

[MOULTRIE M-999I MINI GAME CAMERA](#)

Capture, view, and experience wildlife in a whole new light with the stealthy 20.0 MP resolution [MOULTRIE M-999I MINI GAME CAMERA](#). Thanks to the camouflaged, weatherproof exterior; the game will be completely unaware and not disturbed by the camera's presence. Mounting is easy with the 1/4"-20 bottom tripod mounting and back slots, which are used with the included nylon strap or a separately sold, Python locking cable for securing to a tree or other structures. Shooting in complete darkness is accomplished with the 36 invisible infra-red LED's that permit high-resolution, still or full, HD 1080px video shooting with sound. Fully-featured, the camera offers multi-shot, time-lapse, and hybrid modes with passive triggering and time lapse. These features allow for reduced motion blur and an extended flash range of up to 60' that combine for enhanced night-time image clarity. Images record to an up to 32 GB, SD/SDHC class 4 or higher memory card – purchased separately. Your M-999i Mini Game Camera runs on 8 AA batteries (not included), and the camera will also run on any Moultrie 12VDC external power source.

INVISIBLE INFRARED FLASH

A flash equipped with 36 iNVISIBLE infrared LEDs illuminates game up to 70 feet away in total darkness, without giving away the camera's position.

PHOTO & VIDEO RESOLUTION

Manage image quality and storage with 4 resolution settings, from low (1280x720px) to enhanced (6080x3420px), and capture full HD video in 16:9 aspect ratio.

SPECIAL FEATURES

Multi-shot, time-lapse and hybrid modes (triggered by passive infrared and time lapse) offer hunters total versatility and customizability while reduced motion blur and extended flash range enhance nighttime image clarity.

EXTERIOR

A sturdy case with a weatherproof plastic exterior comes with standard 1/4"-20 bottom tripod mounts and back slots for use with an included nylon strap or Python lock cable (sold separately) for tree mounting. A Python lock-compatible clasp offers added security.

MEMORY CARD COMPATIBILITY

Works with SD/SDHC Class 4 cards or higher and can handle up to 32 GB. Memory cards sold separately.

MANAGED MEMORY

If set to "Overwrite Oldest," the M-999i will erase your oldest photos and videos to free up space for new photos and videos when your memory card reaches full capacity.

BATTERY LIFE

Requires 8 AA batteries. Captures approximately 15,000 images. Actual results may vary.

OTHER POWER SOURCES

Compatible with any Moultrie 12V DC external power source. Camera also supports AC power mode.
