How to Land a Web3 Job!

Info about how to get a crypto job that affords you the luxury of being paid in digital currency, working from the comfort of your home in the crypto space is no longer hidden.

For instance, I work as an affiliate for some crypto projects and a major crypto exchange- @Binance and I get paid in BUSD for completing some easy-to-do tasks.

That opportunity is open to all with the requirement quite easy to attain.

Read on and you will get to learn more from the details I will share on this trend.

Let's begin with...

What are Web3 jobs?

They are crypto-related jobs that help you earn and get paid in cryptocurrency (**either in crypto tokens or stable coins like BUSD and USDT**)

What are the types of Web3 jobs?

In the Web3 space, we have various types of jobs that you can earn besides from passive income available to most Web3 crypto projects.

I have outlined it here for you...

Meanwhile, before I proceed, kindly **Do this simple task...**

Like this content, Retweet it, and Follow me.

Thanks, if you have completed that task.

If you've been following, I mentioned that there are various **Web3 jobs**, and all you have to do is to find them and get them.

I have listed some here based on their types.

👉 Jobs where you are expected to provide Value to get paid.

***Working for a Crypto project or Exchange as an Affiliate**

(e.g Binance Affiliates earn a commission for referrals and completing some basic affiliation tasks and @Binance pays as high up to over \$3000 for completing some of these tasks, if you are enrolled as an affiliate)

***Working as a Content Creator.** (copywriter, graphics designer, video content creator, video editor, whitepaper animations creator, cartoon illustrator, etc)

(e.g For example, I create content for some of the crypto projects marketed by a big Asian Crypto marketing Firm (DTC Group) and earn up to \$400 monthly.(you can look them up on Twitter).

I also used to earn from Binance in the just concluded **Binance Affiliate Content Program**, where my monthly task was to create content to educate crypto enthusiasts about its trading platform and how to use various packages offered and it was usually sweet to land that \$300 monthly each month on the 15th whenever my content got approved which was regular. (You can look up some of the contents I created in my blog archives-

<https://www.publish0x.com/@Pompey-Fintech-Academy>).

***Working as a Developer or a UX Designer.**

For those in the computer science world that know how to create codes, work with codes and develop tokens, write codes, and design UX interfaces...(there is so much money to be made in the Web3 space).

***Working as a crypto Community Moderator. (Telegram Mod, Discord Mod etc).**

Well, this opportunity is getting so difficult to get one these days as it is now crowded, as many are already there earning up to \$100 weekly for just answering questions from new community members, sharing details about the projects, education others about the crypto project's buy&sell task, providing guidance etc.

But there are so many projects coming up daily, so I wouldn't rule out the possibility of getting one.

***Working as a new project Shiller. (eg Twitter Shiller or telegram Shiller)**

Am very sure you must have seen crypto launch or crypto airdrop ads on telegram or even twitter sent to you sometimes unsolicited or posted in a tweet comment section and you were probably wondering if the person is just sharing info. 🤔

He is shilling a project and he would get paid because that's a social media marketing role.

👉 Jobs you create for yourself (Most reliable and advisable).

***Create a job to pay yourself as a web3 trader.**

This is basically the easiest way to work for yourself and pay yourself as your own BOSS. All you need to do is learn the skills and requirements to Trade degens, trade on Centralized exchanges(CEX) like Binance, Trade DEFI tokens on Pancake swap, Sushi swap etc and book profits from trades and make it your salary, daily Or weekly as you may prefer. Some like me even take down my daily PNL to track my progress and you can even decide to join challenges to push yourself. I am currently in one @cryptocillage_ where we are doing a \$50 to \$1000 challenge.

***Learn the concepts of Cryptocurrency and Blockchain and teach it as a Crypto Tutor.**

Teach as many people as you like about the benefits of trading crypto, how to trade crypto, how to flip \$10 to \$100, how to place trades, the basics of crypto, teach how to create and sell NFTs, how to make money from crypto, Teach how to make money from DEFI, etc and get paid for teaching.

Imagine you have ten students monthly and they pay \$10. That's like \$100 for almost doing nothing. And mind you the lowest fees paid for learning trading these days are around \$20 - \$50, while some teach with \$200 - \$1000 depending on the skill being taught.

***Learn TA and FA and become a Crypto Analyst like @zeddyakuya.**

If you become as good as he is or as some other crypto TA mentors I follow like @jamyies or @amcrypto, you could use that knowledge to create a job by providing signals for a fee.

The list goes on but I can't drop it all here, so to learn more...

Click the Follow button if you're reading this on Twitter or search me on Twitter using @Forestkaycee to get more details, links and info for more web3 job options and how to go about it....

If you wanna trade with my free signals on Binance. Use this **link**:

<https://accounts.binance.com/en/register?ref=65177765> to open an account, complete KYC and join my **telegram channel** here- <https://t.me/pompeycryptogems> or **WHATSAPP** here- <https://chat.whatsapp.com/Co65OOTswEKI5rsMSY33hL>

To become an Affiliate for Binance and earn some passive income.

Join Binance Africa (MUST)

Telegram - <https://t.me/binancenigeria> **Twitter** - @binanceafrica

Instagram - @binanceafrica_

Then use these links below to apply.

Binance Affiliate- <https://www.binance.com/en/activity/affiliate/register>

Binance Bootcamp-

<https://www.binance.com/en/survey/b810b256357a4145a898c4c29a353115>

If you are from Africa and have a very large community of over 1000 followers. DM me with proof of your community followers to help you fast-track the process as we are advocating for crypto adoption in Africa and that's why I am sharing these info for **absolutely free** like my mentor @cryptolord is doing.

For Mod jobs, check @defiprincess thread on it below..

https://twitter.com/defiprincess_/status/1550145091561369600?t=VDTvpgEKqleZU1_LMYQgcw&s=19

For Job listings, use the Twitter search bar.

Type **web3 jobs** on your Twitter search bar and click search to get a list of places you can see fresh Web3 job listing.(check tweet image to see example).

I have also prepared an article with info and materials to guide you on landing a Web3 job. Use the link below to access it.

https://docs.google.com/document/d/1mtbuzZ_hdT7_2XSLWITsDho7zDgla7zF/edit?usp=drivesdk&oid=111542458766887536461&rtpof=true&sd=true
