

Dragon King with Seven Stars by Gu Long

<https://www.wuxiaworld.com/novel/dragon-king-with-seven-stars>

Welcome to my translation of Dragon King with Seven Stars by Gu Long. The story revolves around the mysterious disappearance and death of multiple figures in Jianghu, and contains a lot of foreshadowing, so pay attention to the details and see if you can figure out what is going on before the truth is revealed.

Other translators rendered the title as Seven Star Dragon King, but after reading the whole book, I think my version is a bit more applicable. This is one of Gu Long's later works, and I really enjoyed it. For those of you who didn't like the ending of Kung Fu, I can tell ahead of time that this story is much more light-hearted, even more so than Heroes Shed No Tears, although it does have its fair share of the drama and heartbreak you might expect from a Gu Long story. A previous translator started working on it but didn't get past the first chapter. You can check that out here. Similar to Heroes Shed No Tears, I've started my own translation from scratch. Please do not hesitate to point out mistakes of any sort.

This story actually has a connection to my first translation 7 Killers. If you haven't read that one you can find the unedited version on spcnet or the edited and updated version on wuxiaworld.com.

The story is 100% translated as of 2015-05-02.
