

Post Graduation Research Positions

Research Coordinator - Youth VIEW, Texas Tech University

We are seeking a full-time research coordinator to join our federally funded study examining social and emotional factors that influence mental and physical health of children with blindness or visual impairment. This project is supported by a five-year R01 grant funded by the National Eye Institute, currently in the second year of the award. The study is moving quickly, and we are seeking a full-time coordinator to join our team, which includes two other full-time staff along with graduate and undergraduate research assistants. To learn more about our project, check out our [website](#) or the [NIH Reporter](#) description of our project.

This position would be excellent for someone with an undergraduate degree in psychology or a related field looking for additional research training before pursuing graduate school.

Application Deadline: March 16, 2026.

Interested applicants should apply [using this link](#).

Research Coordinator – Drexel University, College of Arts & Sciences

Dr. Butryn is hiring a full-time research coordinator to begin in the summer of 2026 to assist with two NIH-funded clinical trials investigating interventions related to 1) dietary intake for cancer prevention, and 2) uptake of evidence-based treatments for obesity. This position will provide high quality research training for recent college graduates wishing to pursue graduate study in clinical psychology or a related field. A more detailed job description including responsibilities can be found [here](#).

Application deadline: January 31, 2026.

Interested applicants should apply [using this link](#).

Lab Coordinator – Cooperation Lab, Boston College

The Cooperation Lab at Boston College, directed by Dr. Katherine McAuliffe, is seeking a full-time senior research assistant / lab coordinator. Our lab focuses on the origins of cooperation in human development and evolution. Major research areas include the development of cooperation across societies as well as the psychological mechanisms supporting cooperation in humans and other species. This is a one-year full-time position with benefits. There is a possibility of extension beyond one year depending on funding. Extension beyond the first year is contingent upon satisfactory performance.

Application review begins January 2026.

Predoctoral Fellow – Opportunity Insights, Harvard University

Opportunity Insights (OI) at Harvard University is hiring several full-time predoctoral fellows to start in Summer 2026 to work with our research group. OI is a nonpartisan research and policy institute focused on improving economic opportunity. Fellows will be based at Harvard or Brown Universities under the direction of Professors Chetty, Friedman, and Hendren. The fellowship will include a variety of tasks that provide preparation for graduate school or other industry research positions, such as analyzing data, developing statistical models, creating presentations, and editing research papers. In addition to working with OI faculty, predoctoral fellows frequently co-author papers with other students or faculty members.

Application Deadline: February 4, 2026

Postbacc Fellowship in Educational Research and Action – Cognition, Learning, and Development (CLAD) Lab, University of Notre Dame

The postbaccalaureate fellowship in educational research and action is a selective, fully funded, two-year research training program designed to prepare college graduates for admission to top Ph.D. programs in fields that advance educational research and action. These fields include, but are not limited to, learning and cognitive sciences, human development, curriculum and instruction, human-computer interaction and artificial intelligence, data science, psychology, and the social sciences—including education policy. Fellows receive mentorship from a distinguished group of researchers and community partners. The training program is embedded in a unique learning design ecosystem that seamlessly integrates educational research, practice, and public service.
