FoxTALE Upgrade Fall 2012 - Identifying Courses to Copy and Move

FoxTALE will be upgraded to a new version on August 20th.

The upgrade requires a new FoxTALE environment. We need your help to identify your FoxTALE course sites with content that you will want to use for Fall 2012.

Please follow these steps to mark each course site with the words MOVE ME:

1. Log in to FoxTALE, and open a course.

2. Go to **Settings**, usually in the **Administration** block on the left.

3. In the **Full name** field, add the words **MOVE ME** to the title.

4. Scroll to the bottom to save changes. IT will search on the words "MOVE ME" to locate these courses. We will add the word "DONE" to the course title when the course has been copied and moved.

Timeline
If you have an urgent request, please contact the Service Desk.

What are the links?
- Prior to the morning of Monday, August 20, 2012:
    - Current FoxTALE 1.9: foxtale.georgefox.edu
