

Educlimber - Quick Guide

Creating an Intervention Linked to an IEP

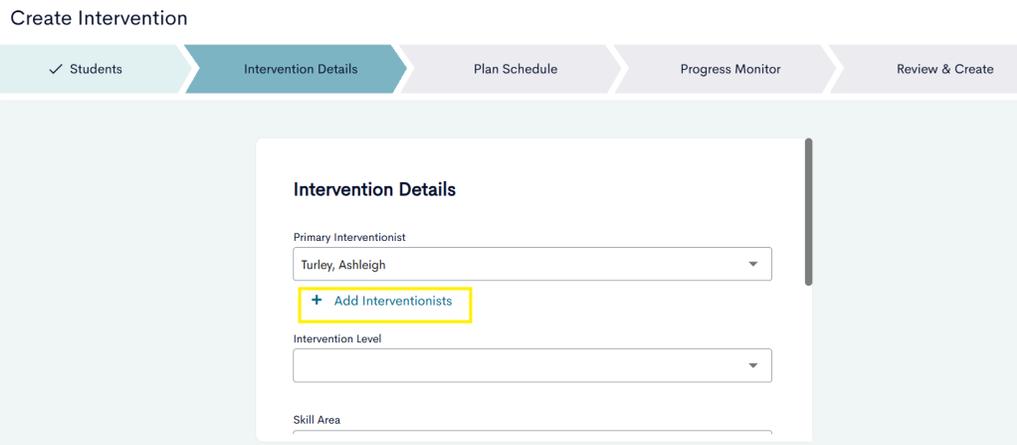

1. Click on the **+** sign in the top left corner of your screen and choose “Create Intervention”:

2. Add Students. Select students from the drop-down menu. You should see the selected students in “Students in Intervention”. Click ADD:

3. Add Intervention Details
 - a. Additional Interventionists can be added so that others can access/edit interventions:

b. Choose the Intervention Level: IEP

Create Intervention

The screenshot shows a multi-step process for creating an intervention. The current step is 'Intervention Details'. A modal window is open for adding interventionists, with a dropdown menu for 'Intervention Level'. The dropdown menu is open, showing the following options: Tier 1, Tier 2, Tier 3, IEP, and TAG. The 'IEP' option is currently selected and highlighted.

c. Choose the Skill Area: For Behavior interventions, use the Resilience area (Do not choose Behavior Point Sheet)

d. Choose the intervention strategy you will be using

e. Rename the Intervention using the following naming convention: (SY - Skill Area: Intervention)

Example: (2526 - Resilience: Behavior Intervention Plan

f. In the Displayed box place your IEP goal.

g. Click ADD

4. Add Intervention Schedule:

a. Identify the start and end dates, days of the week, and the amount of time for each intervention session. (The exact start and end times are not important but the amount of time is. For example: If an intervention is 15 minutes on Monday and Wednesday then make sure that the start and end times reflect 15 minutes)

5. Monitoring Schedule:

a. Multiple measures can be attached to interventions if needed by clicking on “New Measure”:

New Measure

b. Add monitoring user

c. Add monitoring type that is aligned with the identified skill deficit (e.g., DIBELS, ST Math Journey Progress, Lexia assessments)

d. Date and Time - The monitoring dates should match your intervention start and end dates. Start and End times do not matter. The number of weeks will depend on the tier of your intervention (e.g., Tier 2 = every 2 weeks, Tier 3 = every week)

e. Day(s) of the week for monitoring - **Choose Friday.** regardless of the day progress monitoring is occurring. (This will help when inputting data for progress monitoring.)

f. Add “Goal” and “Grade.” Double click to edit these spaces):

Turley, Ashleigh

Measure Type
Missing Assignments

Student	Level (Optional) ⓘ	Goal
Sims, Kali	Add	Add

Start Date: 10/16/2025 End Date: 07/01/2026

6. Review Schedule: Enable reminder emails if you would like EduClimber to email you to review the intervention.

7. Save intervention:
