Accessibility Policy

Bitcoin City USA is strongly committed to enhancing our website and making it more accessible to all people, including those with disabilities.

Accordingly, we have taken and will continue to take various actions to enhance our site and increase its usability for those who access the web using assistive technology. Our efforts are guided by the Web Content Accessibility Guidelines, version 2.0, Level AA (WCAG 2.0 AA), as they may be updated from time to time. We will continue to improve our digital properties and strive to deliver the most accessible user experiences.

Please note that our website may link to, or interface with, third-party websites that we do not control and are not affiliated with Bitcoin City. These third-party vendors may not have undertaken the same efforts that Bitcoin City has to comply with the above standards. As such, Bitcoin City does not make representations regarding the accessibility and compliance with the ADA of third-party websites and is not able to make accommodations on such websites. Specifically, some pages have partial conformance due to the use of third party vendors. As such, Bitcoin City does not claim full site-wide compliance, instead a partial conformance, as defined by WCAG Level AA 2.0. Bitcoin City cannot ensure conformance of crucial third-party plugins and widgets. Our conformance claims only extend to pages within the bitcoincityusa.com domain.

If you experience difficulty accessing our website content, you may share feedback and receive assistance from our customer care associates at bitcoincityusa@gmail.com.
