

Declaration of the Democratic Party

Only a Balkan of equal states is a peninsula that looks and moves towards the future!

Friday, November 4th, 2022

The Democratic Party welcomes yesterday's Berlin Summit and its results.

With the agreements signed for free movement with identity cards, recognition of diplomas and of professional qualifications, the Balkans have become freer, more equal and fairer.

Only a Balkans of equal states is a region that moves towards the European Union and towards the future.

In this context, the agreements on free movement with identity cards, the recognition of diplomas and of other qualifications, are important acts that directly affect the citizens' freedom, the regional cooperation between states and their people, and constitute an essential achievement for the citizens and members of national minorities.

These are concrete achievements of the comprehensive process of Berlin and finally archive to the past the divisive anti-Albanian Serbo-Russian project of the "Open Balkans", or the trilateral alliance Belgrade - Tirana – Skopje, from the nationalist Vucic and strongly supported by the Russians and the multibillionaire George Soros.

The Democratic Party welcomes the outcome and the success of this Summit and declares that it remains determined to fully support the Berlin process in the future.
