

Starblox Training Guide/Script

Host/Training GUIDE

~~~~~  
**Starblox Only**  
~~~~~

You must DM a Senior Corporate to claim a training in #training-schedule .

Each section the trainee gets correct is to be rewarded with 1 point. Each order they get correct is also to be rewarded with 1 point.

The Host and Co-Host should join the training centre 30 minutes before the training starts.

The Trainers and Helpers should join 20 minutes before the training starts.

The Host should assign trainees to a specific group and assign staff members to the specific role they desire while helping at training.

Points are given out every section.
~~~~~

### **Information:**

#### **Role requirements:**

Assistant/Helper: Staff Assistant+ (Not mandatory, used for new MRs and when there are enough trainers..)

Trainer: MR+

Co Host: COO+

Host: EI+

Ranker: EI+ (DM one with the usernames if not online)

#### **Other:**

You are NOT to join before the host announces the session.

**MR+must have proof of attendance and log it in #activity-logs**  
~~~~~

SHOUT:

[TRAINING] Training will be hosted at (TIME). LRs, come to the Training Centre for a chance to get promoted.

[TRAINING] Training has now been s-locked. Sorry if you couldn't make it.

[TRAINING] Training has concluded. Why not come down to Outback Steakhouse and order from our workers?

TRAINING ROLES:

1 Host. (HR+)

1 Co-Host. (HR+)

Trainer A (Supervisor+)

Trainer B (Supervisor+)

Trainer C (Supervisor+)

It is preferred to have as many helpers as there are to trainers.

There may only be a limit to 2 Overseers.

~~~~~

## Hosting Script

- m Welcome to the (time) Training session, I am your host, (name).
- m Today, your trainers and I will be guiding you to become a more efficient worker, If you show independence. If you seem experienced enough we will reward you with points, or allow you to skip a level! When you hit a certain amount of points, you will get a promotion.
- m Please be silent as my Co-Host announces the rules.

(Side note)- The m is used in announcing.

~~~~~

Co-host

- m Hello! I am your co-host, [username] . I suggest you take a mental note for what I am about to announce, as all of the following is vital to your success.
- m Listen to staff that are ranked above you, and all staff in general. Do not hint towards passing, as it will only lead to failure.
- m Please channel your attention towards whoever is speaking.
- m Say PTS when you have a question, and your Trainer will help you. Do not troll or exploit, this may result in a ban or kick, regarding how bad the situation was.

- m Do not ask why you failed, or argue with your Trainer.
- m Do not be frustrated, if you have failed, there are training sessions hosted IV times a day!
- m You are to use grammar at ALL TIMES. Failure to do so will result in a grammar strike. If you receive III grammar strikes, you are automatically out.
- m If you correct yourself before your trainer does, the grammar strike will not be distributed.
- m That's it for explaining. Trainers, you may now take your designated trainees.

~~~~~

*Take the trainees to the area on the right of the host stand.*

## Trainer Script

- Hello! My name is (USERNAME)! I will be training you all today.
- We will begin the training session with greetings. Greetings are what you say when a customer comes up to you.
- The main thing in this section is grammar.
- As you know, if you do not include grammar in your greeting, a grammar strike will be handed out.
- A good greeting consists of an introduction to StarBlox, your name/nickname, and a friendly greeting.
- Before we start, does anyone have questions? I expect a verbal response from all of you.

*If not, continue.*

- We will now begin! We will now come up to you and ask for your greetings.

~~~~~

****TROLLING:****

- We will now move onto our trolling section.
- Here, you will be tested by either me or my Helpers on dealing with a troller.

- We will come up to you and pretend to be a troller, and then you must warn us 3 times before calling an MR+.
- Remember, spammers get no warnings and you are to urgently call a HR+ to immediately to ban.
- Exploiters get no warnings and are to call a SHR+ to pban. ALTs of banned accounts are also to be banned by a HR+.
- If you happen to not have dizzy/discord, please find another worker who has it and is on our server.
- Since is just a training, just use *calls MR+* or something along those lines.
- When we approach you, please state your greeting.
- We will now begin the troll training. Please wait for me or my helpers/assistants to come up to you.

~~~~~

**\*\*TRIVIA:\*\***

- I will be pming you all with a few questions. Please answer within the pm.

Use silent commands by running " " ", and then type the pm.

Example: :pm

Options (pick 1 of the following, and pm them it. If they get it correct, reward them with a point.):

1) :pm (username) Do we serve Cakepops?  
(A): Yes.

2) :pm (username) How many warnings does a troller receive before an MR is to be called?  
(A): 1.

3) :pm (username) How many warnings are to be given out to an Exploiter? Who are you to call?  
(A): None. An SHR+.

4) If you need support and an MR+ isn't in your server what do you do?  
(A): Call for someone on discord, or ask someone else who has discord to request for assistance.

Sent! Please let me know if the pm is tagged, or if you didn't receive it.

## Conclusion (Host)

- m Thanks for coming! Congratulations to all who passed. We recommend you to now go to the main restaurant, and hope that you will have a fun experience!

~~~~~

Training Schedule:

11 AM EST

2:00 PM EST

6:00 PM EST

8:00 PM EST

To claim a training read #staff-info and #training-schedule.

You will need permission from a Senior Corporate+.

Trainers train their group by following script and asking questions, and then doing troll/exploiter training. They give points to the trainees if they get an order right, and then lead their group to get promoted at the end by asking them to wait on the lines.

Co Hosts assist the Host to lead the training session. They stand back and mostly observe during the actual training, but help with announcing things like the rules in the start of the training. They also name the trainees into their groups.

The Host of the training leads the training session. They assign the trainers, shadows and co host. They announce the rules and explain how the training will work at the beginning.
