

Flux 1.1 Pro vs Midjourney 6.1

Rubric

1. Detail and Texture (30 Points)

- 30 Points: Flawless detail and texture across all elements, with highly realistic surfaces and fine details.
- 24 Points: Excellent detail, with only minor imperfections or artificial-looking textures.
- 18 Points: Good detail, though some surfaces or small areas lack realistic textures.
- 12 Points: Adequate detail, but clear inconsistencies in textures or artificial elements.
- 6 Points: Noticeable issues with detail, with large portions of the image lacking realism.
- 0 Points: Little to no realism in textures or fine details.

2. Lighting and Shadows (25 Points)

- 25 Points: Perfect lighting with natural shadows and highlights, behaving accurately with the environment.
- 20 Points: Very good lighting, though small shadow or highlight imperfections may be present.
- 15 Points: Good lighting, but noticeable flaws in shadow placement or intensity.
- 10 Points: Adequate lighting, though shadows and highlights appear inconsistent or artificial.
- 5 Points: Significant lighting issues, with unrealistic shadows or flat lighting.
- 0 Points: No realism in lighting, with a flat or poorly lit image.

3. Composition and Depth (20 Points)

- 20 Points: Excellent composition with clear depth, foreground, middle ground, and background blending naturally.
- 16 Points: Very good composition, but minor issues with depth or object placement.
- 12 Points: Good composition, though depth and perspective have noticeable flaws.
- 8 Points: Average composition, with clear depth issues or unnatural object placement.
- 4 Points: Poor composition, with a lack of depth or incorrect perspective.
- 0 Points: No visible composition or depth, resulting in a flat image.

4. Colour Palette and Realism (15 Points)

- 15 Points: Perfectly balanced, natural colours with seamless blending and no unnatural hues.
- 12 Points: Excellent colour use, but slight oversaturation or minor unnatural tones may appear.
- 9 Points: Good colour palette, though some colours may appear unrealistic or poorly blended.
- 6 Points: Average colour accuracy, with visible issues in colour balance or hues.
- 3 Points: Poor colour realism, with jarring or unnatural colours.
- 0 Points: No realism in colours, with an entirely artificial or off-balance palette.

5. Overall Realism and Atmosphere (10 Points)

- 10 Points: The image is highly realistic, evoking a strong sense of immersion and believable atmosphere.
- 8 Points: Very good realism, though some minor imperfections prevent full immersion.
- 6 Points: Good realism, but the image clearly looks AI-generated.
- 4 Points: Average realism, with clear signs of being an AI-generated image.
- 2 Points: Poor realism, with many elements appearing unnatural or artificial.
- 0 Points: Little to no realism, with the image looking entirely synthetic.

Total Possible Points: 100
