URGENT: Tell Congress to Modernize Investment Crowdfunding Laws!

The House Financial Services Committee is meeting on May 20 to finalize bills that, if passed, will make major changes to the laws governing Regulated Investment Crowdfunding!

Take Action Today:

Email the committee staffer at Zach.Gates@mail.house.gov to make sure they consider CfPA's proposals.

Here is a draft email you can use (please try to customize for your situation e.g. share a story of why this is important to you):

> **Subject:** Please adopt Crowdfunding Professional Association's policy recommendations!
>
> Dear Capital Markets Subcommittee members,
>
> I'm writing to urge you to support Crowdfunding Professional Association's recommended legislative reforms to make Regulated Investment Crowdfunding a tool that will actually benefit the small businesses it was intended to help.
>
> In summary, the CfPA proposes to
>
> - Create a simpler regulatory tier for smaller raises
> - Ease financial reporting requirements for small and very early-stage businesses
> - Harmonize investor limits and communication rules between Reg CF and Reg A
> - Allow small investment funds to raise via Reg CF
> - Raise the offering caps under both Reg CF and Reg A
>
> These are practical, targeted updates that would remove unnecessary barriers without compromising investor protections.
