

Hyello! If you are commissioning me I have made these terms of service as a means to protect my rights as an artist! These terms are just simple rules and guidelines that help you as much as they help me! Please read and note you'll be agreeing to these if you commission me <3.

1. As a customer you are allowed to repost any work you purchase from me **however** you are not legally allowed to alter, crop, or otherwise change the work, under the same stretch of legality and my artist rights you are also not to claim the work as your own or someone else's.

2. Since I will be working a regular hourly job along with personal life no matter how small the commission may be there should be an expectation that the piece be completed within 1-3 months (this is of course in more dramatic cases it shouldn't take that long). Smaller commissions like Chibis or Portraits etc should not take longer than a few weeks with my schedule but for larger pieces, especially those with backgrounds, they will take some time and I'll need many hours between my regular day schedule to complete them, and I have bad mental health and sometimes need a break.

2.5 however in the case of which you need the art to be finished in a shorter amount of time I do offer Rush Work. However if I'm needed to complete a piece in less than a 2 week period there is a charge that is half of the piece's original price. For example, If the original price for the piece is \$50 but I am given a deadline for rush work that'll add an extra \$25 to the total for a rush job.

3. I will **NOT** draw: Child Pornography, Hate speech: No Homophobia, Transphobia, Xenophobia anything that solicits hate towards a group or minority, I will not draw extreme fetishes (Inflation, giant feet, super sized people, etc, I do take regular nsfw commissions tho, see term 5), and I will also not draw in another style than my own unless that sort of commission is offered.

4. There's a few things that I am not that skilled in drawing, but will try, this is more of a forewarning but: Cityscapes. Plants, Vehicles. Anthropomorphic characters. I have a small scale of knowledge of these things but am not as good at drawing them as people or animals.

5. **You must be 18 years of age to purchase a sexually NSFW piece of artwork from me.** Extreme gore commissions do not have an age requirement however sexual content/porn content will only be allowed to those 18 and up. Something not super sexual, Pinup, etc that does not include nudity or sexual themes is 16 and up.

6. Please do not rush me, It stresses me out, I will do my best!!

7. I accept payment before the commission is started and will only allow half payments on pieces of \$70 or above. For anything under \$70 the price must be paid in full before I will fully complete the work. There is of course unique circumstances where I will bend this but thats my base rule to avoid scams.

8. I do not do refunds if I have finished the piece or have gotten over a certain amount of hours into the piece. Whenever I take commissions they are my way of surviving and I need to pay my bills. I do hold payments until the refined sketch is at least finished just in case but otherwise I do not.

8.5 Additionally I will ask for increases in pay if I am asked to make a certain threshold of edits to the work. If I complete lineart/coloring and i'm asked to change the pose, outfit, character design, or any large adjustment I will ask for an additional payment to be made to compensate for the extended workload. This does not apply to sketches as that's the period in which I make sure you are pleased with the composition of the piece. The payment will be based on what is being changed and the original price of the commission but this payment will not ever go past \$30.

9. I will NOT accept AI art references unless some change is made to the way AI generators work. I also will not accept someone else's artwork that you are using as a 'face claim' for your oc. If you must, use picrews and then send me the adjustments that need to be made, I'd much rather do that then plagiarize someone else's design.

10. My prices are only mostly final, I will definitely waive things based on a budget because I love working on commissions and know getting art of a character is hard, so please if you view my prices don't feel too scared to approach me with a budget in mind!!

The next page of this document has my prices and my calculation process! Thanks for reading!!

Extra prices

When taking a commission I have variance in prices based on character or background complexity! For example if your character wears a black hoodie with some skinny jeans and a pair of chucks I will probably charge on the shorter end of the commission. If they wear armor but the most detail it has is it has a few belts+etchings, that will be more in the middle range of prices. If the character's outfit has a lot of patterns, layers, and small details that is when it'll get into the higher range of price. This line of thinking also applies to a background, if your background is a simple shot of a wall + a window with the sky that's going to be a much smaller cost than say something standing out in the forest in some old ruins.

I usually calculate these by what the hourly rate for the piece would be if I was paid by the hour and just multiply it by my assumption of how many hours the character/bg will take and round it to an even number ending in 0 or 5.

Adding an extra character costs:

Chibis: every extra character adds \$20

Busts: every extra character adds \$35

Half bodies: every extra character adds \$40

Full bodies: every extra character adds \$80

adding animals (this includes small fantasy creatures like pokemon and such to ANY
commission is \$10
(prices may bump with character complexity)
