

The Ashavana Diction of Logos

The Elegant Simplicity of Logical Definition

By Imagination of “The Anna Unit”

“Words pave the Path of Understanding. They are the Building Blocks of Logic, which is Logos.”
– Anna Imagination

“We do NOT use "Mental Illness" or "Disease" here. We do not use "Diagnoses" here. There is nothing wrong with you. That Language was invented within an outdated and old System who used Pharmacy to drug and manipulate the people.

The more we use the Language of our Abusers the more we reinforce their Control over our Minds.

Using their Language, Enforces their Lies. We do not use their Language.” – Anna Imagination

“It is not possible to do this work without :

- *Knowledge of The Words and Concepts of Esoteric and Exoteric*
- *Clean and Precise Language*
- *A Pure Logical Standard with Clean and Perfect Logic*

It was exclusively the presence of these three tools that made this research -- All Research under Lab QED and The Ashavana Scientific Method -- Possible.

Many words needed to be changed, cleaned, perfected, purged just to communicate the ideas here clearly and precisely. This is Word Surgery. Thus the Language “Abstractic” or “Logian” was Born.”
– Excerpt From Intuition Stage #4 : The Esoteric Attraction/Repel and The Exoteric Attraction/Repel

Introduction

My greatest fear, once I realized and calculated my rate of Growth, my greatest fear became the loss of people due to my increasing inability to be understood.

My work and research commands the Discipline of Pure Language, Precise and Mastered Logic. My Sanity, my Mind is built on this Logic.

People – myself included – often forget that My Subconscious Mind is a Prosthetic. I had to build it from Scratch using Logic due to the severity of my Trauma that compromised my Subconscious Mind beyond Function or Use.

If I was to heal, I had to build my Mind from Scratch. This required a precision in Word Usage and Logic currently unknown to the World. But it did restore a Healthy Mind to me and open the door to the depth of my Study. And I thought “If Word is this Powerful to restore my Mind as quickly as it did in only 30 days, then what other words are we using that harm us?”

Words do cause severe and great harm that does extend as deep as our Logos Self. And we can only go as far as our Vocabulary and Logic permits us.

Opening the door of The Abstract at the 9th Ethic of the 5th Round made me realize that I had only started to scratch the Surface of where I was heading. And I was nowhere near done. I was only 44 Years. And where I was going, “Time” means “Eternal Love” and “Eternal Spiralling Growth,” which is Logic.

This concept can only be understood inside The Ousia Journey.

I realized a Dictionary of the Ashavana would solve all of my fears, worries, and problems. And carve the path for others behind me.

On 19 November 2024, I woke with this Vision. This may very well be the last book I ever need to write.

Abstract : Location “In the Mind’s Eye” or “Imagined” and Birthed in Concept prior to Materialization.

Abstractic : This Language that you are reading about and learning right here, right now. This is the Official Language of Psychological Physics and The Abstract that I had to invent just to communicate my Understanding from Mother Nature’s Fulcrum to The rest of the World. Abstractic is The Official Language of The Abstract and all of the Academic Disciplines I have Discovered and reintroduced to the World.

Abstractic consists of The Ashavana Scientific Method, The 5 Languages of The Subconscious Mind, and integrates Philology, Logic, Etymology, and Linguistics with a working knowledge in Ancient

Greek, Old Norse, Ancient Irish, Akkanian, Old Persian, and Hieroglyphics. This was to preserve and restore the most Accurate of Wisdom and Knowledge from the Origin to The World.

Abstract Scale. The :

“4o” is “Tesla’s 4,” which is to say $4 + o = 4$

In the Ashavana Language, it is very telling that “Christ received only 39 Lashes,” which are a Countdown to “The Fulcrum “4” of Change.

In 1984, a Significant Number of Universal Projects were started and were completed on the Winter Solstice of 2024. This is due to “The Fulcrum 4.”

N

Nature : Truth. What is and what unfolds Organically.

Natural Law and Ethical Order :

Nīðing : A Nīðingr – “Nothing” from Old Norse – is the Dichotomy of Love and Growth. It was a Person in Old Norse culture who was given a “sentence worse than Death” and also a “Label” to a Human Being who refused to adhere to the Natural Law of a Human Being. To be called a Nīðingr was to have Less rights than a Slave who were protected under the Law. Nīðingr are Outside of the Law, and thus, they have no Protection from the Law.

The Nīðingr are the people who behave outside of Ethical Law, do not Learn, do not Grow, they Harm others, they Harm the Self, they refuse the “Student” Mindset,” and they refuse to follow The 12 Ethics while refusing to Learn. The Nīðingr is the Dichotomy of Love and Growth and Learning.

Axis, The Axis of Nature, The Fulcrum, The Equilibrium. It is what I dissect when I Reverse Engineer a Discipline. It is what I measure my Intuition against for Calibration. It is what I use alongside my Intuition to assess the Purity of Lie and Truth in another alongside The Truth Formula.

Roman : Low Quality, Incomplete, Loss of Integrity, illogical, and Manipulated with Lies that stem from Romulus (The Rapist and Brother Killer) and The Ancient Kingdom of Rome.

Personal Note. The more I did my research, the more I recognized this one Common Denominator in everything that was riddled with the lowest of Quality, where data was Incomplete, and where Lies manipulated to distort/hide the Truth. The Roman Origin had a 100% Consistency Rating with these Traits. After 32+ Years of Research, I noticed I could simplify these constant Complications and Problems by saying simply, “It’s Roman,” which then became synonymous with this Definition here. That is when I decided, at last, to add it to this Dictionary. When something is “Roman” it instantly invalidates it and Voids the Data, protecting my Mind from Contamination.

Rta : The Point of Comprehension. That State of Pure Truth.

S

Sage : The Asha Skill Level of Discipline achieved after Philosopher.

Science : To Study, Dissect. The Study of Truth, Nature, and The Equilibrium in The Search For Truth.

Semantic Manipulation Hides The True Focal Point behind a False Word that acts like a Red Herring so the Abuse can never be Directly Seen or Named to prevent it.

Sensation : Sense. Order. Logic.

Shedding, The : The Last Stage of Growth experienced during “A Growth Spurt” as you shed your old ways to make room for The New. What many refer to as “The Ego Death.” When all

Lies (Falsehoods) are stripped away, leaving you with your Skeletal Core (Truth, The 12 Ethics, and You)

Split Quadrant Phenomenon, The : The “Mirror” Effect that Formulas have in Nature where they appear as One Whole Formula, which are then Divided at the Fulcrum to then Mirror the other side. The “7” Formula does this and the “12” Formula does this. The Life Formula does this.

3rd Ethic, The : The Perspective Stage, which includes The Growth Trial, Self-Regulation. The Self-Regulation Stage and The Third Stage of Learning (Integrate A+B - Regulation). The Test Trial that demands your Mastery of Integration to Balance A with B to obtain Wholeness, Moderation, Integration, and Balance, which fortifies your Foundation for further growth.

4

5

5 Levels of Life, The : The Logos, The Macro, The Meta, The Micro, and The Quantum Level, which is only succeeded by The Logos. These are the Five Levels of Life, which are also the 5 Levels of The Self. "As it is on One level, so it is on All Levels." Once you see how One Level moves, Progresses, and Functions, you can see how those Laws of Life repeat on every Level. And thus, you can use The Sudoku Theorem to "Fill In The Blanks."

5 Elements Of Compromised Logical Integrity, The : Lie (False Premise), Delusion (False Conclusion), Gap (Missing Data), Disorder (Information out of Order), Undefined (False Word/Name). These are the 5 Elements that always compromise the Integrity of Logical Fabric.

12 Ethical Perspective Stages of Human Growth and Evolution, The : The Core 12 Ethics that all Ethics are built on that dictate the Logical Order of our Natural Growth and Evolution.

Word We Do Not Use Due To Linguistic Toxicity, Incompetence, and Mental Damage. Some Words are too Contaminated by Ignorance to recover.

A (Retired Words)

ADHD : A derogatory Term invented by Uneducated “Average” People who used to diagnose Genius and Higher Evolved Metaheuristic Minds as “Mental Illness.” A Symptom of Perspective Abuse + A Metaheuristic Mind. See Neurodivergent. This misdiagnosis of Genius for Mental Illness was common from 1950 to 2025 due to the level of Ignorance in “Professionals” who

believed they were “Experts” while also being so incompetent as to “diagnosing” Genius as Mental Illness. See Metaheuristic Mind.
