PROJECT EVALUATION: What preparation was involved? What was done at the project? Was the project successful? Should we do the project again? Please feel free to add any other information. Please write on the back of this paper! ☺

- The preparation involved for this project was planning out how to decorate the card. This project consisted of making digital cards for the ill children at St. Judes Hospital for their birthdays. This project was successful, we should do this project again because these cards can uplift so many childrens spirits.
