

PolitiFact Texas has blocked out the defendants' names on this file, which was supplied to us in unedited form by Jerry Strickland, communications director for Texas Attorney General Greg Abbott, because in an undetermined number of cases the charges have been dismissed and/or expunged from their records. We have blocked out only the names of the defendants.

Strickland said this file was updated March 12, 2012, and shows the outcome of election fraud cases referred to the attorney general 2002-2012 which were both prosecuted and resolved.
