have nothing to offer, that doesnt matter to me. My focus is still seeing growth for everyone not just myself, and the last thing I want is you to feel left out or anything. I mean ive been trying to be by all of your streams, ive been more active in your discord and everything, im always wanting to hang out with you, I mean I share things with you and we talk about things I definitely dont talk to anyone else about, but I guess im just struggling to find more ways to show how much I care about you? Again I really dont want you feeling like an outcast, or that I dont appreciate you, because I do so much

numbers only matter to me so much, id chose you all over a big stream anyway

hempie 12/14/2024 11:53 AM

I don't want you to interpret this as woe is me. truly i mean it when I say I understand. i don't expect you to be there for every stream and it doesn't make me feel bad when you can't be. there's been a handful of times i've straight up slept through ur streams so i get it entirely. i know i've mentioned the discord in the past and honestly it was just because i noticed you did stop posting but only after i vented to the group about generally feeling bad that the server was

feel bad when you can't be. there's been a handful of times i've straight up slept through ur streams so i get it entirely. i know i've mentioned the discord in the past and honestly it was just because i noticed you did stop posting but only after i vented to the group about generally feeling bad that the server was *only* getting used for self promos and nothing else for like a solid month. this wasn't about getting you to show me anything more or less than you already do. i wasn't reaching out to get you to be like "oh ur right ill raid u to show u i care"- it's not like that at all. u could say i'm never raiding you again and i'd be okay with it because at least i know lol. it's really just about the cold shoulder i feel like i get sometimes because i'm not as sussy or flirty as everyone else. and the mocking like- i know you say you forgot right after but that's what kind of bothers me. is you do that voice to me so often and it only gets brought out when you're mimicking me or doing something like saying "uu step on me mommy" during a stream but i never hear you mock barley or ghost or bee or yuki or anyone that you've streamed with in the way that u seem to repeat what i say. and if you do forget it right after it hurts too because that just means its such an involuntary reaction to me speaking you don't even register you're doing it. so i'm left wondering "why does he only do this to me"

Okay_Value 12/14/2024 12:01 PM

I get what you mean. But I don't ever intentionally try and give you a cold shoulder, I really don't mean to come off that way. I know you don't appreciate the sussy/flirting so I try not to direct it towards you and I've tried cutting back on it around you in general out of trying to not make you uncomfortable. I really don't mean that to come off in a bad way, im really just trying to respect your comfort levels

The mocking thing is something I do with people I feel close with. I feel I mock Barley more than anyone, bee a close second since she does it back. And me forgetting has nothing towards you, we've talked before about saying things and forgetting immediately, idk why it happens, but it's not an excuse.

Please don't take this as me trying to justify things, I hear you and understand and really don't want to keep making you feel this way. I really do love ya Hemp, and I don't want you to feel you need to distance from me or feel uncomfortable

hempie 12/14/2024 12:11 PM

I really don't want you to feel like or view me as someone you have to tiptoe around honestly. I know i've talked a lot about how certain things i'm sensitive to can really eat at me but reality is it's not your job to coddle me; I just have to ignore it or be stronger. I don't want u to feel like you have to do anything extra for me just to show you care or anything either. really its okay if things stay how they are like u don't have to change or do more for my sake. really in this world we've created online no one owes me anything. if someone gives me bits or subs or a raid thats because they want to and i don't automatically feel indebted to them or like oh i have to return this favor now because no one makes anyone do anything when it comes to streaming. so i know you don't owe me anything and i don't feel like you do either. i'm probably going to get back into my evening streams anyhow because this week bo has started her streams 30minutes after me on the dot and tbh most people that we share choose her over me because she's more high energy. so as far as u raiding don't even stress it because i'm taking the option off the table o7

i appreciate u hearing me out tho i know it's not easy for me to be confrontational and it's not easy for u either to hear you've upset someone because- well. i know you! i know you just want everyone to feel good and loved and happy. so thank u

Okay_Value 12/14/2024 12:20 PM

I'm always happy to hear you out, seriously. And I really appreciate you talking to me, it means more than you know.

For the raiding and everything, I know I don't owe it to you, but it's something I'll keep in mind, because you are right, I haven't gotten to raid you as often

i appreciate u hearing me out tho i know it's not easy for me to be confrontational and it's not easy for u either to hear you've upset someone because- well. i know you! i know you just want everyone to feel good and loved and happy. so thank u

Okay_Value 12/14/2024 12:20 PM

I'm always happy to hear you out, seriously. And I really appreciate you talking to me, it means more than you know.

For the raiding and everything, I know I don't owe it to you, but it's something I'll keep in mind, because you are right, I haven't gotten to raid you as often and I really do want to. Raiding has gotten hard, especially this week with how many new raids I've gotten so I try to raid them back and such, but that doesn't outweigh everything you've done for me. That's my choice to want to give back to you, and I'm happy to do so.

Idk if you need to go back to moving your streams to later, but it might not hurt to check when bo or someone else streaming, you know? I mean that's why I moved to mornings in the beginning, but I know you can work around things. And idk about that, not to get too into it, but your viewer count was higher than bos just about all day yesterday, just saying.

But again I really do appreciate you talking to me, and I know it's tough, but you always can

Also if it makes you chuckle, I had started shaving when we started talking. got distracted, and have sat here with half a shaved face lol

hempie 12/14/2024 12:26 PM

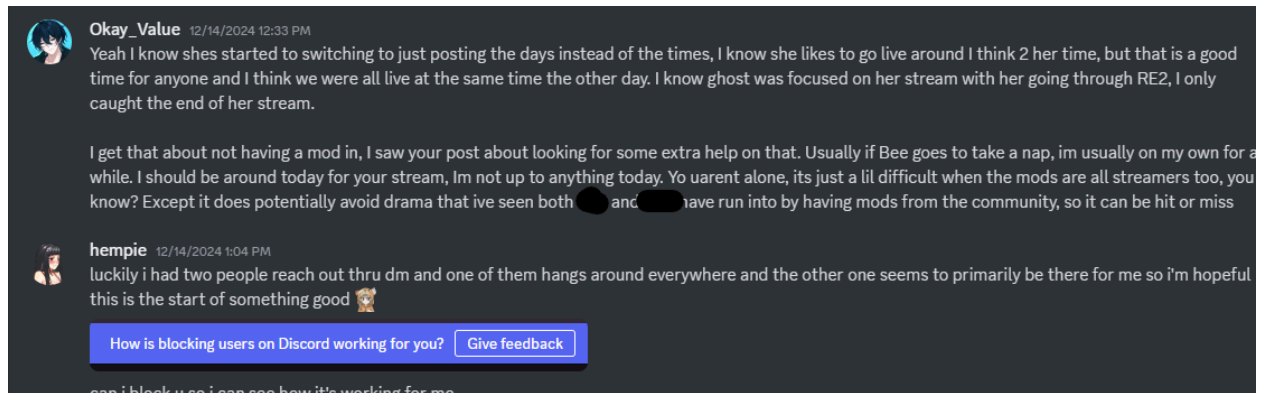

I did try and check but she's been posting just days of the week without times- which is fine i mean shit i don't even post a schedule at all. and again i don't have the mindset of "HEY I'M STREAMING U THREE CAN'T RIGHT NOW ITS MY TURN" like we can all go live at the same time and whatever happens happens. it was just rough this week because i only streamed twice and both days it just happened to be 30 minutes before she did. and yesterday when i popped into hers i saw u and ghost chattin and i was like aw ghost didn't even say hi to me and value left ages ago. it feels bad to even say that with how i am tho because really i don't think people have to devote hours of their day to keeping me company. people come and go as they can/want to. i was just having a rough day and then i was still thinking about the lethal thing and my last 3 streams i haven't had a single mod unless its cursed popping in to say he's hiding in the bathroom so i just got overwhelmed and am like fuck i'm truly alone out here at the end of the day huh

also leave it half shaved i hear the girlies are going crazy over that look for 2025

Okay_Value 12/14/2024 12:33 PM

Yeah I know shes started to switching to just posting the days instead of the times, I know she likes to go live around I think 2 her time, but that is a good

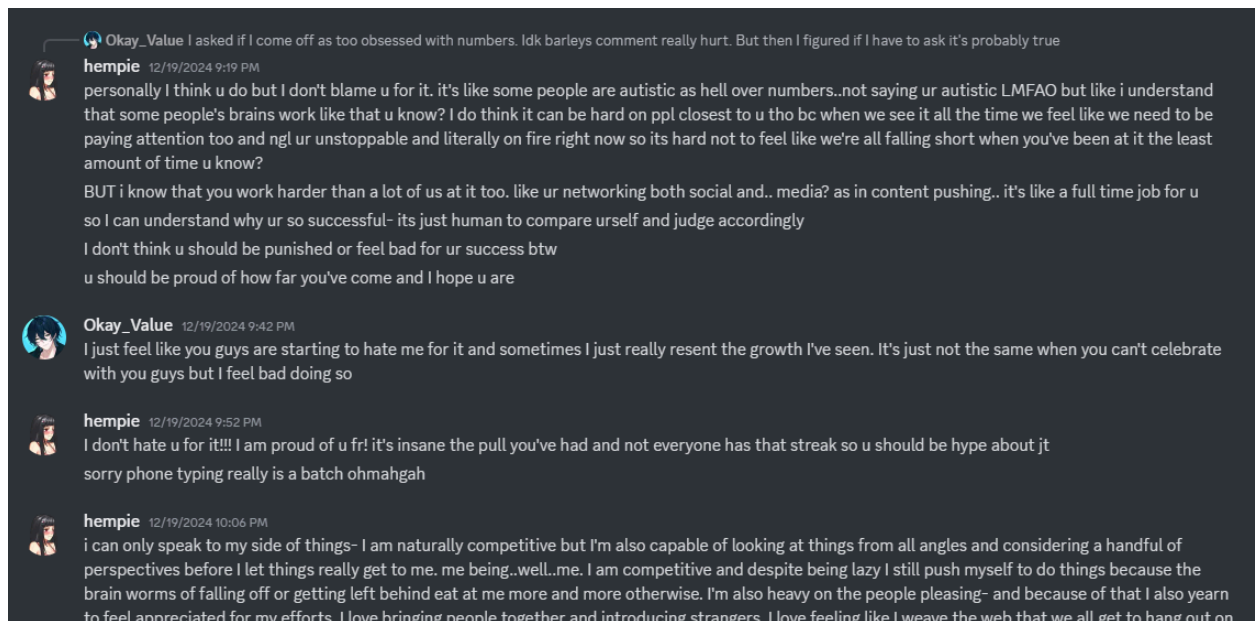

Few things to touch on:

Hemp did make me aware that she did not enjoy when I would mock her. Its something I do with people I feel close with, its never meant in a mean way and is always just as a joke. Hemp had first mentioned it way back in September, which I apologized for and did my best not to. I accidentally did it again, she mentioned it, and I worked harder to not do it towards her. I never meant to upset her or as she is now saying “bully” her with it, and I genuinely did put effort into not doing it towards her

A lot of times in these conversations, Hemp would say how she's upset at me about something, then act like it doesn't matter, but she'd still be upset about it. Good example is her talking about how I didnt raid her. She got very upset and felt left out because I didn't raid her one day, but then goes on to say she doesn't “expect” me to raid her, but it makes her feel like an outcast. I felt her way of structuring these sentences was to guilt me into doing more for her even though I was constantly doing all that I could for her.

After this conversation, we were back to okay for a few days then had another on 12/19 that I started:

hempie 12/19/2024 10:06 PM

i can only speak to my side of things- I am naturally competitive but I'm also capable of looking at things from all angles and considering a handful of perspectives before I let things really get to me. me being..well..me. I am competitive and despite being lazy I still push myself to do things because the brain worms of falling off or getting left behind eat at me more and more otherwise. I'm also heavy on the people pleasing- and because of that I also yearn to feel appreciated for my efforts. I love bringing people together and introducing strangers. I love feeling like I weave the web that we all get to hang out on because that's all I ever wanted. not in a gloaty " / did all this" type a way just.. all I've ever wanted was to help people get going and for them to feel safe and comfortable in doing so. I always wanted to be a teacher but am afraid of children and even more terrified of high schoolers- plus I fucking hate going to school ironically enough. so something about what I do here- between discord and twitch.. it feels like I'm living out my career fantasy. being a tutor or a mentor or an inspiration. but I have this idea that I can't be that person if my.. students? so to speak (lmao) are above me. I'm trying to say from my perspective it is hard to swallow the pill of ur just better at this than I am. and that's a bitter thought to have which isn't fair to u. u stream more days a week than I do ur more social in different chats ur constantly reaching out to people on Twitter u post on tiktok u do so much so really it's insane for me to expect to be or do better solely based off of streamlife. it's just hard to forget I've been doing it so long and never really had a growth spurt quite like yours. but again it all just circles back to effort. if I don't want to take the time to do everything ur doing things aren't going to just fall in my lap (edited)

Okay_Value 12/19/2024 10:27 PM

I do get where your coming from, I really do, but i really dont think im "above" you or the others or anything. I ve just tried to do what you do, have fun and bring people together. I really just get to stream more often than you, I feel like thats our only real difference. Regardless, I do still look up to you and am inspired, like im not trying to turn this into a like owowow I love you hemp, but as you put it, you are a really great and amazing tutor and a great streamer. Im just trying so hard and it feels like I never do enough, not like just towards you, but towards everyone/thing idk

hempie 12/19/2024 10:43 PM

i wouldn't try and view it as ur not doing enough for anyone. i think you do plenty- the issue isn't about what you do for us i don't think. i honestly think its just more so about how often you talk about it. and i don't even think it's necessarily a conscious thing bc i don't mean u talk explicitly about numbers- but saying things like i got raided by someone with 3k followers today and i had 70 viewers the whole time and i'm almost at the 100viewer badge and my ccv this week is through the roof and this other vtuber with 2k followers noticed me and.. u get the point lol. its hard to find a way to put what i mean into words bc all of these things are literally just u mentioning cool things that happened that either surprised u or your proud of or what have u- but when you hear it all the time as someone who never used to pay attention to numbers it starts to creep in. and then the comparisons start and if it's a bad day/week/month for someone like me for example- having that daunting thought of oh viewers and followers and recognition can be 10x heavier so it turns into misguided resentment

like i know you've mentioned to bo before that she could maybe start branching out in raids- if you have a lot of viewers at the time consider raiding someone like krow because thats how u get the attention of a bigger streamer

but that's almost like a poison. while its true that method works its not always a guarantee on how much recognition you'll receive other than the initial thank u/shout out. and it's always felt way more fun and meaningful to be close knit rather than just another number to look at (imo).

thank u/shout out. and it's always felt way more fun and meaningful to be close knit rather than just another number to look at (imo).

but when u start to think like that u start to view people as figures i think. not literally u but the general "you" in a scenario like this. i don't like deciding where i share my love based off of how much i can get in return. like say u have a lower stream with only 20 people so u shoo them over to someone like idk [redacted] or whatever. and then u have 60 so ur like oh fuck i got raid [redacted] or [redacted] or someone who actually has eyes on them so i get noticed

hempie 12/19/2024 10:51 PM

its not wrong to have that thought its literally just how shit works in content creation so again i get why decisions are made the way they are sometimes idk if im really helping either but i promise im trying. i want u to know that i see how much time and effort u put into things so i would never discredit your growth or say you don't deserve it.

its just hard being in the shadow- literally thats all it is. people like [redacted] for example will see me or bo in chat and call us "values community" and while get thats where they know us from it kinda feels shitty to be under ur umbrella when i have worked hard in my own ways to be my own thing side not i just watched [redacted] change his discord thing to a fucking milk icon in real time

this fucking weirdo

AND I WENT OFFLINE AND THEN HE WENT OFFLINE WHAT THE FUCK

sorry to derail that was just really weird to witness

i should mention too even tho it's an after thought. i know you mean well and it's intended to hype me up- and idk if u do it to barley or not too; but after i stream if u mention "U HAD 80 VIEWERS" or something like that when i didn't bring it up it just refocuses my brain back to thinking about numbers

i don't think u do that super often and again i totally know for a fact ur just trying to literally say "u fucking go girl ur killing it"

buuuut as someone who tries to ignore that sorta thing its like oh shit oh fuck the bar has been raised oh no

I spilled my brain pls respond

Okay_Value 12/20/2024 7:37 AM

I know and I really appreciate it I'm sorry I wasn't in a good head space to write you back last night.

I hear you and get what all you're saying. I'm trying not to bring up numbers and such anymore, but usually when I do, yeah I'm just excited and I don't really have anyone else to share it with. But I see what it's doing to you all and that's not fair to you guys.

Barley told me about the [redacted] thing and I hated it, that's not at all how I want things to be seen, I just don't know how to change that.

Thank you for saying it all and talking to me about it. I just need to work on myself. I do just really appreciate you all

At this time, I was starting to feel like Hemp and some others were resenting me for the growth my channel was getting. I admit, I talked on the numbers a bit too much and that definitely helped build up any resentment there could have been. I first thought it was in my head, however during this conversation Hemp started to make it clear that she WAS upset that I started to pass her

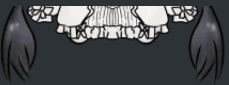

and comfortable in doing so. I always wanted to be a teacher but am afraid of children and even more terrified of high schoolers- plus I fucking hate going to school ironically enough. so something about what I do here- between discord and twitch.. it feels like I'm living out my career fantasy. being a tutor or a mentor or an inspiration. but I have this idea that I can't be that person if my.. students? so to speak (lmao) are above me. I'm trying to say from my perspective it is hard to swallow the pill of ur just better at this than I am. and that's a bitter thought to have which isn't fair to u. u stream more days a week than I do ur more social in different chats ur constantly reaching out to people on Twitter u post on tiktok u do so much so really it's insane for me to expect to be or do better solely based off of streamlife. it's just hard to forget I've been doing it so long and never really had a growth spurt quite like yours. but again it all just circles back to effort. if I don't want to take the time to do everything ur doing things aren't going to just fall in my lap (edited)

Hemp wanted to be the “teacher” but couldn't let any of her “students” start to outperform her. Regardless of my talk of numbers, the fact that I was starting to grow more upset her and she talks more on this in a later conversation. That was all for the conversation on the 19th/20th, but we talked a little more on the 21st:

hempie 12/21/2024 1:45 AM
ITS NOT UR FAULT SO PLS DONT TAKE IT TO HEART I DONT BLAME U BUT I HAVE TO GIVE U AN EXAMPLE bc it did upset me a bit
I raided [redacted] and I found her in September and have been talking about her + in every stream since then- she joined ur server today
raids I [redacted]
[redacted] said "THATS THE PERSON IN VALUES SERVER BTW"
like.. i just don't get it sometimes why everyone has to go VALUES PERSON BTWWWW THEY KNOW VALUE U GUYS
its not ur fault at all but I just wanted to give u insight of how everyone else gets treated. idk what u can even do about it it's not like u ask people to do this
I think it just adds to the "being in ur shadow" feeling

hempie 12/21/2024 1:54 AM
which again isn't ur fault people do what they do. it's legit numberfriending.
>value is doing good
>i know value
>this person raids me
>is in values server
>i'm going to mention value
>stonks????
pls don't take it personally tho fr

hempie 12/21/2024 2:53 AM
fr tho I love u bitch and I just want to reiterate again this thing i explained in no way is ur fault. it's just frustrating that other people act how they do

Okay_Value 12/21/2024 10:33 AM
Goob morn lol

No I completely get it, I don't like when people do that and now it's happened a couple times. Let me try and think of some kind of announcement to put together, maybe it'll help, im not sure. I'm sorry it keeps happening

AND I LOVE THIS

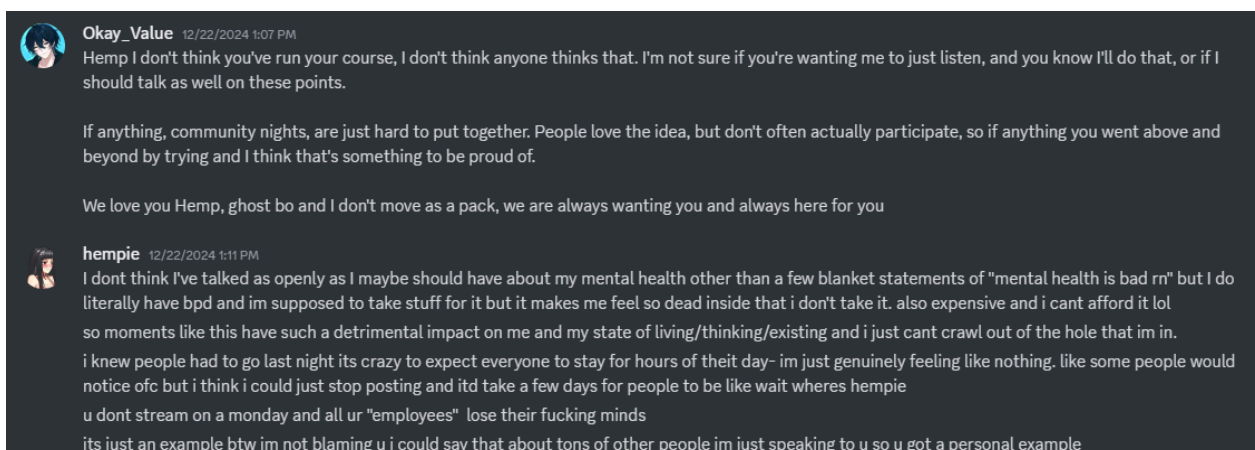

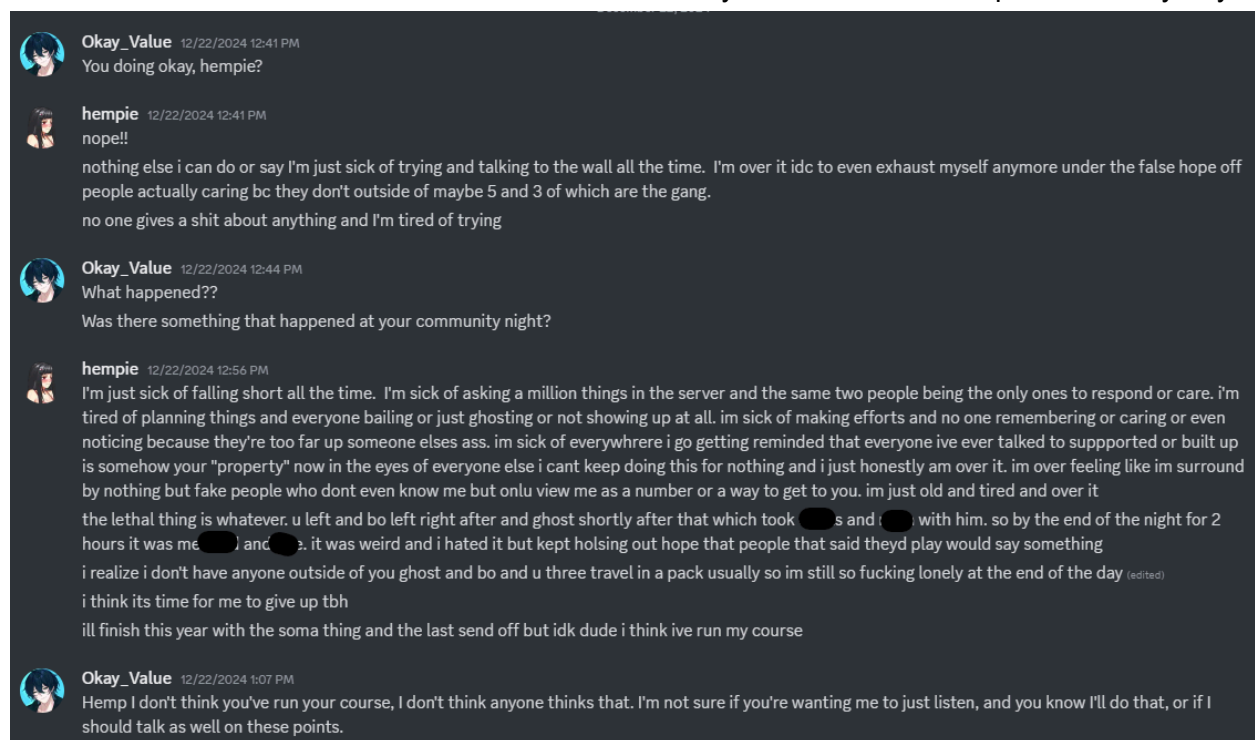

hempie 12/21/2024 10:35 AM
fr I don't want you to feel some kind of burden for it because I know for a fact it's not ur fault

Okay_Value 12/21/2024 10:41 AM
I know, but I do feel like it's on me, and I think I'm struggling because I really don't know how to stop it. I mean I don't think any of them ever say it to like slight you guys or something, but I get how it feels, so I want to do something about it

hempie 12/21/2024 10:49 AM

I understand Hemps frustration and agree with her. At no point did I want people to start being “attributed” to me. Conversations continued the next day on 12/22 after Hemps community day:

u dont stream on a monday and all ur "employees" lose their fucking minds
its just an example btw im not blaming u i could say that about tons of other people im just speaking to u so u got a personal example

Okay_Value 12/22/2024 1:21 PM

I really don't think you give yourself enough credit, like seriously. People would notice if you just disappeared, they would be worried. I think a lot of them know how you've been going through a lot so they try and give you space and not make you feel pressured to be around and maybe in your mind you see it as them not caring.

I can't try to pretend to understand the mental pain you're feeling, but I know how hard you work and how tired you are feeling. You are important to every person who tunes into your stream, and important to everyone in that server of yours, it's just easy to forget that at times like this

hempie 12/22/2024 1:32 PM

like ive said a lot idc if there's 60 people lurking if only two are talking. if rather go back to the days of 10 viewers non stop chatting than this big scary number and no one to talk to

the numbers don't matter. they never have and they never will. that's how u end up with phony ass friendships. people see you with a high ccv and want to reach out to you and plan collabs with you but do they actually like you or even know you or do they like the attention you can bring to them based off of ur average ccv?

again it isn't literally you=value i mean you as in the general person on twitch with a decent ccv

theres levels to it too and you'd be prime real estste rn for some people. it still fluctuates enough where ur not partner yet so ur still considered a "small vtuber" but ur ccv is higher than a lot of people sitting with a partner badge. u have something to give to people with a lot of follows but lower ccv

Okay_Value 12/22/2024 1:43 PM

No I get what you mean. There's a lot of people out there who just try to gain something and don't care about the friendship. And finding actual friends is extremely hard. Idk at least for me it kinda makes me cherish those that are true friends more

But I'm not sure if distancing yourself from those true friends would be any help, I think it would intensify that lonely feeling. Unless you're just wanting to distance from me, which I'd hate to see but I do understand. I know you aren't upset directly with me, but I've been the cause of a lot of your problems or down moods lately. I don't want to lose you, you are incredibly important to me, but if I just making things worse for you thrn idk

hempie 12/22/2024 2:08 PM

idk man its just hard bc in order to get a break from u i have to avoid everyone lol

i literally cant go do or say something anywhere without hearing something about value

hempie 12/22/2024 2:08 PM

Okay_Value 12/22/2024 2:24 PM

I understand. Im sorry

hempie 12/22/2024 4:26 PM

I just want to say u don't have to apologize. It's my own brain, my own self esteem, my own self loathing that's the problem

I don't want you to feel like you're the problem. It's not your fault I'm wired the way I am. I just have to be mindful of the catalysts that set off the c4 in my brain and I don't know how to feel better if I'm constantly feeling bad bc everyone around me can't separate me from you or me from bo

I love being part of the gang I just wish people on twitch would view us as individuals and not just appoint one of us as the leader lol

After this conversation we were back to normal, until 1/6/25. The conversation had somewhat started in the gang group chat that I no longer have access to. I had received fanart of my model pregnant, thought it was funny, and went to share with hemp and the gang because MPREG we'd always joke about mpreg:

Okay_Value 1/6/2025 8:44 PM

Idk I just thought you would find it funny but it just kinda felt like you were mad or upset at me instead. I wasnt trying to, Barley just thought getting your reaction would be funny but then it felt like it offended you or something

hempie 1/6/2025 8:52 PM

i always feel bad being a little bulldozed by u but I know as always that's just my own interpretation of things and its the furthest from your intention. your in so many places im not and I've been around ur streams to know you make the mpreg jokes plenty enough on your own now. between you and krow its your own separate thing away from me despite whatever hand I had in influencing you to do or say those things. i don't know the people that drew it. i dont know krow i dont know his group. the idea to make u pregnant had nothing to do with me so it does feel the same as seeing "thank value!" on the game over redeem. the pregnant you. the hats and the silent hill dog remix like anything that I helped get going I don't feel responsible for anymore because its urs

know krow i dont know his group. the idea to make u pregnant had nothing to do with me so it does feel the same as seeing "thank value!" on the game over redeem. the pregnant you. the hats and the silent hill dog remix like anything that I helped get going I don't feel responsible for anymore because its urs now. u make things yours and your top of your chart so anyone from your group that sees it outside of you views it as "oh i saw this in values server during values stream value said thay the other day on values twitter oh value showed me a meme..." i just. i don't have many words left and i have nothing to add either so i kept it short because it is nice! its incredible that u get this shit turned out for you so quick. im just tired grandpa ^(edited)

even during lockdown yesterfay [REDACTED] started giggling and going "oh sorry value just pinged me and said sometjng about exploding pp!!!" and i just had to say oh hehe okay!!!

its the same story as always. im not mad at u i don't hate u. i just don't have a lot to say anymore out of fear of it being used and blasted back in my face in a few days later

i was pissed wher [REDACTED] started screenshotting u going around everywhere doing

because i remember being so silly with my pants grabs and now everyone goes HAHA LOOK WHAT VALUE DID

so yeah uh idk im not mad at u for real!! im just sick of everyone riding ur dick I guess idk LMFAO its not ur fault ur so loveable

hempie 1/6/2025 9:04 PM

that was a bad way to put it im bad with words ok pls forgive my poor vocabulary

Okay_Value 1/6/2025 9:13 PM

Hemp I literally credit you a million times a day. Literally everytime something that comes up has any reference to you or that you started I say its from you. Over and over and over and over and over I credit you. Mpreg is NOT something that is joked about between krow or even the people that drew it. It was a mutual of Krow's and Is who was in my stream today, and knows krow and I joke around, she was in a call with someone and they thought itd be funny to draw me pregnant, then added on the krow part. It had nothing to do with mpreg or anything that you talk of and was merely a coincidence, So I thought it would be funny to share with you, and you took it as me "stealing" something from you.

You say you dont hate me/mad at me, but god hemp im so hurt from all this. It genuinely feels like you say "im pissed that you are getting credit for things I started"-You kick me down-then say "oh but im not mad at you!"-you pick me up-then "but im mad at this about you"-you kick me back down. You might not mean it to come off that way, but thats how it feels and I have been trying so hard to leave my own feelings out of this and things because I know how youve been feeling and I dont want to make things about my feelings or make you feel worse, but god its starting to become too much and I feel like im drowning.

I feel like I cant even say anything about ME to you without upsetting you. Yeah I couldnt tell you I had hit 1000 followers because i knew it would hurt you and youd compare yourself to you -and it fucking hurt! I wanted to celebrate with the gang or with anyone and I cant! The merch! Cant even mention that because i didnt want to hurt you when I just wanted to be happy about it. Im so fucking scared to celebrate anything now because I dont want to upset you or anyone. I cant even be proud of anything anymore and Im starting to hate the attention and growth ive worked so hard for because it just keeps pushing my closest friends away and makes them resent me.

I really dont know what to do other than to just stop streaming at this point because no matter what I upset you and I dont want to lose you

my closest friends away and makes them resent me.

We can

Okay_Value 1/6/2025 9:28 PM
We can

hempie 1/6/2025 9:58 PM

Starting from the top I didn't take it as u stealing something from me. It's all just a coincidence really; it's a coincidence that I have heard you joke about it enough to assume that you do it more often than you actually do. I don't want you to feel like you have to shill out my name at every mention of anything either. I know how terrible that feels for you and I really didn't and don't want to put u in that position. The best way I can describe it is it's all just bitterness. I am bitter than I feel left behind in a lot of things. I'm bitter going back to the whole [REDACTED] and [REDACTED] thing, I'm bitter about all the times you've mimicked my voice on and off stream. I'm bitter that a handful of times last year while I was streaming you and b0 were off doing 1v1 chats or playing fortnite because then she wasn't around as much. I'm bitter that I've had to have 1 on 1 conversations with girls I don't even know because the common denominator was you and they needed somewhere to vent. I'm bitter at your success- I'm bitter about the attention you get. I'm bitter that I've been called value's community when trying to show support for other people. I'm bitter that I can't go a day in the server or on stream without someone talking about you to me directly. I'm bitter that for weeks people put quotes of me in your server while neglecting to even talk to me. I'm bitter that you get to have this seemingly glorious success story while sweeping your marriage under the rug. I'm bitter that Barley just chooses to ignore it. I'm bitter that everything is nut bust and cum. I'm just a ball of bitter skin and it's really unfair to you that I'm harboring so much resentment.

I feel terrible that you're like... afraid of me or scared of me or my reactions. I don't want it to be like that. I truly do like the friendship that not just you and I have but the one that we all have together with the gang. I want you to be able to celebrate your success without that lingering thought of "am I going to hurt hems feelings" because it's not okay for u to feel like that. Just like it's not okay for me to make you feel that way. I understood why u didn't tell me when you hit 1k at first. I think it really would have been a lil insensitive since it happened during my last stream of the year lmao. But I don't want you to feel like you can *never* tell me anything. The merch I wouldn't even feel slighted by because that has nothing to do with me. It's actually cool and I was more blindsided by seeing it come out and knowing barley had a hand in helping design the shit. But it's my own fault it got to that point.

As far as growth goes; I've always said to you and everyone it's about the effort you put in. I do feel like it's a full time job for you. You're able to be all over twitter and in 100 streams making rounds saying hello and dropping 5+ gifted subs because you have (1) the disposable income to do so and (2) the time. I just don't and it feels shitty to know "if I could only devote more time into talking to this streamer with a large community and maybe throw a few subs their way for the attention I would see a boost in my growth too". I can't fault you for your methods because they so obviously work. It just feels unfair I guess. On the other hand it feels very empty to me. I don't want to see such a large growth and not be able to have time for the people I care about most. I'd hate feeling shackled to my desk 5-7 days a week purely for content. So I think I've gotten almost to the point where I can grow up. I can move past all the bitter feelings I've had and be nicer to you. Tbh u just caught me on a bad day but that's not important rn or an excuse. I don't think you should just throw it away either. You've built yourself up so much and it's made you really happy so you'd be silly to throw it away for someone like me- (edited)

I just dont know what to do. I dont know how to help or how to have you not feel bitter. I dont know how to prevent you from feeling bitter. I dont know how to get everyone to stop talking about me

This tho: "if I could only devote more time into talking to this streamer with a large community and maybe throw a few subs their way for the attention I would see a boost in my growth too"

Do you really see that as what I do? I go around and show support to those who have shown it to me. I dont do it going around trying to get attention or support, I dont hang out in [REDACTED] stream because he has a bunch of followers, I hang out there because I enjoy it and hes become an incredibly good friend who has shown me so much support, so Im happy to hang out there and if I can gift a couple subs. But you see that as me just trying to gain something from it?

hempie 1/6/2025 10:53 PM

No no no I'm not saying that's literally what you do or what I think your intention or thoughts are. I was just saying how it *feels* as a perspective. I don't think you go out of your way to try and buy people with money or attention

Like I feel sometimes the only way I.. me .. as the person I am- the only way / could see your level of growth is if / were to try and buy people because I don't see the feedback from bigger accounts unless there is a transaction

and that's just my experience. I have no idea what yours are and I don't doubt that you've accumulated a lot of great people by simply vibing and being relatable or a good person to hang out with

like [REDACTED] for example wouldn't even look at me when i @'d him in bos chat or his own chat

it wasn't until u raided me and he was like "oops teehee i never followed!!!" and i don't like that vibe u know

like [REDACTED] for example wouldn't even look at me when i @'d him in bos chat or his own chat

it wasn't until u raided me and he was like "oops teehee i never followed!!!" and i don't like that vibe u know

but it's an honest mistake too so i can't judge off of that one experience

Okay_Value 1/6/2025 11:02 PM

Ive just seen it as the same I do for you or Bo. idk I gift subs or anything for appreciation or because I want to

I mean most of these other accounts find me first, Ive drastically cut back on the amount of new networking I do. They find me and I just show the support back idk how it happens. maybe its luck? i really dont know, im not doing anything special. I mean I dont know how its different from how you found Sin and all his friends, now you have a ton of people from that side that all hang out

idk they find me, and I just interact back thats all it is

I absolutely dont think you would need to "buy peoples attention" or anything. Thats not how you make friends, that makes it empty, like you said

hempie 1/6/2025 11:06 PM

I do think I've done a lot of internal work on how I think about things or percieve them- it genuinely took me some time to get over it all thought. and I still feel guilty when I take breaks like the one I'm on because i'm surrounded by a lot of people that just never quit. They're always working on the next best thing, gathering more fan art creating more shit streaming more days and more hours- like you for example aside from them strapping u to the hospital bed u don't quit or give yourself breaks. u push yourself every single day on and off stream and I just can't do that. thats where the bitterness began, it's just been a grueling process to get through mentally

but i'm doing more damage to myself by allowing myself to live in those feelings. i've literally robbed myself of celebrating my own accomplishments because you or b0 were celebrating yours so I just acted like mine weren't anything special

but i'm doing more damage to myself by allowing myself to live in those feelings. i've literally robbed myself of celebrating my own accomplishments because you or b0 were celebrating yours so I just acted like mine weren't anything special

Okay_Value 1/6/2025 11:19 PM

I get what you mean but like, I stream so much because I literally have nothing else. Wife is gone all day during the week, so the other option is sit around doing nothing all day. I was going crazy being alone every single day having nothing to do. Its been such a life changer having this, and im so badly dreading later this year when ill have to put it to the side. Frankly with the cancer, I dont see how im supposed to restart my life with the fact it could all be stopped again by one little thing popping up on a scan. Having the streaming has just been nice. I know you cant put as much time into it, and theres nothing wrong with that nor is it a requirement to do so.

It was small, but you mentioned fan art, im not sure if you mean this towards me but I really havent recieved all that much fan art, and im pretty sure youve gotten way more than I have. Ive paid for most of my art, and I know youve made a lot of yours, which I think is way cooler. Dont get me wrong, im not looking down on any of the art ive received and ive loved every little doodle, but hell sometimes its like "oh hemp/barley/ghost got more fan art! thats awesome for them, but would be cool too" I know I cant draw and its not fair to say, but idk you and Bo draw the three of you all the time, and I do get felt left out of it. Im not saying I need to be drawn or draw me or anything like that, I guess maybe thats just something Im bitter about but it is what it is and im not upset by it or ever wanting to say something about it

You should celebrate your stuff, fuck we try to help raise you up and see how amazing you are doing. I guess we've both been putting off celebrating ourselves when we should just be supporting each other idk

hempie 1/6/2025 11:30 PM

This is why I figured it'd be good to talk about because I think I've pushed it to a point where we're both just kinda in limbo. I only draw ghost so much because he's easy to draw and I really struggle with anatomy lmfao . The art mention wasn't a stab at you for receiving any- I want you to receive as much as you can because I know it feels good. I just also know the more people u know the better ur odds so it all comes full circle. Although side note I wish I could commission as much as u do because it's always so good

and not to be like a downer or sad or anything because this certainly isn't about me. i have thought a handful of times to myself "hempie u need to grow the fuck up because what if one of u isn't around tomorrow" like my health isn't awesome either but its not a competition. i just mean shit happens and life isnt garaunteed and it'd kinda suck to like..u know.. die.. and not get to ever make ammends with the people i cared about lol

Okay_Value 1/6/2025 11:36 PM

I mean the commissioning is a blessing and a curse, I shouldnt be comming as much and I should be saving towards a model or something. It is nice to recieve and like with the gifting subs, I give so much back, I just feel guilty when someone gifts or something and feel I need to give back like if they are a streamer. Its not good. I probably spend more than my monthly twitch payout in giving back to people and I know I cant keep doing that, I just feel like I dont do enough. Not saying that to like try and be woe is me, its just how I am I guess

The health stuff is just bleh, for all of us, and I get what you mean. I dont want us to be upset or angry or bitter at each other. I miss when we could all hang out all the time. I miss when we didnt have to walk on egg shells around each other. I just want to go back to how things were I guess

hempie 1/6/2025 11:44 PM

overall I think what was really getting at me the most was the relationship u and bo had/have tbh. it just felt (or still feels?) wrong. but the reality is I dont know what it is. every idea in my head is just an assumption. i just have been on the receiving end of a few moments where she was really hurt or jealous or freaking out over u interacting with other girls and in my head im like b-barley he's married wtf. and it seemed to be fueled and fed into by the both of you and it just felt icky to be around for lack of a more mature word lol

and i'm not bringing it up to be like "change! change how you act now or suffer!"- it's not like that at all. she does really care about u and i know u care about her. i don't want to be the cause of you guys having any beef or anything and i certainly don't want to be a reason that things are different. what i don't know should be left at just that. i don't know and it's not my relationship therefore I shouldn't be concerned.

but I think after the whole merch thing and realizing just how much she does like u and how much you guys hang out individually I just kinda felt- idk? i really don't have a good word for it

but I think after the whole merch thing and realizing just how much she does like u and how much you guys hang out individually I just kinda felt- idk? i really don't have a good word for it

Okay_Value 1/6/2025 11:51 PM

I get that, but I mean if anything Barley and I are just good friends, I mean yeah theres a little flirty here and there but thats it. We hang out occasionally, but most the times its just some messages. Like last time we hung out one on one was the 27th when we made the logo, and not that it matters but most times its her asking to hang out and we usually always ask you and ghost too. Just about everytime we hang out, you guys are asked as well and are usually busy or not wanting to do something, so yeah we hang out alone. But it does get to a point of both you and ghost saying no where its like we feel like we are just bothering you guys by asking. But I really dont think we hang out nearly as much as you might think we do, and if we do, we would rather it be all of us because we do miss you guys. Actually i wouldnt be surprised if either you all or just you and her hang out in a call or games more than her and I do tbh

hempie 1/6/2025 11:52 PM

I think it stemmed from me trying to gather clips- and I realized she has never made any of me and we were in call when I noticed- and she said "probably because when you're streaming me and value are hanging out so i just pop in between matches n stuff"

and tbh that hurt because I interpreted it as "i'm busy with value when u stream so I'm only there sometimes and it's always lurking"

and every time she's asked to do something in the gang group chat that I haven't joined in on it's because I was literally away from pc, asleep or streaming. I don't have a memory of either of u asking a lot and ghost and I straight up saying no

Okay_Value 1/6/2025 11:56 PM

I mean in the past theres been times where we might have been, but no most times your streaming, at least lately we havent been. Either shes streaming or off doing art or something

Well no not saying no, but like not responding or being busy, I just kinda categorized it all together which probably wasnt right. its never, or if RARELY on of you saying no, but really everytime her and I go to do something we see what you all are up to as well. Maybe not directly "hey lets hang" but could be like "hey what we up to tonight" or something

hempie 1/6/2025 11:58 PM

Well no not saying no, but like not responding or being busy, I just kinda categorized it all together which probably wasnt right. its never, or if RARELY on of you saying no, but really everytime her and I go to do something we see what you all are up to as well. Maybe not directly "hey lets hang" but could be like "hey what we up to tonight" or something

hempie 1/6/2025 11:58 PM

that's where it becomes hard to navigate because I don't read "what r u up to tonight" as an invite to hang out. i usually answer it with what im doing right that second or whatever plans i have/had. i don't realize it's u guys asking me to hang out unless you're saying "do u guys want to hang out and maybe game/chat/vibe/watch something"

January 7, 2025

Okay_Value 1/7/2025 12:00 AM

Then that is on us for not being more direct and instead should just say hey lets hang

hempie 1/7/2025 12:01 AM

it's not really anything that needs a finger pointed at someone I was just explaining the feeling you guys have of me not wanting to hang out doesn't exist in my brain because every time i've been asked and not busy with something i've been there

Okay_Value 1/7/2025 12:03 AM

no no I get that, Im just saying, or I guess reassuring, that we do always want you around. I mean lately Ive felt you dont want me around, because of like the whole situation, I just thought you didnt want me around anymore

hempie 1/7/2025 12:09 AM

I think I had tried to mention that a few days or maybe even a week ago. maybe longer who knows- point is I did try and convey that you weren't really the problem urself it was everyone around u. and thats tough to work around because if I could be in spaces and not have people say "hempie theres this cool thing I want to show u that I did and I posted it in Values server" (u fucking idiot) i wouldn't feel so bad (edited)

its just like the part of my brain that fixates on shit would also fixate on that. so the mountains of text in between someone talking about u were blurred and all i saw was

gwojfwgjastl**VALUE!**aigawiejfoiwjgwij**OKAYVALUE**woigjweoifjsfjsjgs**MOREVALUESTUFF**aigjewojgdxxkfslkfjksjdlj

and as I've said so many times I can't fault you for that. I just also didn't know how to get away from it without staying away from you too
It was all temporary until I could fix my own brain- shit just takes time

Okay_Value 1/7/2025 12:14 AM

You kinda mentioned it wasn't directly me, but at least the way it was feeling was like I guess the oposite of like a compliment sandwich if that makes sense? Like People give YOU credit for my stuff, but im not mad at YOU, BUT I cant go anywhere without hearing about YOU. So to me it just kept feeling like it was towards me. Idk! I guess thats me getting in my head, but like Idk I was feeling like you hated me and that you genuinely did not want me around at all and I didnt know what to do, so I was trying to give you space, but I didnt want to be like neglecting you or something.

I cant fucking stand

hempie 1/7/2025 12:20 AM

i think that's what I mean when I say it is difficult to work around because if its not ur fault but the problem is people talking about u but they won't stop talking about you unless you're not around anymore what exactly do i expect u to do ya know. and i know it feels bad either way regardless of if I view *u* or *stuff about u* as a problem it's all tied back to you when you hear what I have to say about it- so i understand why you've felt the way you do

I guess I just want to say sorry fr. Like I am sorry for being so cold and emotional and almost bipolar with how I'm feeling and acting. I've put myself under a lot of stress and I'm always striving for people to just notice me. Notice my stupid joke or my bad art or my super sick video edit that I stayed up way too late way too many nights to make. Look at this funny sound bit i found look at this stupid command I have please just notice me

and then i look around and its a crowd of mini values regurgating "I'M GONNA BUST! I'M GONNA NUT! I'M HONKING" and it just.. idk man it sucked feeling like I was nothing but second or third or fourth best

i've taken every day since my last stream to try and ignore every negative thought I have about not being good enough. i shilled out a shitty "wow thanks for 950 really thought i'd get 1k" post on twitter because i see so many people picking up 100+ followers that way and it got me 1 so i was just like FUCK dude what do I have to do to get a little traction

but the more i ignore it the better I feel. I just need a little copium to start my day

I've tried going the more positive route of reinforcing in my brain i am good enough i am doing my best it is being noticed everything is FINE. it just take a lot of reciting it to actually believe it

I mean I know its easy to say but you really have done such an amazing job. You dealt with so much all year that chat doesnt know about, hell im sure theres plenty extra that I dont even fully know about and thats okay. You really have done so well. I dont think you are exactly wanting like idk praise or affirmations rn, but you really have doine amazing. But i understand being in your head and I hope you continue to feel better/more confident in yourself.

Ideally id love for us to all be at a point where success or something doesnt matter between us, but again I know its easy to say and doesnt mean much coming from me.

You dont have to be sorry, I get it, I just want us to be able to move past it all I guess

hempie 1/7/2025 12:36 AM

It's truly okay! we both had our own hellish battles last year for different things. I do truly think I've felt a lot better these last few days. Despite the feeling u got from my reaction to your art I really have been wondering wtf is value even up to- and it's weird to not know like it feels so bizarre truly lol

Okay_Value 1/7/2025 12:38 AM

No lget that, I mean I havent known what youre up to, and normally we are pretty intertwined

hempie 1/7/2025 2:18 AM

i think as long as I can keep reminding myself that your success as well as others shouldn't bother me or stop me from trying my very best we're gonna be alright 😊

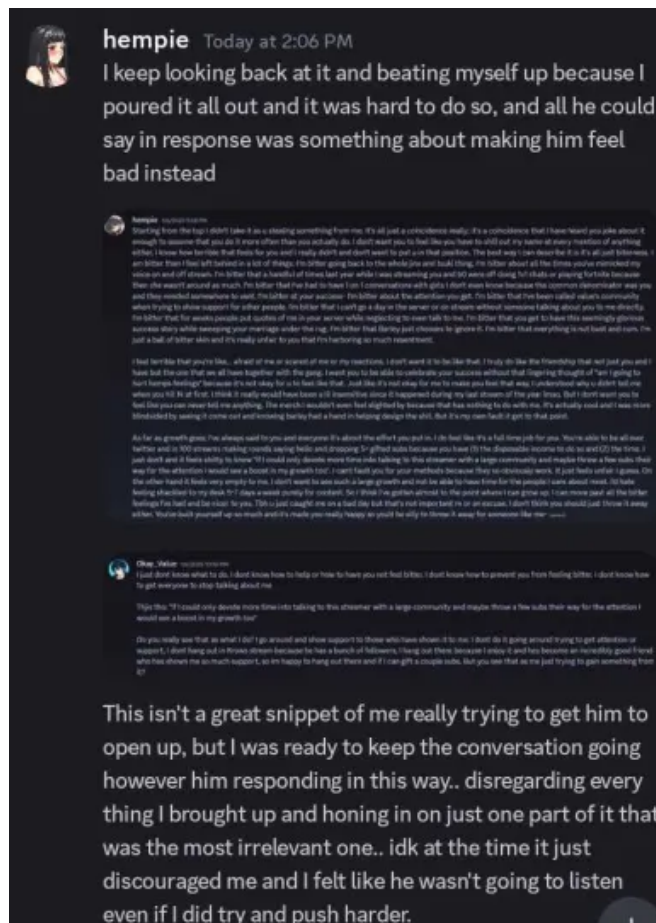

Okay_Value 1/7/2025 7:21 AM

Let's just keep communicating and you can always let me know what I can do to help

And after that things went back to somewhat normal. The minecraft server opened and our focus was on that.

Going back to Hemps message:

She left out 3 months worth of conversations and specifically chose those two messages to share to make it look like I was trying to make it all about myself. For weeks, she'd constantly tell me how im the problem, then say i'm not the problem, but I am the problem. She was bitter she was not receiving attention. She was bitter my numbers started to surpass hers. She was bitter Barley would chose to put her attention towards me at times instead of hers.

Not once did I lash out at her, not once did I attempt to bully her. The entire time I was there for her and continued to be supportive as I could. She cut off her support to me, but then would complain that I don't support her enough.

It was always about her. She would do this towards others too. If you didn't stop by her stream, she would think you straight up dont like her:

 **hempie** 12/29/2024 12:25 PM
d-does  not like me 
its ok if so i just have gotten a cold vibe from her since leaving ur server AND IM SORRY ABOUT IT STILL im just so fucking overly sensitive and I was becoming obsessive like checking it everyday and seeing so many people that used to say good morning to me only saying it on ur side now and its FINEEE i just cant tell if me leaving is correlated with how she acts towards me now lol

 **Okay_Value** 12/29/2024 12:30 PM
I dont see why she wouldnt like you? I mean she has never said anything negative about you, and im not like "covering" or something, like genuinely. Anytime you get brought up, its always in a positive loving way. No one has even mentioned you leaving the server, idk if she had seen? Like I dont have it set to alert anyone when someone leaves, so unless she went looking for you idk if shed know?

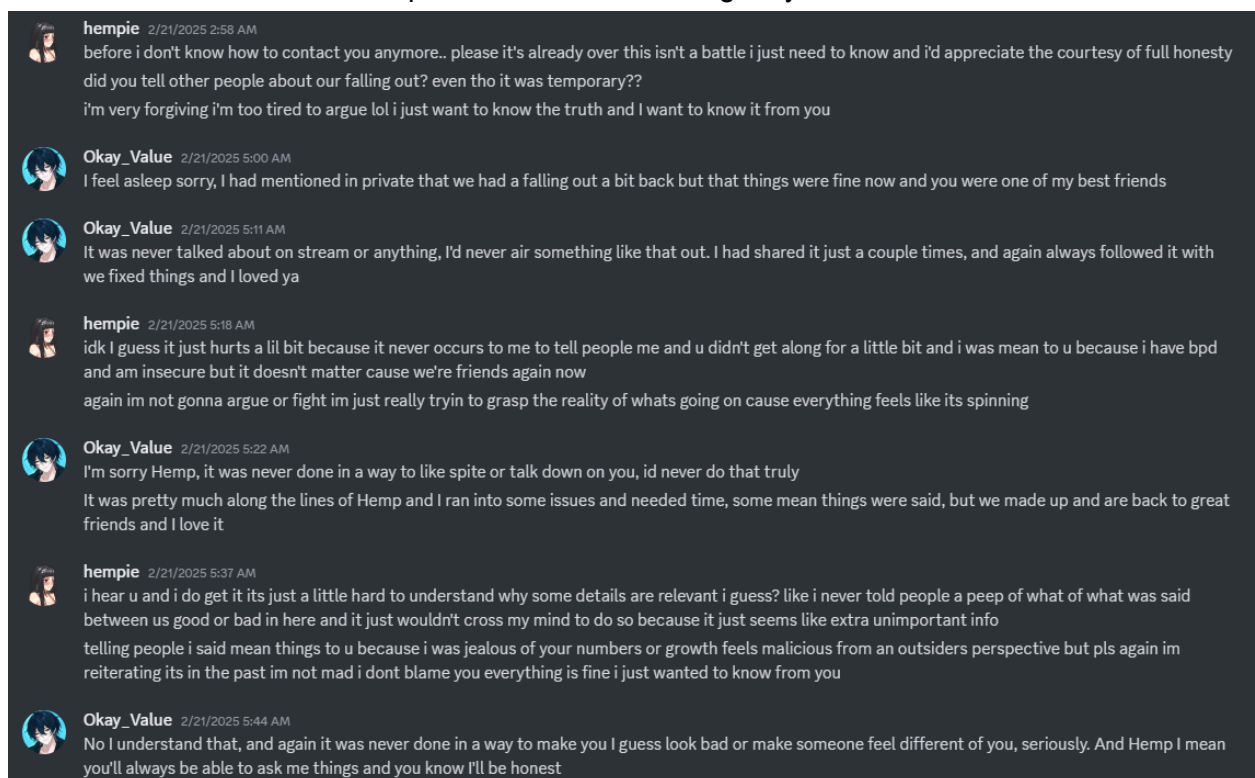

I know she has had like a LOT of personal irl stuff going on, so idk if that has reduced the amount of like reaching out she has done? Not that that is an excuse for her being cold or anything, but at least she hasnt said anything to me

 **hempie** 12/29/2024 12:37 PM
I only ask because I notice she hasn't been out to a stream in about a month- except for that time you raided over to me and I think she didn't have a choice but she left shortly after. I know she asked to be put in my self promo and it's my own responsibility to get out there and post my own link- im lucky as hell that you and b0 do so much out of the kindness of ur hearts for me. but with knowing how little she talks to me now- im pretty sure she removed me from her recommended (or maybe im jumbling my memory up and i was never there to begin with lol) and seeing that last night she posted a link for  while i was still streaming just felt like 'ahh ok u might actually be mad at me'
AGAIN its kinda me reaching to make connections and I understand that I gotta work on my own self image to stop feeling this way at minor setbacks but I cant help but wonder u know

Going back to her other message:

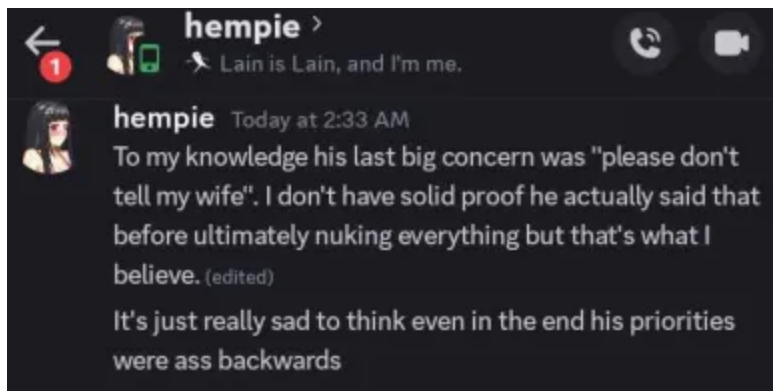

Hemp kept assuming/saying I was talking shit behind her back and I never did. One of the last things we talked about before I left was her asking if I had told anyone about the falling out we had over the months. I had shared it with a few people, but anytime I talked about it I always said how in the end we made up and were back to being very close

I truly did love hemp as my best friend, despite what she put me through I never wanted to talk down on her to anyone

Looking back it now, especially after what shes been saying about me, she was trying to cover herself. She was hoping I didnt say anything to anyone to make it easier for her to manipulate things once I was gone. So when she would reach out to people, she'd phrase it exactly as she did to make it look like I had lied about her.

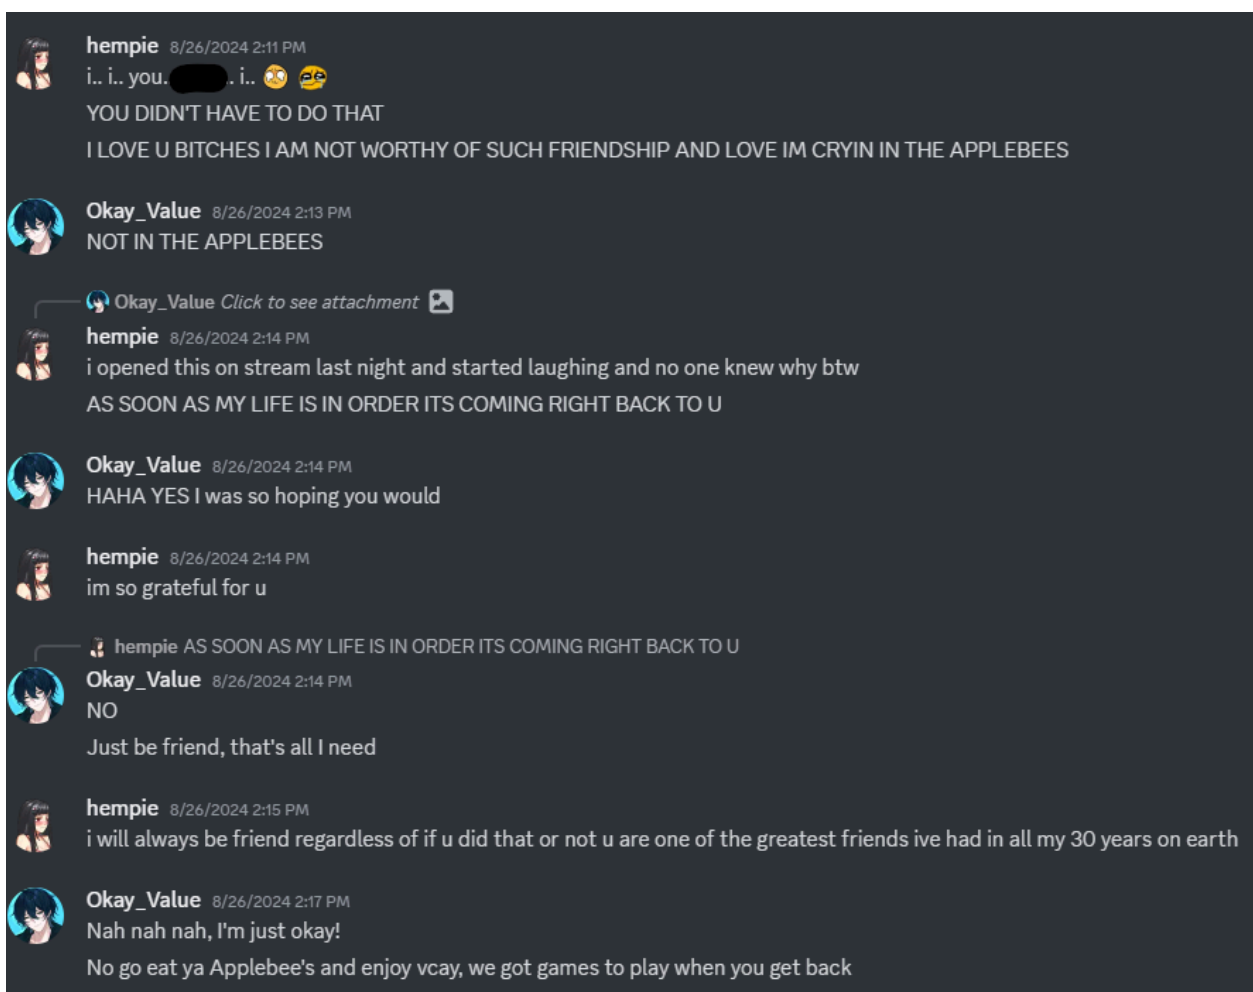

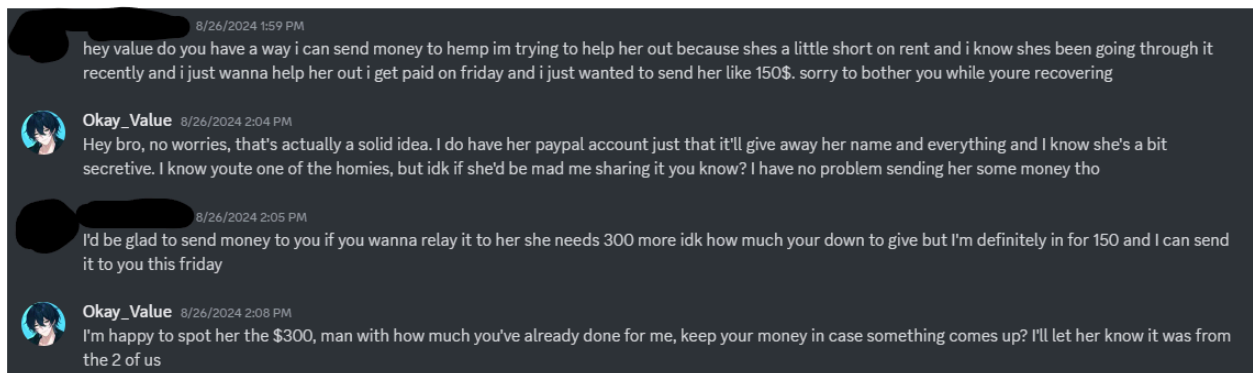

As Hemp and I were discussing my leaving, not once did I request her not to tell the wife. The messages to Barley about not telling the wife are up in her section. At no point was I begging.

He never asked me for any photos directly. He has pay info because he really wanted to help me pay for a webcam to get into vtubing after I got laid off- wasn't really thinking too clearly sent him my paypal and he helped. Didn't really occur to me he got my full name from that; I literally didn't understand that he could see that information idk I thought it was just email I really never used it much and it wasn't until I startrd commissioning things that it clicked that I wasn't using a business account and people could see MORE than just my email

I do have Hemp's paypal info, as she has mine. She is one of the few people that could have potentially given my personal email to Woozy. I'm not accusing her of doxxing me, but it is a possibility. Even after everything, I have no interest of doxxing her or anyone else.

I did paypal her some money to get a webcam for vtubing back when she wanted to switch from the PNG. I find it interesting how she mentions the money for the webcam and not the money from when she was on vacation and needed help paying rent

Most of the other things she mentions in her messages have been addressed in other sections of this document.

hempie 2/21/2025 12:39 AM

i really don't want to make you feel worse I'm sure this is hard enough to deal with as it is

we liked you when u started you know. you didn't have to start lying, people like you for you. just remember that going forward. you are good enough without having to make things up. you were still funny back then and viewers knew u had a mrs.value

im not gonna say anything to anyone btw. not gonna sabotage you or disrespect you in any way

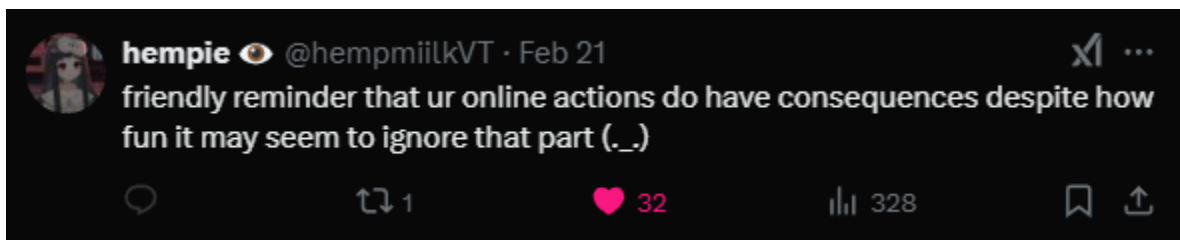

u can go in peace i won't take that from you

Okay_Value 2/21/2025 12:43 AM

I still never lied. I never said I was single. Made jokes of being maidenless or such yes, but never straight said I'm single. But that's just as bad as not saying I'm taken. I appreciate you for not going off on me even though I deserve it. And for not saying anything. Idk I told Barley maybe best to just act like she doesn't know why I left and she's sad so don't ask

I had considered Hemp to be one of my closest friends, but as I look back over messages and things she's now said of me, I can't help but feel that she has completely and always used me for herself and would get upset if I didn't do more for her. She was quick to say all sorts of things about me right after she thought I wouldn't be able to say anything.

I'm here and taking responsibility for my actions. Hemp on the other hand is happy to twist and manipulate things however she can to make sure she is the good guy. If Hemp has only reached out to you after my leaving, I promise you it is for her own personal gain. She wanted attention, and now she is getting it

In Closing

I made big mistakes. I should have always been upfront about my relationship and not have gone quiet on it. I should have never been flirting or engaging in acts with multiple people. I'm not here to sway things or make myself look good. I'm not here asking for a second chance. I know I have burned trust with many friends and I understand that. I am aware that now every single person I have talked to is probably rethinking everything I ever said to them, or every thing I said on stream.

I also know that I am late to taking responsibility for my actions, but I'm here now. The wife and I will continue to discuss things in private. What I did was wrong to those that were affected and while sorry does not mean much, I truly do apologize. Others are more than welcome to make statements if they chose, and I'll respond if necessary. I'm owning up to my mistakes, but I'm not going to just let people say as they wish and manipulate others.

Also, I have been made aware of a group of people that are some sort of "hate group". I don't have any screenshots or proof that I can share of this, but I am aware of some of the people involved. Supposedly they have wanted to be rid of me for months. Guess they got what they wanted.

Going forward, I have no intentions on coming back to streaming any time soon, but I do plan on reactivating my twitch account so I can stop by streams of those I know are still friends. I'll also be keeping my twitter active, though I don't plan on using it much. I need to get my irl situation completely worked out before I even think of streaming. If I do come back, there won't be a rebrand or a rename, I'll still be Value, I'm not trying to hide from these mistakes. That being said, please don't forget to unfollow if you'd like. My twitch will be back up later and you can unfollow me there at that time if you'd like as well. Link is in my twitter description.

I made mistakes, and I will own up to them. I am so sorry this is how things went and I am sorry for disappointing so many.
