		Rescinds:	Issued:

The Board shall authorize the construction of a sufficient number of school buildings to meet the demands of present and future enrollments. Plans shall include:

1. Simplicity of design;
2. Sound economics, including low long-range maintenance costs and insurance rates;
3. High educational utility; and
4. Flexibility.

The Board establishes the following broad goals for the development of facilities:

1. Integrate facilities planning with other aspects of planning in a comprehensive program of educational problem solving;
2. Design facilities economically while planning the specifications to meet the needs of students;
3. Involve parent(s)/guardian(s), staff, and members of the community on school construction and design; and
4. Design school buildings while being mindful of potential community use.
