

Post Exam Project:

Build-an-NGO/AP Survival Guide

Essential Question: What can I do to help on a global level?

Supporting Questions:

What are the most pressing global issues of today?

Where on the globe can I help the most?

Should I intervene in all global issues (are they all created equally and equally appropriate)?

What specifically do these people need?

How big or small will my impact be - and how can I keep it moving forward and growing?

What am I passionate about?

In a small group put together a short slide show. Be a dreamer. If you had a major investor who allowed you to create an NGO to help with a global issue, what would you seek to do. Include the following and use the above questions as a guide. Add pictures where appropriate -feel free to get creative, but on topic and school appropriate, here:

Slide 1 - What problem will you tackle? Give a few details.

Slide 2 - How will you tackle it?

Slide 3 - More details on How - Where, What, When, How?

Slide 4 - What would be your ideal result after 5 years? After 15?

Slide 5 - Apply at least 5 AP Human vocab terms

Slide 6 - Surviving AP Human- Favorite thing you learned about in AP Human. And one key piece of advice for next year's students of this course. Ideas:

- AP Skills (FRQs and MC), other skills (reading, writing, note-taking)
- Work Ethic and Personal Responsibility
- Pacing (both nightly and long term)
- Other helpful hints that you did, or wish you had done
- Your biggest success, biggest failure, and what you learned from each

Please share your final project with me via gmail. You have block day and silver day to complete and will present on your assigned finals day.
