

Hi [brand]

I have never been interested in this insole game but your variety of products and peoples day to day life improvement stories really caught my attention.

The Bridge model which I saw on Amazon, exclusively caught my attention. I heard it returns 55% of the energy. I see that you are trying hard to positively impact the health of your community.

I think you have a great brand that is actually trying to improve people's lives, and I want to share my copywriting skills with you to accomplish this mission together.

I have seen a minor problem with the email section...

Getting it fixed will result a massive change in the client's connection with the brand. Plus, your brand will be seen as more "alive" which will bring you more sales in short term.

I would love to elaborate more on that. If you liked the idea, let's hop on a short 15 minute zoom call to discuss some more details.

*What does your calendar look like this week?*

Best regards,

*Rasim Alizade*
