## Education

### University of Missouri

Bachelor of Science, Biological Sciences.

Columbia, Missouri

12/2022

## Experience

### Westside Children's Therapy

Rockford, Illinois

#### Registered Behavior Technician

05/2024 - Present

- Provided ABA therapy to children with Autism ages 3-13, focusing on communication, social skills, and individual behaviors.
- Successfully implemented individualized behavior plans, resulting in decreased problem behaviors, increased social and communication skills.
- Collected and analyzed data using ABA data collection techniques, such as ABC recording and interval recording to monitor progress of each client.
- Collaborated effectively with a team of professionals, including Board Certified Behavior Analysts, Occupational Therapists, and fellow Registered Behavior Technicians to ensure comprehensive care for children with autism.

### Caravel Autism Health

Rockford, Illinois

#### Behavior Technician

01/2023 - 12/2023

- Identified and recorded problem behaviors using accurate data collection strategies.
- Implemented applied behavior analysis techniques to teach new skills and reduce challenging behaviors.
- Executed behavior plans developed by a Board Certified Behavior Analyst.
- Provided linklinkllllllexceptional care to children of diverse backgrounds.

### Rockford Family Dental

Rockford, Illinois

#### Receptionist

06/2022 - 08/2022

- Scheduled appointments accordingly using Dentrix Ascend software.
- Confirmed upcoming appointments.
- Communicated effectively among dentists, hygienists, and patients.
- Contacted insurance companies using effective communication skills to obtain patient's insurance information.
- Assisted with training a new receptionist.

### University of Missouri

Columbia, Missouri

#### Undergraduate Researcher

12/2019 - 04/2022

- Collaborated with Private Investigator and graduate students to develop research projects using aptamers to bind the HIV-1 lattice structure.

- Responsible for lab testing including: gel electrophoresis, in-vitro transcription, RT-PCR, bacterial plating, SELEX, NanoDrop spectrophotometer.
- Participated in weekly meetings with the entire lab and bi-weekly meetings with Private Investigator.
- Collected and analyzed quality data in a lab notebook.
- Prepared solutions needed for the lab such as nutrient agar and different concentrations of ethanol.

## **University of Missouri**

Columbia, Missouri

### **MARC/IMSD Summer Research Internship**

06/2021 - 08/2021

- Created a research proposal to be selected for the internship.
- Communicated effectively with a Private Investigator and graduate student to create a functional project for the summer.
- Performed EMSA (Electrophoretic Mobility Shift Assay) experiments to identify the binding properties of a truncated aptamer versus the full-length aptamer.
- Prepared and presented a presentation for the Summer 2021 Research Forum.
