

Your own jungle is just one click away

Who said plants could be too big?

Who said you could not create your own little jungle in your living room or make your house so full of plants you might get lost?

Forget about those people...

Because we as plant enthusiasts know... There NEVER is enough plants. It's NEVER green enough. And just like some people go crazy over cats we are passionate about **exotic plants**.

Rare species, strong and healthy variations in lush green coming in all different shapes and sizes...

YES PLEASE.

We also know how hard it can be sometimes to find just **the right plant**.

Either your local store only offers a little variety of sickly standard plants. Or you lack the time and means to go all out in breeding **your own exciting collection**.

Annoying right?

Therefore we are thrilled to announce we are shipping to the whole EU, Switzerland, Liechtenstein, Iceland, Norway the UK and if you ask us nicely we even ship to the whole world!

Your **own private jungle** has never been closer.

In fact it's just one click away: >**LINK**<

Claim your piece of paradise!

Best regard

Your Harmony Plants Team 

PS: *One of our evergreen best-sellers is back in stock > Whether you fancy a little Thai model for beginners or maybe a Monstera Mint variation for more advanced plant enthusiasts - The choice is yours!*
