

If you would like to investigate the Pearson eText app on your iPad to see if you would like to utilize it with your students, download the app you see in the screenshot below:

Pearson eText for Schools [View More By This Developer](#)

By NCS Pearson

Open iTunes to buy and download apps.

Description

The Pearson eText for Schools app allows K-12 teachers and students who view their Pearson eText titles on a computer to also access their programs in a bookshelf on iPad.

Products and Classes

1. Create a Class 2. Add Students

Add students to your class by typing in a student name, user name, and password for each student. Click the **x** symbols to remove students. When you have finished adding students to your class, click Save & Finish. Your class will not be created unless you click Save & Finish.

Student Name	Student Username	Password
a student ✓	scsdwarrior ✓	scottsburg2! ✓

This might give you an idea of what the math and reading texts looks like on an iPad. It is particularly nice for kids that need to hear the story being read to them.

If you decide you would like to use the eText, here is the process:

1. Your student accounts can be created by going to Pearson SuccessNet and clicking on the image you see below:
