After login go to **“projects”** 🖱️

Here Create a new “**Create workflow canvas**”

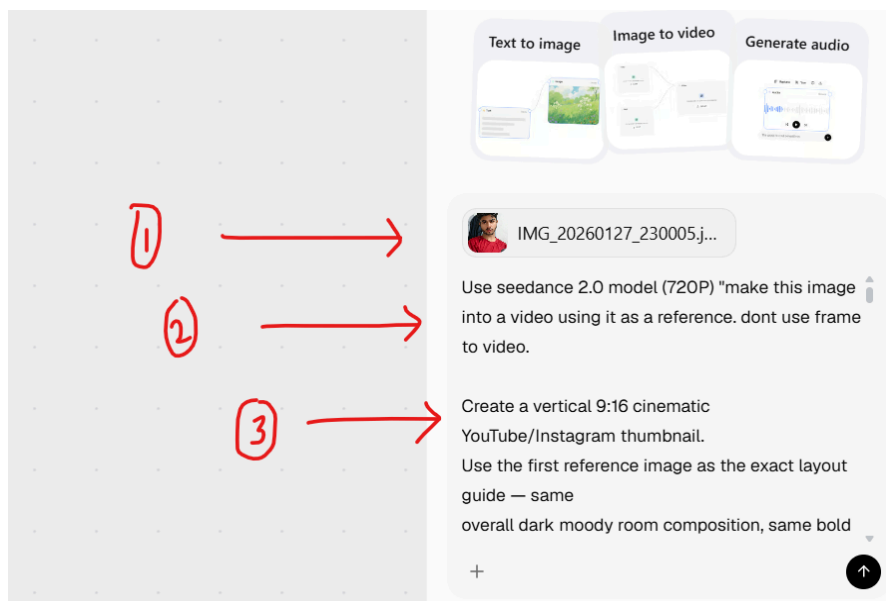

In this Workflow paste this 🖱️

**Paste this secret line:**

“Use seedance 2.0 model (720P) "make this image into a video using it as a reference. dont use frame to video”

**Note :** After inserting this, place your prompt and reference image right below it. See the screenshot

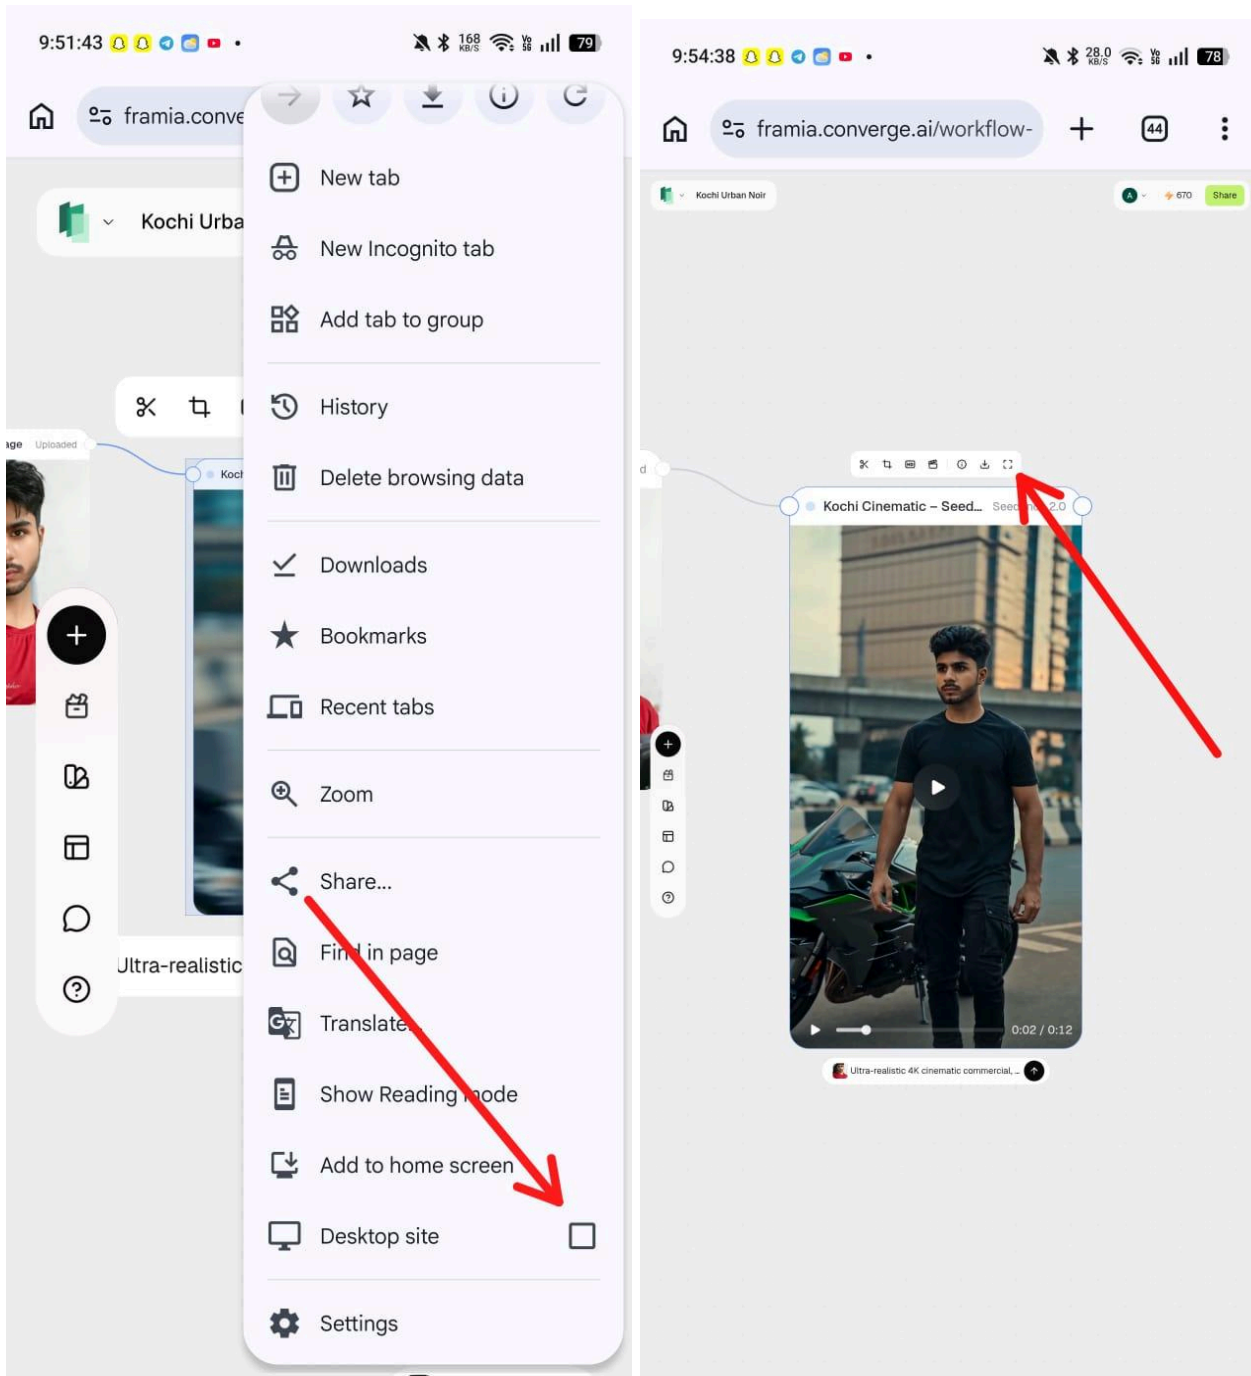

1st is **Image** | 2nd is above **secret line** | 3rd is Your Prompt

**Note:** They have added a video download restriction. But there was an solution..

How to download the Videos:

First Enable The desktop site mode, Then click on full screen Option

After Full screen Click and hold on video Download Popup Appears:  
Here **Download** the video
