

Performance Accompaniment Recordings are downloadable via the MTIPlayer app **or** streamed through the [website](#).

Rehearsal Access Code: ANN2595049

*The Rehearsal Access Code can be used by anyone in need of the rehearsal music. **THESE ARE THE MUSIC TRACKS YOU MUST USE FOR YOUR AUDITION!***

There are three options available for using the rehearsal music:

1. MTI Player from the Apple store

If you have an Apple device with an iOS of 9.0 or later, you can download our free app, The MTI Player from the Apple Store.

Once it is downloaded, you will then open the app and enter the code in the access code line. Click on "Downloads" to download the rehearsal music to your device. Then go to "Shows" to play the music.

You will need an internet connection to download the music initially, but once it is downloaded to your device, the music plays through the app and you no longer need an internet connection.

2. MTI Player from Google Play

Rehearsal Tracks are available on Android devices and you can download the free MTI Player app from Google play.

Once it is downloaded, you will then open the app and enter the code in the access code line. Click on "Downloads" to download the rehearsal music to your device. Then go to "Shows" to play the music.

You will need an internet connection to download the music initially, but once it is downloaded to your device, the music plays through the app and you no longer need the internet to connect.

3. Laptop

If you are using a laptop or do not want to download the app, you can stream the rehearsal tracks through the internet by going to the website <http://player.mtishows.com/> and enter the code in the access code line. You do need an internet connection to play the music from the Website.

Please note:

- You will need to make sure that you have enough space on your device to download the music in a strong WiFi area.
- Once the tracks are downloaded, you will also want to run the show tracks with the device in airplane mode. Receiving a phone call or text message, automatic updates, etc. can disrupt the app.
- If you leave the app during downloading, it will cancel your download and you may have to start over again.
