

Student Health – Physical Distancing During Health Emergency

To the extent possible, elementary school courses will be delivered to the same group of students each day, and the same teachers will remain with the same group in the same separate and designated room each day. If physical distancing is not possible during cafeteria meal service and during courses delivered in a separate area such as the library, gymnasium, or music room, the service or course will be delivered to the designated classroom for each group of students.

Secondary school courses will be delivered using a restructured bell system to minimize student interaction in common areas. Upon arriving in a classroom, secondary school students will be provided disinfecting wipes or disinfecting spray and disposable paper towel and time to clean their learning area or desk. Meal service for secondary students will be provided through a grab-and-go lunch that will be eaten in designated areas.

Parent arrival times to drop-off and pick up students riding with parents and caregivers will be staggered in designated intervals by grade level through a schedule set by the supervising teacher or building administrator.

Drop off and pick up of students will be completed outside the school building in a manner that limits direct contact between parents and staff members and adheres to social distancing expectations.

Authorized visitors to the school will maintain a six-foot distance between themselves and others. The distancing requirement does not apply to individuals who are a part of the visitor's regular household isolation group when the visitor is authorized to be present at the facility.
