

Specials Communication for Hybrid Remote Learning Days

Specials Schedule

Your specials team will communicate with students during remote learning days using two different learning platforms. We have already set up the different classrooms with your students, and will be working with students on the in-school days to navigate and explain expectations.

- We will be using [SeeSaw](#) for grades K-2 (your student must be logged into their Google School Accounts to access)
- We will be using [Google Classroom](#) for grades 3-6th (your student must be logged into their Google School Accounts to access)

Art

Art lessons will be posted on Seesaw (K-2) and Google Classroom (3-6). Often the students will be using the art workbook that was given to them on orientation day. Students will follow the same rotation as in person learning. Please feel free to email me with any questions pjfisher@dcsdk12.org

Music

Music Lessons will be posted to Seesaw (K-2) and Google Classroom (3-6). These are the platforms already being used by classroom teachers for these grades. The students are already enrolled in the music classroom for their respective platform. I will be pushing out assignments and activities on the platform to students when they have music for their specials rotation for their remote learning days. These assignments will support what your student is learning in my class. Please feel free to reach out if you have any questions. My email is mgreen3@dcsdk12.org.

PE

PE lessons will be posted in the same learning platform that your student's classroom teachers are using. There is a PE Class created that your student will be able to access. The remote lessons will be posted in either SeeSaw (k-2nd) or Google Classroom (3rd-6th) for student remote learning days on the week that they have PE as a Special. These remote lessons will vary, and will support in-school lessons and learning. It's important during the remote learning time that the kids get away from the screens for a bit and get moving. You can also check out my blog for other fun things to do.: [P.E. with Mr. B](#) Please feel free to email me with any questions bpgill@dcsdk12.org.

Technology

Technology lessons will be posted in the same learning platform that your student's classroom teachers are using. There is a Technology Class created that your student will be able to access. The remote lessons will be posted in either SeeSaw (k-2nd) or Google Classroom (3rd-6th) for student remote learning days on the week that they have Tech as a Special. These remote lessons will vary, and will support in-school lessons and learning.

Typing Pal

3rd - 6th Grade: When you complete all of the Typing Pal exercises, please email me and I will reset your account. Also, remember to focus on finger placement.

Please feel free to reach out with any questions - cdtownsend@dcsdk12.org
