

Milestone Deliverable Review Report

Deep Funding Round: 3

Project code: DFR3-IDT8

Project title: AI4M

Milestone number: 8

Milestone deliverable:

https://docs.google.com/document/d/1h_8BA51wUgv2qvxaXJBW3iwFHQPu_QgE/edit

Date: April 19, 2024

Status: Accepted

Feedback (Why accepted, why rejected?):

The deliverable is well-structured and covers essential aspects, but specifying key details such as metrics, measurement, data sources, and analysis tools would add to its completeness. The deliverable addresses stakeholder engagement and continuous monitoring, but adding specific methods and timelines would solidify its reliability and applicability. So looking at this, the deliverable provides a strong basis for assessing the AI model's impact effectively.

If rejected, suggested changes:
