[FULL NAME]

Assistant Professor of Computer Science

[Street Address], [City, State, Zip Code] | [Phone Number] | [Email Address] | [LinkedIn Profile URL or Portfolio Link]

Highly accomplished and dedicated academic with a Ph.D. in Computer Science and over 7 years of experience in teaching, research, and curriculum development. Proven ability to publish in high-impact journals, secure research funding, and mentor students at both the undergraduate and graduate levels. Committed to advancing the field through innovative research and providing an exceptional educational experience.

ACADEMIC EXPERIENCE

October 2018 - Present

Assistant Professor | University of Technology | Riyadh, SA

- Supervised 10+ Master's and Ph.D. students on their theses and research projects.
- Secured over \$500,000 in research grants for projects in machine learning and data science.

June 2016 - September 2018

Postdoctoral Research Fellow | Institute of Advanced Studies | Riyadh, SA

- Conducted independent research on cybersecurity threats and published 5 papers in peer-reviewed journals.
- Collaborated with international research teams to contribute to major academic findings.

EDUCATION

May 2018

Ph.D. in Computer Science | King Saud University | Riyadh, SA

Dissertation: "Novel Approaches to Neural Network Optimization for Large-Scale Data"

May 2014

Master of Science in Computer Science | King Abdulaziz University | Jeddah, SA

Publications

- Farouk, O., & Al-Malki, F. (2022). "A New Algorithm for Secure Data Transmission." Journal of Information Security, 10(2), 123-145.
- Farouk, O., & Khan, A. (2020). "Enhancing Predictive Models with Deep Learning." International Journal of Al Research, 15(4), 567-589.

SKILLS

- Research & Methodologies: Quantitative
 & Qualitative Analysis, Experimental Design, Grant Writing
- Technical: Python, R, MATLAB, C++
- Teaching & Mentoring: Curriculum Development, Public Speaking, Student Advising
- Soft Skills: Leadership, Collaboration, Critical Thinking, Time Management
