Dataverse Community Call 2 (3 PM UTC)

Dataverse Community Call 2 Agenda/Notes

- IQSS Updates
 - (meta) What if we meet an hour earlier and use Boston time instead of UTC? The next call would be https://time.is/compare/10am_30_May_2023_in_Boston
 - <https://www.worldtimebuddy.com/?pl=1&lid=5128581.100.2643743.4930956&h=5128581&hf=1>
 - Not sure what this means for call 1. Stay in UTC.
 - the latest in dev, QA, etc: <https://github.com/orgs/IQSS/projects/2?fullscreen=true>
 - merged for 5.14:
<https://github.com/IQSS/dataverse/pulls?q=is%3Apr+milestone%3A5.14+is%3Amerged>
- GDCC Updates
 - Last call for comments: [Proposal to handle retention periods and privacy-related file take-down](#)
 - [Optional ordering of files by folder and/or tag in table display](#) - merged
 - [The ability to develop/deploy new exporters](#) about to enter QA
 - [Incomplete datasets by API](#) - @ErykKul in review - supports importing from other systems that don't have all required metadata
 - [Make Data Counts - display with legacy counts](#) - QDR ~in review
 - <https://data.qdr.syr.edu/dataset.xhtml?persistentId=doi:10.5064/F6Z31WJ1>
 - <https://summit.makedatacount.org>
 -
- Community Questions
 - Kris (KU Leuven) Some clarification needed on geolocation input format. Comma delimiter
 - <http://preview.guides.gdcc.io/en/develop/user/dataset-management.html#geospatial-bounding-box>
 - "Easternmost coordinate delimiting the geographic extent of the Dataset. A valid range of values, expressed in decimal degrees, is -180,0 <= East Bounding Longitude Value <= 180,0."

- (Phil and Jim) The comma doesn't seem correct. Should be a period. See periods at <https://github.com/IQSS/dataverse/blob/fc23042ab337dafb1c92f2aab15c73a223bedcec/src/test/java/edu/harvard/iq/dataverse/api/NetcdfIT.java#L221-L224>
- (Jim) East has to be east of the west boundary, and the north edge north of the south edge.

○

Dataverse Community Call 2 Attendees

- Phil Durbin (IQSS)
- Jim Myers (GDCC, QDR)
- Kris Dekeyser (KU Leuven)
- Sherry Lake (UVA)
- Don Sizemore (Odum Institute)
- Alfredo Cosco (4Science)
- Dieuwertje Bloemen (KU Leuven)
- Gwenaël Doux (Cirad)
- Sebastian Karcher (QDR)
- Johannes Darms (ZB MED, NFDI4Health)
- Akio Sone (UNC Odum Institute)
- Ozgur Karadeniz (KU Leuven)
- Eryk Kulikowski (KU Leuven)
