Dear CCHS Families,

As we enter our fifth year as a 1:1 Apple school, we would like to provide you with the plans for laptop rollout in the Fall of 2019.

Beginning August 2019, all Freshmen students will borrow an Apple laptop from the school. There is no cost to do so. Even if your Freshmen child has a personal Apple laptop, there will no longer be an option to utilize it in school. This allows all students, throughout both middle and high school, to have a consistent educational experience. In addition, it allows us to bring our program into alignment with the Department of Education recommendation for school testing technology.

During the third week of August, you will receive an email communication from the high school, regarding the process. The email will include a section for you to sign out the computer. As long as your form is filled out, your student will have a computer waiting on their first day of school advisory class.

These changes have been made with the goal of streamlining the distribution process so parents no longer have to come to the school to sign out a computer. We hope this new process makes for a smooth start to the school year.

Program Information
