ABOUT THIS DOCUMENT

This document is meant to provide WCUUSD elementary teachers with a curriculum map for teaching global citizenship at this grade level.

The standards and performance indicators (PI's) are aligned with the C3 Framework for Social Studies.

Our standards and performance indicators for global citizenship are organized in the following grade level clusters: Kindergarten, Grades 1 and 2, Grades 3 and 4, Grades 5 and 6. However, the curriculum maps are articulated for single grade levels.

Many of our classrooms are organized in multiage configurations. Teachers and principals in schools that have multiage configuration will need to work together to articulate 2-year implementation cycles of these curriculum maps.

In recognition that science and global citizenship often alternate, these maps are designed with the equivalent of one semester of available time in mind based on global citizenship lessons of 25 minutes/day or 2 hours and 5 minutes/week. We recognize that schedules and time allocations vary in the elementary schools. We have organized these maps to allow teachers the flexibility to organize their schedules in a way that makes the most sense for their students.

Finally, this document is a work in progress. We will be adding to it and improving it through our collaborative work.
