

2022 JCPS Comprehensive School Survey

The Jefferson County Public School District's annual Comprehensive School Survey is now open for students, families and employees. The survey, which has been used by the district for more than 20 years, is a valuable resource for identifying specific needs and crafting strategies to ensure success for all JCPS students.

The survey is **voluntary** for all employees, families, and students in grades four through 12. This year the survey is shorter and **focused** on gaining invaluable feedback on **sense of belonging** and the **future state** of JCPS.

Your participation is confidential. No individual can or will be identified, and survey results will be reported as group data only. Parents, if you have more than one child attending a district school (or schools), please complete a survey for each.

The survey will be open until **Friday, May 6, 2022**.

- [Parent/Guardian Survey](#) (available in 7 languages)
- [High School Student](#)
- [Middle School Student](#)
- [Elementary School Student](#) (grades 4 and 5)
- [School-Based Classified Employee Survey](#)
