

## **FRONTLINE APPLICATIONS**

We understand that there has been some confusion regarding the Frontline software applications Attendance Management (AESOP) and Professional Growth (RI Evaluations).

Users have a separate set of credentials for each of these Frontline applications.

Both of these apps are in BWRSD-Clever and are Single Sign On ready. This means that if you use Clever to access them, you only need to enter your correct credentials in one time. After you do this, users can login to Clever and click on the icon and it will open.

The Frontline Attendance Management is located in the area that is categorized *"Apps-Supply your Credentials"*

The Frontline Professional Growth is located in the area that is categorized *"Administrative/Business Apps & Links-Supply Your Credentials"*.

Users can open a separate tab outside of Clever and type in the web address to go to these applications. If this is done, users will need to enter credentials each time.
