

# NEBINGER

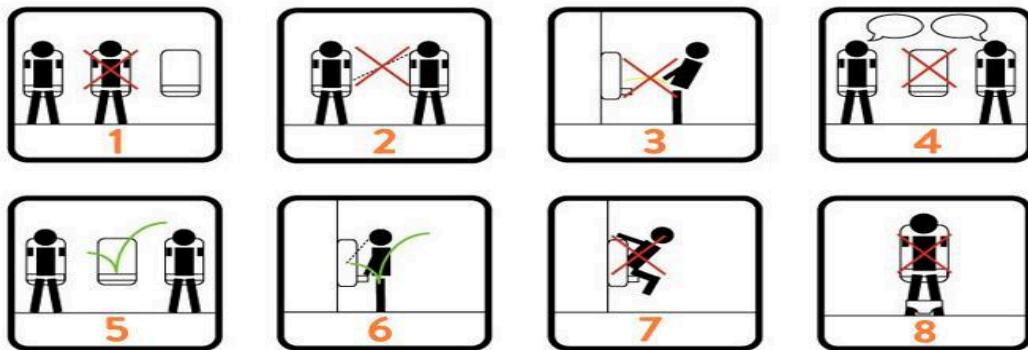

Good afternoon Parents,

We have been experiencing some challenges with our restrooms, so I thought it would be a good time to send home a Newsletter in regards to Bathroom Etiquette while in school. If you could review this very brief newsletter with your children and our students that would be great. Please feel free to reach out to me if you have any questions, comments and or concerns. Stay well and stay safe.

Nurse Jackson

How do YOU show responsibility in the classroom?

1. **Two Urinal Tango** – Under no circumstances must you proceed with using a urinal side by side to another student. This is the cardinal sin of urinal etiquette. If such a situation presents itself, try and busy yourself with other activities until the urinal becomes unoccupied.
2. **Eyes Front** – Keeping your gaze under control is important. You don't want to become 'that student that gets caught taking a sneaky peek. Eyes down and concentrate on the job at hand.

- 3. Stay focused – Keep the pinpoint accuracy to the pro's it's not a game and avoid trying to show off. We all know it'll only end in tears.**
- 4. Silence is golden – Keep the talking to an absolute zero. When it comes to using a urinal in the company of others.**
- 5. Embrace a Urinal Gap – No one likes to stand side by side when going about their business in the bathroom. If there's a gap, take advantage of it – everyone will give you a silent 'thank you' for your consideration.**
- 6. Assume the Position – Stance is important when using a urinal. Stand straight; keep your eyes down to avoid accuracy-based mistakes.**
- 7. KEEP THE POO FOR THE LOO – While it may well go without saying, Urinals are for urine only. Absolutely nothing else in the urinal stalls in the boys' bathroom EXCEPT URINE**
- 8. Act your age – The 'pants down' pee might have been a socially acceptable action within the confines of primary school but is in no way acceptable in the shared bathrooms of today. There's a zip on those trousers for a reason - use it!**
