

2. WRITTEN REFUSAL FORM

I have read the information Summary provided. I understand that my child/children's participation in the Survey is *voluntary*. I also understand my right to review the Survey electronically or at the school office until the date of Survey administration.

If you do not wish to have your child participate in the survey, please turn this written refusal form into the office by the morning of Tuesday, April 4th.

I **do not** want my child/children listed below to complete the Conditions for Learning Survey. I understand that a different activity will be provided for them during the Survey time and that there is no penalty for my family members not completing the Survey. I understand that refusal of consent needs to be received by the school no later than the date that the Survey is administered. Please return this form with your child's name and your name signed below to the building principal if you do not want your child to participate.

Names of child/children who will not participate in completing the Conditions for Learning Survey online in April 2023:

Child Name

Grade
