EMAIL #2 — What It Actually Does

Subject Line Options:

1. Let me show you exactly how MemoryBank AI works
2. 15 minutes talking = a complete product ready to sell
3. The 4-step system that turns knowledge into income

Email Body:

Hey [Name],

Since [MemoryBank AI](#) launched earlier today, I've gotten the same question a few times:

"Okay... but how does it actually work?"

Fair question.

And I'm gonna break it down.

MemoryBank AI works in 4 simple steps:

STEP 1: Choose What You Want To Create

Log in and pick from 4 product types:

- **Book** (for Amazon passive income)
- **Course** (for \$97-\$197 sales)
- **Newsletter** (for recurring monthly income)
- **Coaching Content** (for high-ticket clients)

One click. And it takes 10 seconds.

STEP 2: Have A Conversation With The AI

The AI interviews you about your expertise for 5-10 minutes.

It asks questions like:

- *"Tell me about your experience with..."*
- *"What's the biggest lesson you learned about..."*
- *"Walk me through your process for..."*

You just talk naturally. Like chatting with a friend over coffee.

No writing. No typing. No blank pages.

STEP 3: AI Creates Your Complete Product

In 60 seconds, the AI turns your conversation into a professional, ready-to-sell product:

- **Books:** 15,000+ words, 6-10 chapters, fully formatted
- **Courses:** Complete modules with lessons and worksheets
- **Newsletters:** 12 months of content ready to send
- **Coaching:** Session guides, frameworks, client materials

Everything polished and ready to publish.

STEP 4: Publish & Start Making Money

One-click publishing to Amazon, Udemy, Teachable, or other platforms.

Your product goes live. Sales start coming in. Passive income begins flowing.

That's it.

That's the whole system.

15 minutes talking → Complete product → Passive income.

Right now, lifetime access is just **\$27 one-time**.

But only 500 spots at this price.

After that, it jumps to **\$97**.

So, what are you waiting for?

3. This isn't for everyone... here's why you need it

Hey [Name],

Someone asked me yesterday:

"Who exactly is [MemoryBank AI](#) for?"

I'm talking about the AI system that helps you turn your life experiences into passive income...

And lasting legacy.

So, here's the honest answer.

This is for you if:

- ✓ You're 50+ with decades of valuable life experience
- ✓ You want passive income but don't have any tech experience
- ✓ You've thought about creating a book or course but felt overwhelmed
- ✓ You want to turn your knowledge into \$2,500-\$5,000/month
- ✓ You're tired of watching younger "gurus" profit from less experience

Because MemoryBank AI does one thing extremely well:

It turns your decades of expertise into income-generating products in 15 minutes or less.

No writing. No tech skills. No months of work.

Just a conversation.

[Click here to see if this is right for you](#)

Now, let me also tell you who this **ISN'T** for:

- ✗ People who enjoy complicated stuff
- ✗ People who think AI is "cheating"
- ✗ People who believe their knowledge isn't valuable
- ✗ People who prefer doing everything the hard way

If that's you, you probably won't need this.

But if you're someone who:

- Has decades of knowledge sitting in your head doing nothing
- Wants to finally get PAID for a lifetime of expertise
- Prefers simple systems over complicated processes
- Values speed and results over struggle and delay

...this tool was built specifically for you.

Right now, access is just **\$27 one-time** for the first **500 members**.

After that, it jumps to **\$97**.

3. He generated his first online income with MemoryBank AI

Email Body:

Hey [name],

Got an interesting message this morning.

One of my readers told me he grabbed [MemoryBank AI](#) yesterday.

He's 67. Retired accountant. 40 years of experience.

Always wanted to write a book about small business finances but never knew where to start.

Here's what he did:

Logged into MemoryBank AI.

Clicked "Create Book."

Had a 6-minute conversation about tax strategies for small businesses.

The AI asked him questions. He answered naturally.

13 minutes later, he had a complete 16,000-word book:

"The Small Business Owner's Tax Survival Guide: 40 Years of Lessons."

Fully formatted. Ready to publish.

He uploaded it to Amazon that afternoon.

Three 4 hours later, he made his first \$37.

Not life-changing money.

But here's what he told me:

"For the first time in my life, I'm getting paid for what I know. Not for hours worked. Not for showing up. For knowledge I already have."

That hit me.

Because that's what this really does.

It proves your life experience has value.

And it does it in 15 minutes.
