Subject: **Student GAFE (Google Apps for Education) Accounts**

Hope the start of school has gone smoothly for everyone!

Student accounts on GAFE are ready for use.

Students' username and email address is <student_id>@my.hartdistrict.org

Initial password is *flmmdyy* (first letter of first name, first letter of last name, 6-digit birthdate)

If you or a student encounter password issues, there should be a handful of staff, at your site, that have the ability to reset GAFE passwords.

The old email system for students (@hart.k12.ca.us) will remain available until the end of this school year. We are in the process of emailing all existing @hart.k12.ca.us email accounts to inform them of their new Google account. They have this entire school year to forward/print any messages they want, before we shut down that system.

We've been delighted to hear positive feedback from you and how you have and/or plan on using GAFE to increase collaboration and productivity amongst staff and students!

Best regards,

District Information Technology Department
