

Since 1993, Life Line Screening has been the premier provider of annual preventive health screenings for **stroke and cardiovascular disease risk** as well as other chronic illnesses.

A package of four screenings to identify cardiovascular disease and other chronic conditions will be offered:

- Carotid artery ultrasound that scans the carotid arteries for buildup of fatty plaque-one of the leading causes of strokes.
- Abdominal aortic aneurysm ultrasound screening for an abdominal aneurysm that could lead to a ruptured aorta.
- Heart Rhythm Screening (AFIB) A quick and easy test using a 6-lead EKG placed on the arms and legs to identify the presence or absence of an irregular heartbeat.
- Peripheral Arterial Disease Screening-Evaluates for PAD in the lower extremities, which increases the risk of cardiovascular disease.
- PLUS, a FREE Hypertension Screening!

As the host of the event, Life Line Screening is extending a special offer to all of our members for a screening package that enables you to get peace of mind or early detection.

Click here WWW.LLSA.SOCIAL/HSCA or call 888-814-0466 to schedule your appointment and use promo code HABC001! A simple screening can be worth a lifetime.
