## Summary and general info of the species

### **Can they reproduce ?**

- Yes, even if their creation was rushed because of the circumstances, they are still living beings like others. Felimps can be male or female and have genitals that fit their gender. They are mammals.

### **Are they evil ?**

- Felimp do have demon blood in their veins and are capable of using some demonic magic (moving small objects - telekinesis | creating small flames - pyrokinesis) but would be too weak to make significant damage on Earth. They were sent to Earth with no task, as they were sent there to free space for other souls in Hell.

They are commonly known for being very prankster and sometimes sadistic, but not dangerous as long as they are not under the influence of someone else.

### **What is a closed species ?**

- Felimp are a closed species which means (just like any other original character) I don't want you to reproduce those designs.

### **I want one, what do I do?**

- You can get one by:
    - 1 - Purchasing an adoptable
    - 2 - Purchasing a MYO (make your own) slot (can be purchased with evil souls which are the currency the felimp specie uses, can be obtained by submitting art)
    - 3 - Winning a raffle or other events.
